

Monster Storm Isolates Miami With 120-Mile Gale From Sea

Miami, Fla., Sept. 17 (AP)—A dozen commercial airplanes used in service to Pan-American countries were smashed today when winds estimated at 100 miles an hour blasted an airport at Miami.

Miami, Fla., Sept. 17 (AP)—A cyclonic tropical storm tore into Florida's east coast today, isolating Miami and sending thousands of refugees streaming from flood-menaced Okeechobee lowlands.

Shortly before noon, the monster hurricane was charted "very near" the coast, a short distance south of Palm Beach, and was swirling toward land at 10 miles per hour. The tropical storm, which was born in the Caribbean eight days ago, was expected to rip across the Florida peninsula, with peak intensity in the Fort Myers area about tonight.

Winds "considerably above 100 miles per hour" beat down trees, broke communications lines and flattened light buildings as the storm mounted in force. Miami had gusts up to 108 miles per hour, and the Coast Guard at West Palm Beach said 120-mile gusts were slamming its installations.

A 38-foot Coast Guard picket boat was sighted struggling against towering seas, after an attempt to evacuate a dozen persons from a strip of land southeast of Miami. It was not certain if the refugees were aboard.

Yacht Sends SOS
Three persons aboard a private yacht radioed an SOS, but the Coast Guard said high seas and hurricane winds made rescue impossible.

Prospect of the storm sweeping into the Gulf of Mexico caused hurried evacuation of Army air fields, and MacDill field sent its B-29's to Chanute and Scott fields in the middle west. Smaller planes at Pensacola, Mobile and other exposed points were ordered inland.

Hundreds of thousands of persons in the hurricane-danger zone fled to public shelters and huddled in schools, courthouses, Federal buildings and hotels while the terrific storm lashed the coast.

An estimated 10,000 persons streamed in a dismal procession through Sebring, Fla., in headlong flight from Lake Okeechobee lowlands, where 1,500 persons drowned in 1928.

The great blow, possibly the worst since 1928 when 2,500 perished and \$75,000,000 damage was inflicted, piled up the water of Lake Okeechobee behind Palm Beach, and Sheriff John Kirk said: "I hope to God the dikes hold."

Palm Beach Cut Off
The rich, populous lower east coast was batten down for full force of the hurricane, but the state's \$100,000,000 citrus crop was in incalculable danger.

At 9:30 o'clock the West Palm Beach area had sustained winds of 82 miles an hour and with gusts up to 110 miles an hour.

Palm Beach, the winter playground of the world's rich, was virtually cut off from the outside and communication lines were reported down throughout the area.

The barometer plummeted in Miami, and weather-wise residents in the target area huddled in public shelters and in reinforced buildings. Heaviest force was expected near Palm Beach, where cyclonic winds up to 160 miles per hour may lash in from the sea.

Before the mighty winds wheel around their center to strike Miami they will pass over land. Their force drops off sharply under these circumstances, but they still contain a mighty wallop.

Prepared In Night
The tap-tap-tap of hammers, nailing up storm protection over glass windows, echoed through the night. At times the howl of the gale drowned out the sound of the hammers.

Some of the wind blasts are dry. Others sting the face with raindrops that fly like bullets. Already a few trees have toppled. The green glares of short circuited wires flash up occasionally.

Miamians are hidden away in homes and shelters. More than 5,000 are in schools, federal buildings, police and fire stations. Two hotels have been set up as emergency hospitals. The municipal hospital is crowded with ailing evacuees.

DRIVERS PAY FINES

Harvey J. Davis, Westminster, has paid a fine of \$5 and costs before Justice of the Peace L. G. Kuhn, Conewago township, on a charge of failing to halt at a stop sign laid by state police.

Charles E. Cosgrove, Smithburg, Md. R. 2, paid a fine of \$10 and costs before Justice William Dentler, Cashtown, on a charge of passing in a no passing zone laid by state police.

SUIT IS BEGUN

An action is assumpsit brought by the Universal C.I.T. Credit corporation against John B. and Grace A. Bell, McSherrytown, has been filed by Attorneys Swope, Brown and Swope with the county prothonotary. A note was said to be the basis for the action.

PRICE THREE CENTS

DAIRYMAN IS ELECTROCUTED BY SILO PIPE

Harvey E. Miller, 51, prominent farmer and dairyman of near Emmitsburg, was electrocuted Tuesday evening at 6:30 o'clock when a pipe he was holding in setting up silo-filling equipment at the farm of Paul Late, one mile east of Emmitsburg along the Taneytown road, came in contact with a high tension wire.

Miller and his son, Harvey, Jr., and Mr. Late were erecting the silo-filling equipment in preparation for the filling of the silo today. Mr. Miller was holding a long pipe which leads up to the silo when it swayed and came in contact with high tension wires strung along the highway. He was killed instantly by the short circuit which lasted about 30 seconds.

The victim's son and Mr. Late rushed him to the office of Dr. W. R. Cadie, Emmitsburg, where artificial respiration and oxygen were used in a futile effort to revive Mr. Miller.

Funeral On Friday
Charles H. Conley, Jr., deputy medical examiner of Frederick county, and the Frederick county sheriff investigated the accident.

Mr. Miller was a son of the late George W. and Emma Jane (Harbaugh) Miller. He was a member of the Emmitsburg Reformed church and was an elder and member of the Sunday school of the church. He resided one mile east of Emmitsburg on the Keysville road.

Surviving are his widow, the former Minnie S. Byers; five children, Harvey, Jr., Louetta B., Ray H., Jean A. and Frances E., all at home; one brother, George H., who resided with his brother, and three sisters, Mrs. Chester Ohler, and Mrs. Edward Fleagle, of near Emmitsburg, and Miss Ora G. Miller, all of Emmitsburg.

Funeral services Friday afternoon at 1:30 o'clock from the Puss funeral home, Taneytown, conducted by the deceased's pastor, the Rev. Edmund P. Walker. Interment in Memorial Park cemetery, Frederick. Friends may call at the funeral home Thursday evening from 7 to 9 o'clock.

PYTHIANS HONOR COUNTY WOMAN

Mrs. Helen Brendle, Littlestown, recently elected grand chief of Pythian Sisters for Pennsylvania, was honored by upwards of 500 Knights and Sisters of Pythias Tuesday night at the Lyric auditorium, Hanover, at a testimonial reception.

A member of Hanover Royal Temple 107, Pythian Sisters, Mrs. Brendle was acclaimed in the presence of the Hanover host temple by officers of the supreme and grand lodges and members of the tribunal of the state.

Most Excellent Chief Helen Baker welcomed the guests to the reception and introduced Richard Shultz, Hanover knight, and master of ceremonies for the event.

Rev. Dr. Harry Hursh Beideman, pastor of St. Matthew's Lutheran church, delivered an invocation. Later Mrs. Betty Charles, a member of Trinity Reformed church choir, sang "The Old Refrain" and "Always." Mrs. Irma Weeks entertained with a combined cornet and piano solo of "Jupiter."

Climax of the reception was presentation of a float load of gifts to Mrs. Brendle by a committee composed of eight Pythian sisters and Mrs. Brendle's two young granddaughters, Patricia and Sandra Anthony. In the presentation group were Mildred Wagner, Leota Baker, Mary White, Ruth Miller, Louise Caler and Sylvia Hinkle.

Afterwards refreshments were served and guests danced to the music of Harry Marsh and his band.

County Girl Will Wed On Saturday

Miss T. Ruth Smith, daughter of Mr. and Mrs. Edgar J. Smith, near York Springs, will become the bride of Robert Woody Hall, Prince Frederick, Md., on Saturday, September 20, when the ceremony will take place at 3 p. m. at the York Springs Lutheran church in the presence of a group of relatives and friends who will afterward be guests of the bride's parents at a reception at their home.

Miss Smith, a graduate of the York Springs high school, later studied in the chemistry department of Penn State college. During the war, she had a position in the Dupont laboratory in Delaware and later accepted a place on the faculty of the high school in Prince Frederick, Md., as chemistry instructor.

Mr. Hall was appointed during the past year as county farm agent of Calvert county, Md.

Wanted: Several men for yard and inside work. Apply Reaser Furniture Company office.

School Election Dates Are Fixed

Primary elections at Gettysburg high school will be held Friday and the general election on Friday, September 26.

A committee is nominating seniors for the presidency of the student body and for student representative on the Athletic board while nominations for class officers are being made through student petitions handled by the Student Council.

Nominees for president of the student body are Ruth Jeanne Diehl, Galen Keeney and Freda Rohrbaugh. Those nominated for the Athletic Board position are Kenneth Pair and Jack Ridinger.

Each class will elect a president, vice president, secretary and treasurer. Students who qualify with the necessary scholastic averages have been listed on a school bulletin board.

Voting will take place from 9 a. m. to 3:45 p. m.

HANOVER PLANS MASS MEETING ON JUVENILES

Plans for a mass gathering in Hanover to meet the juvenile problem there are now under consideration, according to an article appearing in The Philadelphia Inquirer this morning.

A staff reporter for the Inquirer said that "organized teen-age gangs, operating under the noses of police who are powerless to stop them have run rampant for more than two years in a career of crime and viciousness that threatens, in the words of Acting Chief of Police Myrtis Wine to 'send them all to the pen when they're old enough.'"

The news article stated that the situation includes such crimes as highway robbery, assault, arson and burglary committed by boys from 15 to 18.

To Place Responsibility
Plans for the mass meeting are being arranged by Harry Lenz, chief probation officer for the juvenile Division of the York County courts, according to the story in which is added "responsibility for a thorough clean-up will be placed squarely on the shoulders of parents and townpeople."

According to the reporter: "Conditions here (in Hanover) were brought to a head last June, when hazing of a 12-year-old schoolboy resulted in his being so severely beaten that he required hospital treatment. The victim, William P. Roberts, was given 200 lashes with the buckle end of a belt by a gang of about 20 older boys, 18 of whom have since been rounded up."

"This schoolyard incident, occurring on the last day of classes, set off an investigation which disclosed that hazing, for a number of years, (Please turn to Page 2)

Farewell Service For Dr. Alleman

Dr. H. C. Alleman, Springs avenue, professor emeritus of the Gettysburg Lutheran Theological seminary, who is planning to move to Maryland Friday, was honored Tuesday afternoon at the hour of chapel service at the seminary. Dr. Jacob M. Myers was in charge of the farewell service for Doctor Alleman and after the service Dr. A. R. Wentz presented a bouquet of American Beauty roses to Dr. and Mrs. Alleman as a gift from the faculty.

Doctor Alleman told of his 36 years of work as a professor at the seminary during the service. It was announced that in honor of Dr. Alleman a fund is being raised to establish an alcove in the library in which the more valuable books from Dr. Alleman's collection will be placed.

WEDDING DATE SET

The marriage of James Clyde Staub, son of Mr. and Mrs. John L. Staub, New Oxford, and Betty Jane Stevens, 37 South street, daughter of Francis X. Stevens, will take place September 20, it was learned today. Miss Stevens' address was incorrectly stated as New Oxford in a report of the marriage license Tuesday and her father's name was given incorrectly.

FIREMEN TO DRILL

The Gettysburg fire department's new ladder truck will be taken out for the first time when firemen report at the engine house at 6:30 o'clock for a drill session. Fire Chief James A. Atmen said today.

CONDITION FAIR

The condition of Miss Annie M. Gingrich, 70, Palmyra, who suffered a depressed fracture of the skull in an auto accident near Emmitsburg Monday afternoon, was reported as "fair" at the Warner hospital today.

SUES FOR DIVORCE

Selema M. Haugh, Wrightsville, has suit for divorce from Thomas M. Haugh, Abbotstown, in York county court.

Storm Moves On Florida

Arrows indicate general westward path of storm as it moved from the Bahamas toward Palm Beach, Fla., area as hurricane warnings were ordered along the east Florida coast from Fort Lauderdale north to Titusville (shaded area).—(Associated Press Map)

BULLETINS

Washington, Sept. 17 (AP)—James V. Forrestal today became the nation's first secretary of defense—civilian boss of the army, navy and air forces.

The senior member of President Truman's cabinet relinquished his duties as secretary of the navy at noon and took the oath of his new office from Fred M. Vinson, chief justice of the United States, in a ceremony at the navy department.

New York, Sept. 17 (AP)—Harold E. Stassen today declared America "should begin at once a nationwide, coordinated, voluntary food conservation program" and at the same time he called for a special session of Congress to enact the Marshall plan.

Frankfurt, Germany, Sept. 17 (AP)—Lt. Gen. John C. Lee, whose Mediterranean command recently has been under investigation by the army's inspector general, arrived here today en route from Italy to retirement in the United States.

Hospital Report

Charles Wolf, 33, Gettysburg R. 5, was x-rayed this morning for injuries received Tuesday afternoon when he was thrown from a horse. He was discharged after being treated.

Admissions include Mrs. J. Floyd Slaybaugh, 33 East Middle street; R. C. Edgar King, East Berlin R. 2, and Mrs. Madilla Eldon, Bendersville. Those discharged were Mrs. Charles Redding, 61 West High street; Mrs. Cletus Redding, Gettysburg R. 2; Mrs. John Rasmussen, Hillsdale, Mich.; Mrs. Robert Asper and infant son, Terry Lynn, Aspers R. 1; Mrs. Zell U. Thomas and infant son, James Lewis, Biglerville; Gloria Simpson, Taneytown R. 1, and Jerry Racey, Montgomery, Pa.

IS RECOVERING

James Hoak, 13, son of Mr. and Mrs. Spenser Hoak, Gettysburg R. 2, was reported as being in "good condition" at the Warner hospital today. The youngster underwent an appendicitis operation Sunday.

Marshall Censures USSR In Policy Speech To UN Body

New York, Sept. 17 (AP)—Soviet Deputy Foreign Minister Andrei Y. Vishinsky today withdrew his request to speak before the United Nations Assembly this afternoon following the major U. S. policy speech of Secretary of State George C. Marshall. The Russians said their opening policy declaration would be made "probably tomorrow."

By JOHN M. HIGHTOWER

New York, Sept. 17 (AP)—In a speech bristling with censure of Russia, Secretary of State George C. Marshall challenged the United Nations today to make a "supreme effort" to break the world's "deepening political and economic crisis" and save Greece from the "attacks" of its Balkan Communist neighbors.

With undiplomatic bluntness, Marshall accused Yugoslavia, Albania and Bulgaria of "hostile and aggressive" acts against Greece, told how three Russian vetoes had blocked Security Council action to protect the country, then flung this sharp warning to the 55-nation U.N. assembly:

"This assembly cannot stand by as a mere spectator while a member of the United Nations is endangered by attacks from abroad. If the United Nations should fail to protect the integrity of one small state, the security of all small states would be placed in jeopardy."

FIREMEN SAVE BLAZING HOUSE AT LITTLESTOWN

Using their jet pump and other lines from a booster tank, Littlestown firemen succeeded in checking a blaze shortly before noon today that threatened to destroy the two-story frame house on the Thomas McSherry farm at the edge of Littlestown along the Taneytown highway.

About 11 o'clock this morning, flames that had originated in the motor of an electric refrigerator in the kitchen of the house were discovered by Marie Bowman, daughter of Mr. and Mrs. Howard Bowman, tenants on the farm. Lacking a telephone, it was necessary to drive to Littlestown to call the firemen.

When the company arrived, flames had spread through the west side of the house, inside and out, and had damaged both floors. Using a bucket brigade to keep the booster tank full on its pumper, the company turned three lines of water on the blaze and had it under control in 15 minutes. A well furnished the water supply.

Fire Chief Jay D. Basehoar estimated the fire caused \$2,000 damage to the home and \$1,000 to its contents. The loss was partly covered by insurance. A living room suite was destroyed as were several other pieces of furniture but neighbors helped the Bownmans carry some of the home's furnishings to safety.

Teeter Places Fire Damage At \$22,000

Damage to the J. S. Teeter and Sons, Inc., main garage in Saturday's fire totalled approximately \$22,000. J. D. Teeter said today with the near completion of the inventory that was begun shortly after the fire had been extinguished.

A replacement for the large truck-tractor destroyed in the blaze is expected within a week, Teeter said, and work on rebuilding the garage will probably begin within the next several weeks.

Redding Girl Is Satisfactory Today

Virginia Lee Redding, five-year-old daughter of Mr. and Mrs. Carroll Redding, Gettysburg R. 3, was described as "doing satisfactorily" at the Warner hospital today. The child was struck by an automobile driven by Albert V. Cardenti, Hanover street, Tuesday afternoon at 12:08 o'clock near the Belmont school house on the Lincoln highway west of here.

State police, who investigated, said the child was walking west on the south side of the highway with Yvonne Settle, 11, and Elinore Settle, 10, and that the three children were planning to cross the highway to the north side near their homes. They were waiting to cross the highway to the Redding home when the little youngster dashed away from the two older girls across the road into the path of the Cardenti car.

Cardenti served to the left, police said, but was unable to avoid the youngster who was caught by the right front fender of the car and thrown to the north side of the highway. Damage to the car was \$2. The child was badly cut about the head and body, and completed examination may show more serious injuries.

LIONS TO MEET

Among those who took part in a fishing trip to Fishing Bay, near Ocean City, Md., Saturday were the Rev. Kenneth D. James, Preston Crabbs, Claude Cerrick, Edgar DeGroot, Walter Yingling, Preston Myers, Paul Hawk, Harry O. Harner, Kenneth Miller and Edgar Wolfe.

Harry T. Harner and Samuel L. Bucke, program committee members, are in charge of the weekly meeting of the Littlestown Lions club to be held Thursday evening at Banker's restaurant. The Rev. Grant E. Hoopert, pastor of Centenary Methodist church will be guest speaker.

All firemen have been invited to attend the annual picnic of the Alpha Fire company to be held Friday (Please turn to page 2)

Tickets At Door For Benefit Card Party

Tickets will be on sale at the door this evening for the benefit card party to be held at 8 o'clock in the Moose home on York street under the sponsorship of the Gettysburg Woman's club.

The ways and means committee of the club is in charge of arrangements for the affair. Proceeds will go into the milk fund of the club.

Bank's Chime Clock Is Being Repaired

The First National bank's chime clock, after a "face lifting" job, was expected to be back in service this evening.

Lou Black, York bank remodeler, was in charge of the "beauty treatment" given the big clock. The faces were removed and repainted and structural parts of the clock that needed attention were repaired.

Gives 15 Cents For Spraying

A local resident walked into The Times office this morning about 10 o'clock, laid fifteen cents on a desk and, facetiously, said: "Here's my donation to the mosquito spraying project. I estimate that if each resident gave that much we would raise approximately \$900. This will help to pay the Chamber of Commerce's share of the expense of today's spraying and start a little nest egg for next season's spraying, hopeful, of course, that the work will start at the beginning of the season. I will gladly donate another fifteen cents each time the town is sprayed."

As he was leaving the office the visitor turned and said:

"Incidentally I spent two bucks to kill mosquitoes in my home so far this year."

ADAMS TRANSIT HAS SOLD MOST OF ITS ROUTES

Four of its five bus routes and its motor express and charter services were sold by the Adams Transit corporation, York, to companies from Pennsylvania and Maryland over the week-end.

M. Stuart Danner, manager of the Adams company, said that the bus route between York and Shrewsbury had not been sold although negotiations are presently being carried on with several prospective buyers.

The Adams buses will continue to operate this week while the PUC at Harrisburg approves transfer of temporary rights to the new owners. Members of the commission met yesterday and discussed several of the changes. Their approval is expected at the end of the week.

Freight Line Sold

The charter service was sold to the Lincoln Bus company, Hanover, and Wolf Bus company, York Springs. The Lincoln company will handle all the York territory and the Wolf company will take care of Adams county.

Persons who seek to charter buses are being referred to Mrs. N. D. Lightner, owner of the Lincoln company. (Please Turn to Page 7)

"Woman's World" Is Guild Talk Topic

"A Woman's World" was the topic of a talk given Tuesday evening by Mrs. Dunning Idle, Sr., before the members of the Women's Service Guild of the Presbyterian church at their September meeting at the church. The president, Miss Ruth McIlhenny presided.

Guild officers and Circle leaders presented reports on activities and plans for the year. Devotions were conducted by Miss Elizabeth Evans. Mrs. Mary Cecelia Meyer of Hazleton played several selections on the piano. The group included "A Ballad in A Flat" by Chopin; "Three Fantastic Dances" by Shostakovich, and "Lilse Joyeuse" by Debussy.

About 40 members attended. The program and the refreshments that followed the meeting were in charge of Circle No. 2.

3 INJURED AS CAR OVERTURNS

Three men were injured Tuesday evening at 6:40 o'clock when a car driven by one of them, Howard E. Shultz, 31, 332 South Washington street, overturned in front of the Hartzell Esso station just east of town on the Lincoln highway.

State police said their investigation disclosed that the westbound car had gotten out of control and left the north side of the highway before overturning. Damage to the vehicle was estimated at \$1,000.

Shultz was admitted to the hospital here with a fracture of the right cheek bone, contusions of the right side of the face and concussion.

Two passengers in the car were also injured. Both were treated at the hospital and discharged. They were Arthur Topper, 37, Abbotstown R. 1, who suffered brush burns of the forehead, abrasions of left leg, and laceration of the left ear, and Melvin Spence, 37, 156 York street, who suffered a laceration of the scalp, brushburns of the right arm and lacerations of the left forearm.

Luther Toppert, driver of the Gettysburg ambulance, is a brother of the Topper hurt in the crash. He did not know that his brother was among those injured until he arrived at the scene and started to assist the victims into the ambulance.

Weather Forecast

Clear and cool again tonight. Thursday mostly sunny, slightly warmer in afternoon.

Good Evening
Sharp tongues eventually cut their own throats.

TOWN SPRAYED WITH DDT-OIL TO KILL PESTS

Three hundred acres of Gettysburg, including some adjacent areas, were given a heavy dose of DDT and base oil by airplane spraying this morning in an attempt to rid this community of millions of flies and mosquitoes that have been belaboring this town all summer.

Although the spraying, authorized Monday by town council and the Chamber of Commerce, comes almost at the close of the season, local householders and others are hopeful that some degree of benefit will result.

The work was done by the Airplane Dusting and Spraying Service of Coatesville, beginning about 7:15 o'clock this morning. It was completed shortly before 10:30 o'clock.

Leaves Oil Coating

The 300 acres were sprayed with 300 gallons of the pest-killing solution which left a light coating of oil film over the entire town. Many motorists, either unaware of the spraying project or who ignored the warning given Tuesday, found their parked cars well covered with the oily film.

Six trips to reload the airplane were required to complete the work.

At 7:15 o'clock the areas around the schools, college and seminary were sprayed, the fliers wanting to complete those sections of the town before schools opened as a safety precaution for the children, although the spraying material is not injurious to humans.

Work Cost \$750

Then the "dump" on the Baltimore pike was well sprayed after which Rock Creek was given a heavy dose of the solution.

In criss-cross relays the fliers then flew north and south and then east and west across town heavily saturating the community. The Ther was also given a "good spraying." Household and others are urged to clean out all rubbish on their premises and to keep their own property free of the pests. This will help to increase the effectiveness of today's spraying.

The cost of the work is \$750, of which Council appropriated \$500 and the Chamber plans to collect the \$250 balance locally.

Here And There

News Collected At Random

A disturbed Bendersville mother writes an open letter to the Bendersville borough council as follows:

"Would it be asking too much if you would please give notice when the water is to be turned off? If it isn't on wash days it is at mealtime, and if that isn't enough you turn it off Saturday afternoon."

"How can you explain to little children that there isn't any water when they ask for it? Or, how can you give them a bath for their afternoon nap without water?"

"If it isn't asking too much would you please give notice in the future?"

Mr. and Mrs. Harvey Bollinger, 20 North Washington street, and Mr. and Mrs. George Harner, Taneytown R. D., intimate friends since their childhood, and who observe their 69th birthdays this year, although not on the same date, will commemorate the events this year on Friday at the Harner residence.

Each of the four friends are or will be 69 years old this year. For a number of years they have been celebrating the occasion at a date on or near one of the birthdays, alternating at the Bollinger and Harner homes. All four friends are in the best of health.

Harry Stonessifer, war veteran, and his family of a wife and four children are seeking an apartment, house, tent or garage in which to move next Tuesday when they will be compelled to vacate their present premises. Stonessifer's letter to The Times did not indicate where he was living. He said "We will have to break up our family unless we can find some place to live" by next Tuesday.

Adams countians purchased \$87,239 worth of U. S. Savings bonds during August. \$32,325 worth of E bonds were purchased, \$4,014 worth of F bonds and \$50,900 worth of G bonds.

BANKERS TO MEET

The Adams County Bankers association will meet this evening at 6:30 o'clock at the Fairfield community hall. Dr. C. C. Rasmussen of the Seminary will speak on his recent trip to Europe and Scandinavian economic conditions.

SCHRIEVERS TO CURB POLLUTION IN PINEY CREEK

Harrisburg, Sept. 17 (AP)—The State Sanitary Water board tentatively approved today a proposal by the B. F. Schriever company, Littlestown, to prepare engineering plans in an effort to curb pollution by canneries wastes of Piney Creek, in Adams county.

Approval of the proposal followed an agreement between counsel of the Schriever company and representatives of farmers who complained that the canneries wastes polluted the stream last June 20, causing the deaths of poultry and making dairy and feed cattle ill.

Scott Leiby, Harrisburg, counsel for the Schriever firm, promised the board that engineering plans will be drawn up immediately and submitted to board experts in time for final approval by January 1.

Daniel E. Teeter, Gettysburg, representing the complainant, said he acceded to the agreement, explaining:

Seeks Correction

"We're not interested so much in penalties as we are in correcting pollution," The Gettysburg attorney, however, reserved the right to scrutinize the Schriever company's plans which Leiby said would prevent seepage of waste from lagoons alongside Piney Creek.

Subject to board approval construction work to prevent future pollution would be required to be concluded before the canning season next year.

Today's hearing, in charge of Examiner Francis J. Gafford of the State Justice department, was a continuance of an earlier hearing August 20 when testimony was received on details of the pollution.

PHILA. HOTEL HAS 700 ON STRIKE

Philadelphia, Sept. 17 (AP)—The nearly 700 CIO employees of the Bellevue-Stratford hotel went on strike today leaving only 40 supervisory employees and a few maintenance men to operate the 18-story central city building.

Most of the 900 guests, including 150 permanent residents of the fashionable hotel, were still in their rooms when the strike started. Guests carried their own bags as they arrived and checked out and made their own beds—if they were made at all. The dining room, bar and other such services were suspended.

"The issue is whether management or the union is going to run the hotel," said Bennett E. Tousey, vice president and general manager of the hotel. "It will be settled in this strike."

"The management is demanding the right to fire anybody it wishes without arbitration," said Anthony D'Elia, chief bellboy and president of Local 356, hotel and restaurant union. "We have made our last move. If the management wants to resume negotiations they know where we are."

D'Elia said the union asked for \$4.40 weekly increase and a 40-hour work week a month ago and that management then offered 32 counter demands. Previous wage rates were not disclosed.

The strike was the second at the hotel in ten months. Last November the employees were out 10 days before a contract renewal agreement was reached.

TOUGH PROBLEM FOR MILK BOARD

Harrisburg, Sept. 17 (AP)—The State Milk Control commission faced the task today of protecting the consumers while trying to give producers a reasonable return and insuring a sufficient supply of milk for the Commonwealth.

"If milk prices continue to keep spiraling they will reach the point where they will be prohibitive to consumers," declared John J. Snyder, a member of the commission. "I feel very sympathetic to the position of the consumer," he added, "and I feel sure the commission will digest very carefully all the economic factors in considering any new price orders."

At the same time Snyder pointed out that producers and dealers in most of the state's milk marketing areas are asking for higher prices for wholesale milk in the face of what they assert are rising production and distribution costs.

The commission is expected to issue orders soon covering prices for most of the marketing areas during the winter months, with testimony now being transcribed from price hearings conducted in every area except the state-wide—mostly rural communities—and Lancaster.

Cpl. and Mrs. Donald Lawrence, of Rocky Ridge, Texas, announce the birth of a son, Donald Lawrence, Jr., Cpl. Lawrence, who is a son of Mr. and Mrs. Vincent Lawrence, West Middle street, is stationed at Fort Worth.

About 16 acres of trees are required to make paper for the Sunday edition of one large metropolitan newspaper.

Social Happenings

Phone Gettysburg 640 or Biglerville 8

The Missionary Guild of St.

James Lutheran church met Tuesday evening at the church with Mrs. Howard Hartzell, Mrs. Kermit Dear-dorf and Mrs. Swartz Hoke as leaders. Mrs. Deardorf presided and read the scripture. The topic, "The Living Word," was discussed and a playlet of the same name, written by Mrs. Margaret Seebach, was presented by Mrs. Hartzell, Mrs. R. R. Gresh, Mrs. Earl Bowman, Mrs. Hoke and Miss Margaret Howard. Miss Howard, president of the organization, presided during the business meeting which followed the program. The meeting closed with the missionary benediction.

Richard Culp has returned to Lehigh university, Bethlehem, after spending the summer with his parents, Mr. and Mrs. C. C. Culp, York street.

Mr. and Mrs. William Stock have returned to Washington, D. C., after visiting the former's mother, Mrs. Charles W. Stock, Harrisburg street.

Mr. and Mrs. Oscar Coble, Uniontown, have concluded a week's visit with Mr. and Mrs. E. C. Ott, Springs avenue.

The Officers' club of the Gettysburg chapter of the Order of Eastern Star met Tuesday evening with Mrs. John Brehm at her cottage at Caledonia with Mrs. Harry Thomas, and Mrs. Edna Tipton as associate hostesses.

Dr. and Mrs. H. M. Hartman, Springs avenue, visited their son-in-law and daughter, Dr. and Mrs. Paul Clutz, Mercersburg.

Mrs. Laurence Fischer, Buffalo, N. Y., is visiting her husband's parents, Mr. and Mrs. John Fischer, Springs avenue.

Mr. and Mrs. C. C. Culp, York street, left today for Philadelphia where Mr. Culp will spend Thursday attending a meeting of the Pennsylvania Council of Christian Education.

Mrs. James Allison and daughter, Barbara Ann, Springs avenue, have returned from a visit with relatives in Maytown.

Mrs. Herman Frasch entertained the members of the Needlepoint club Monday evening at her home on Harrisburg street. The club will meet next week with Mrs. Granville Schultz, Baltimore street.

Mrs. Arthur Huntsberger entertained a number of friends at a spaghetti dinner Monday evening at her cottage at East Berlin. Guests: Mrs. Wallis Judd, Mrs. Loretta Kahler, Mrs. Marlin Colestock and Miss Esther Swartz Lemoyne; Thelma J. Bitterman, Harrisburg; Mrs. Mary E. Kitzmiller, Gettysburg.

Mr. and Mrs. William T. Orner, 118 East Middle street, visited Natural Bridge, Virginia, over the week-end.

The Hospital Bridge club will meet Thursday afternoon with Mrs. Philip M. Jones, West Broadway. A business session will precede the regular meeting of the club.

Miss Ann Raffensperger, daughter of Mr. and Mrs. George T. Raffensperger, South Stratton street, has enrolled as a student at Shippensburg State Teachers' college.

Paul Reaver, son of Mr. and Mrs. Paul Reaver, Gettysburg R. D., has also enrolled as a student at Shippensburg.

The opening fall meeting of Over-the-Teacups will be held next Monday evening at the home of Mrs. Russell A. Campbell, West Broadway, with Mrs. C. E. Billeimer in charge of the program.

Miss Edith Dorsey has returned to Cleveland, Ohio, after spending the summer at her home on Springs avenue.

Red Cross Pushes New Blood Program

Washington, D. C., Sept. 17 — Evelyn T. Stotz, former lieutenant commander in the Navy nurse corps, has been named nursing director of the American Red Cross National Blood Program. It was announced at National Headquarters today. She will be responsible for all nursing phases of the program.

Coinciding with this announcement, Dr. Ross T. McIntire, national director of the blood program, revealed that approximately 1,400 nurses will ultimately be employed in this project which aims at procurement of 2,700,000 pints of blood annually. Present Red Cross plans call for eventual establishment of approximately 140 metropolitan blood donor centers across the country, he stated, with many secondary centers in smaller communities, and several hundred mobile units for rural and suburban areas.

In inaugurating its program to provide blood and its derivatives, without charge for the products, to the entire nation, the Red Cross plans to set up six major centers within the next few months to be followed by others. Mobile units will be placed in operation thereafter and, within three years, the secondary centers are to be established.

DEATH

Miss Mary Edith Warthen

Miss Mary Edith Warthen, Emmitsburg R. D., died at St. Agnes hospital, Baltimore, about midnight Monday following a lingering illness.

She was a daughter of the late Thomas Eugene Warthen and Mrs. Louisa Warthen, Emmitsburg R. D. The deceased was a member of St. Agnes Catholic church, near Emmitsburg.

In addition to her mother she is survived by four brothers, Charles H. L. Eugene and J. Randolph, all of Emmitsburg, and J. Carmel, Baltimore; five sisters, Mrs. Daniel E. Callahan, Emmitsburg; Mrs. Lewis Callahan, Baltimore; Mrs. William Wetzel, Washington, D. C., and the Misses Emma and Laura Warthen, both at home.

Funeral services with a high requiem mass conducted by the Rev. Thomas D. Reinhardt Friday morning at 9:30 o'clock at St. Agnes church, near Emmitsburg. Interment in St. Agnes Shrine cemetery. Friends may call at the late home, "Della Vista," near Emmitsburg, Thursday evening.

Claims Ex-Tenant Took House Parts

Allegations that Roy H. Mummert, near Abbottstown, removed part of a house when he vacated the premises is the basis for an action in assumpsit filed today by George W. Moul, East Berlin, against Mummert.

Moul claims that Mummert was the tenant of a property bought by Moul and that when Mummert moved he removed various articles and parts from the house. Mummert is said to allege that the portions of the house he removed were those constructed by him during his residence. The law firm of Swope, Brown and Swope filed the action for Moul.

'Big Mo' Can Outrun Atlantic Hurricane

Aboard USS Missouri With President Truman, Sept. 17 (AP)—Officers of this battleship bringing President Truman home from Brazil said today they are prepared to take "evasive action" if necessary to avoid a hurricane off the coast of Florida.

The Missouri was around 900 miles east of St. Augustine, Fla., and appeared unlikely to approach within several hundred miles of the slow-moving storm center. If a change of course should become necessary to avoid the hurricane's path, the battleship could easily outrun it.

The Missouri is scheduled to debarb the presidential party Friday at Norfolk, Va., and Mr. Truman plans to be back in the White House Saturday.

Gollum Returns To Witness Stand Today

Santa Ana, Calif., Sept. 17 (AP)—George (Bud) Gollum was called back to the witness stand today to resume giving his answer to the state's charges that he and his sweetheart, Louise Overall, murdered the girl's parents, wealthy Mr. and Mrs. Walter E. Overall.

Unequivocally the 18-year-old Louise, sole heir to her parents' \$560,000 estate, testified yesterday that she did not kill her parents, did not see them killed and did not know who may have killed them.

Gollum, in beginning his testimony, said he purchased 50 pounds of dynamite the day before the Overall yacht blew up in Newport harbor last March 15. He said Mr. Overall asked him to buy the explosives.

"And Mr. Overall insisted that no one know he was buying it," the bespectacled 21-year-old Gollum explained to the jury of six men and six women. He said that was why he signed a fictitious name on the sales slip for the explosives. "I figured that if Mr. Overall didn't want his name used in the purchase I wasn't going to have my name used either."

Record Outbreak Of Polio In Europe

London, Sept. 17 (AP)—An outbreak of infantile paralysis of record proportions in some localities was indicated in European statistics on hand here today.

Britain, Germany, Austria, Belgium and Sweden seemed hardest hit. France, Italy, Czechoslovakia, the Netherlands, and Denmark also reported cases of the disease.

The British outbreak was the most widespread since record keeping began in 1912. Cases this year totaled 4,856 up to September 6, compared with an average of 600 cases annually for the last 25 years.

Seranton, Pa., Sept. 17 (AP)—Mrs. Dorothy Davis Blackburn, Portland, Me., was killed and three other persons injured in a two-car collision at nearby Dunmore, police reported.

Police said those hurt in the crash Sunday were Mrs. Blackburn's husband, Earl Steward Blackburn, a chief carpenter's mate in the navy; Frank Wasko, of Dunmore, and his wife, Rose. None was reported seriously hurt.

FREEDOM TRAIN IS CHRISTENED

Philadelphia, Sept. 17 (AP)—The gleaming red, white and blue freedom train was christened today as U. S. Senator Edward Martin (R.-Pa.) labeled it America's best weapon against Communism.

"I don't know if there are any Communists within the sound of my voice," Martin told several thousand persons at ceremonies in Broad Street station. "If there are, let me assure them, as well as others—this time they have left themselves and their motives naked."

"I say we can fight that system (Communism) and win without stooping to its tactics," As Martin spoke, a single file picket line of some 30 persons marched around the depot. The pickets, in literature distributed to the public as they walked, identified themselves as the "Philadelphia Committee for Amnesty for All War Objectors."

Attorney General Tom C. Clark, credited with conceiving the idea of the shrine on wheels that will visit more than 300 cities in a year-long cross country pilgrimage, declared "unless America shares its freedom with all nations, there will soon be no freedom for anyone in the broad reaches of the world."

Clark said the train, carrying America's most treasured historical documents, shows the black and white record of U. S. accomplishments.

FLOODS CLAIM 2,947 JAP DEAD

Tokyo, Sept. 17 (AP)—Floodwaters of the rampaging Tone river swept to within two miles of Tokyo's eastern suburbs tonight as unofficial estimates jumped to 2,947 the number of dead, missing and injured in the typhoon-bred disaster.

A new levee break on the Tone river threatened to add new tons of water to the wide stream sweeping toward Tokyo. Advance fingers of the flood were expected to hit the suburbs sometime tomorrow. The entire district was evacuated to the accompaniment of warning sirens.

Kyodo News Agency reported a new compilation showed 774 dead, 158 injured and 2,017 missing throughout the 20 prefectures reporting storm damage. The official death toll was some 300 less than Kyodo's figure.

Among the dead were two American soldiers of the first division who drowned when their truck ran into a washout near Ofim last night.

Supreme headquarters estimated the known dead or missing at 2,080. Without detailed breakdowns from the 15 prefectures stricken on Honshu, the main island, it was impossible to check the two totals.

The home ministry estimated the homeless at 4,485.

LaGuardia Collapses; Condition 'Critical'

New York, Sept. 17 (AP)—Fiorello H. La Guardia, 64, whose colorful public career has included 12 years as New York City's Mayor, collapsed last night at his home and he remained in a grave condition today.

Dr. George Baehr, his physician said that La Guardia "suddenly collapsed and sank into a deep stupor" and his condition was too critical to permit moving him to a hospital.

Last June 18, La Guardia underwent an operation for a pancreas condition. Dr. Baehr said he had not regained his strength and that during the past week he had been failing rapidly.

'New Look' May Mean 'Blue Look' In Corsets

Chicago, Sept. 17 (AP)—A leading corset manufacturer today cautioned women to be careful that the fashionable "new look" doesn't give them a "blue look" that accompanies gasping for air.

Adoption of "nineteenth century torture devices" as undergarments, Walter H. Lowy, vice president of the Formfit company, said, would threaten women with "the greatest fashion hoax since the gay 90's."

The "new look" he added, "plans to popularize the hourglass figure and encase women in waist-pinching corsets that were proved ruinous to health 40 years ago."

"Most women—and men—believe in curves and indented waist-lines for the female figure," Lowy declared, "but they also want something new, something better—not something that grandmother finally discarded."

Mae West Forming Views On Englishmen

Southampton, England, Sept. 17 (AP)—Mae West, arriving to take her play "Diamond Lil" on tour, met the gentlemen—and ladies—of the British press this morning and invited them to "c'm up 'n see me some time."

One reporter—male—gulped and asked her what she thought of English men.

"That," said Miss West, this being her first trip around these parts, "is what I want to find out."

Three out of four children born in 1900 reached 25. Now three out of four reach 57.

Upper Communities

Mrs. Gaston Pender, of Hopgood, North Carolina, is visiting her mother, Mrs. J. A. Dentler, of Biglerville. En route north she stopped in Alexandria, Virginia, for a visit with her brother-in-law and sister, Mr. and Mrs. Hugh Spittal.

Mrs. Paul F. Osborn and son, Paul J. Osborn, Biglerville, were in Johnstown on business Tuesday.

Miss Brenda McCracken has returned to her home at Leechburg, Pa., after a visit with her uncle and aunt, Mr. and Mrs. Charles Raffensperger, of Biglerville.

Walter Reinecker has resumed his studies at Elizabethtown college after the summer vacation which he spent with his parents, Mr. and Mrs. Norman Reinecker, of Center Mills.

Tom Yost, son of Prof. and Mrs. Charles L. Yost, of Biglerville, who was a student at the University of Pennsylvania, Philadelphia, last year, has transferred to Lock Haven State Teachers' college this fall to take courses in physical education.

The Cricketers class of St. Paul's Lutheran Sunday school, Biglerville, will hold its September meeting Friday evening at the cottage of Mrs. Blaine G. Walter at Pine Grove. Members are requested to meet at the church at 7 o'clock. The hostess committee includes Mrs. Oscar C. Rice, Jr., Mrs. Edgar Woodward and Miss Vera Mellott.

A family reunion was held last Sunday at the home of Mr. and Mrs. Charles Starnier, Gardeners. Fifty-three children, grandchildren and great-grandchildren attended. Dinner was served on the lawn.

Mrs. Joseph Stubbs and sons, Joseph and Lauren, Quaker Valley, are spending several days in Philadelphia with Mrs. Stubbs' brother-in-law and sister, Mr. and Mrs. John Beltz. Next week Lauren Stubbs will resume his studies at George School and Joseph at the Woods Schools at Langhorne.

Richard Starnier, Bendersville, will leave Sunday for State College where he has enrolled as a sophomore in the electrical engineering school of the college. He will be accompanied on the trip by his parents, Mr. and Mrs. R. R. Starnier.

Mrs. R. Stanley Tyson, Abington, is spending a week with her husband's brother and sister-in-law, Mr. and Mrs. Donald Tyson, Gardeners.

M. Leroy Zeigler, Jr., son of Mr. and Mrs. Leroy Zeigler, Gettysburg R. 3, who was graduated from Biglerville high school last spring, has enrolled as a student at Gettysburg college.

Mr. and Mrs. Clifford Settle had as guests this week at their home near Biglerville their son's wife, Mrs. Stanley Settle and twin sons, John and James, and daughter, Mary Elizabeth, Brunswick, Md., and Mrs. Settle's mother, Mrs. Alita Hine, Chambersburg. On October 1 the Settles will move from Brunswick to Savannah, Ga.

Is District Manager For Paint Concern

O. H. Glock, Hunterstown, Gettysburg R. 4, has been promoted to eastern district manager, in charge of Pennsylvania and Maryland, for the Adams Paint company, makers of Grip-Tite permanent roofing.

The area in this section formerly handled by Glock will be divided into several areas with Luther Spangler, Jr., and Richard Spangler, Gettysburg R. 1, Barlow, operating as Spangler Brothers, distributors for Adams and Carroll counties. Robert F. Bowers, Taneytown, has been named distributor for Frederick county and a York county representative is to be named next week. This is Mr. Glock's third year with the company.

Locked Controls Are Blamed For Tragedy

Washington, Sept. 17 (AP)—The Civil Aeronautics Board said today that locked controls probably caused the takeoff crash of a United Airlines plane at New York May 29 in which 43 persons were killed.

In a report on its investigation, the CAB said that apparently the gust lock was on, preventing the pilot from moving the controls. The gust lock is a device actuated by a handle in the cockpit which prevents the pilot to lock the control surfaces, the rudder, elevators and ailerons, in neutral position.

They are ordinarily locked to keep them from being buffeted by winds while the plane is sitting on the ground.

The board said it had found no evidence of mechanical failure or malfunction of the aircraft or any of its components.

Grimethorpe, England, Sept. 17 (AP)—Britain's striking coal miners returned to the pits Monday, ending an unauthorized walkout that began here August 11, spread to 59 other Yorkshire pits and aggravated the nation's economic crisis.

A three-man investigating committee named by the National Union of Mine Workers accompanied the Grimethorpe miners into the pit to investigate their grievances.

Arendtsville

Mr. and Mrs. George Boyer have moved to an apartment in Gettysburg from their home in town.

David Bushman has returned to his home after an extended western trip where he visited friends he made while in the U. S. navy.

William N. Raffensperger visited at the home of his son and daughter-in-law in New Bloomfield on Tuesday.

Mr. and Mrs. Charles Lauver were recent guests of Mr. and Mrs. O. G. Heckenluber. Mrs. Lauver and Mrs. Heckenluber are sisters.

Mrs. Sarah Jenkins, Lititz, was a recent guest of her sister, Miss Ella Klepper.

Miss Louise McDannell, Hanover, visited at the home of her parents, Mr. and Mrs. E. C. McDannell, for a few days.

Eugene Currens, who recently sold his garage equipment has accepted a position as a machinist at the Wolf Farm Supply Company in Gettysburg.

Guy Cutshall is reported ill at his home in Quaker Valley.

HANOVER PLANS

(Continued from Page 1)

had involved the administration of castor oil, after the fashion of Hitler and Mussolini; taking victims for a ride many miles to isolated spots in the country where their shoes were removed and they were left to walk home, and the commission of indecencies upon girls of less than high school age.

Cites Burglaries

"James D. Moore, Hanover justice of peace, who joined with Lenz in the month-long investigation of the Roberts bazing and its ramifications, blamed the children's parents, the schools and the juvenile courts in equal measure for the deplorable conditions uncovered here (Hanover)."

"Lawlessness," Moore declared, "extends throughout the city's grade, junior and senior high schools, which have a total enrollment of about 1,600." Law enforcement officials, he said, have little trouble with pupils of the two parochial schools here (Hanover).

"Citing the alarming increase in the number of thefts committed by teen-agers, Moore recalled that last spring all of the athletic equipment was stolen from Hanover Senior High school's locker room, making it impossible for the school's teams to engage in interscholastic competition.

Blame Parents

"Thieves, also believed to be pupils, made off with much of the canned food from the school's home economics department recently, and Hanover General hospital similarly has been plagued with juvenile thefts. Residents said private investigation showed about 100 boys were involved in the theft of the school athletic equipment—but no police action was taken against any of the culprits.

"The school faculty is trying to do its part," Moore said, "but some of the parents here just don't give a hang." In about 40 per cent of the homes with teen-age children here, he said, both parents are working.

"In this criticism, Chief Wine, who has been acting head of the Hanover police department for the past 11 months agreed. "Half the trouble is with the parents," asserted Wine. "When they're through work a lot of them, mothers as well as fathers, go to beer joints instead of going home. There is good reason for mothers working. With prices what they are, both parents have to work to make ends meet. But a lot of these mothers could still give their kids sufficient attention, if they go home when they were through work."

Marshall

(Continued from Page 1)

entirely from all security decisions on pacific settlements of international disputes. The veto could then be used only on issues involving forceful action against aggressors.

He also called for immediate creation by the assembly of a Greek border commission — which Russia had vetoed in the Security Council; threw the Russian-American deadlock on Korea into the assembly; asked an assembly solution for Palestine; demanded that Russia come to terms on atomic energy control and called for vigorous planning of arms regulations.

Marshall's address evidently marked the opening of an American diplomatic offensive against Russia in the United Nations and stressed the new American policy that when Russia hamstringing the Security Council with veto votes the General Assembly must take over.

8 FWS KILLED

Bridlington, England, Sept. 17 (AP)—Eight German prisoners of war and two British escorts were killed and 12 injured today when their truck crashed into a speeding express train at a grade crossing near here. The crew and passengers of the train were not hurt.

HARVEST HOME

(Continued from Page 1)

evening at the William Renner cottage, Stierens' dam.

Attend C. E. Retreat

Fifteen members of St. John's Lutheran church attended the annual retreat of the Adams County Christian Endeavor Union at Camp Nawakwa near Brysonia, on Sunday. An afternoon session at 2 o'clock was followed by box lunches and a recreation period. In the evening, there was a hike to the Upper Temple where a sunset service was held, the Rev. H. W. Starnat, Biglerville, was speaker.

Littlestown was represented by the following: James Myers, Robert King, Richard Jones, Jean Yealy, Ruth Myers, Helen Myers, Shirley Jones, Richard Jones, Betty Yealy, Carolyn Graft, Eloise Yealy, Alvina Graft, Jack Stites, John Harner, Joann Stites, Nadine Stites and Mr. and Mrs. W. E. Stites. Miss Marian Stately will be the leader at the weekly meeting of the Christian Endeavor society in St. John's Lutheran church Sunday evening.

The Hustlers Sunday school class of Redeemer's Reformed church met in the social rooms of the church Monday evening for a covered dish supper. The meeting, following the supper, began with the Apostles' Creed. Mrs. Brenda Walker read the

Scripture and prayer was offered by the pastor, Rev. Frank E. Reynolds. The group sang a hymn "Blest Be the Tie That Binds." Mrs. C. B. Sneeringer entertained with a humorous reading after which the Rev. Mr. Reynolds spoke about his experiences as a chaplain in World War II. He also showed pictures and souvenirs. Miss Lorraine Myers sang two vocal selections and the meeting closed with the Lord's Prayer.

Next month's meeting will be a Halloween party in the social rooms and the class members will be entertained by Mr. and Mrs. Theron Spangler, Miss Louise Dutera and Miss Helen Wisotzky were appointed as a committee to arrange games for the party.

Plan Organization Of Bowling League

If sufficient teams can be secured an independent bowling league will be organized in the near future in Gettysburg.

Already several teams have signified their interest. Teams sponsored by industrial plants, garages, stores, etc., will be welcome. Those interested are asked to contact Stewart Moyer or Kenny Knox at the alleys of the Gettysburg News and Sporting Goods store, Chambersburg street.

It is planned to hold a meeting shortly to form the league.

Canners Open Grid Season By Meeting St. Francis At Biglerville Thursday Night

Biglerville high school's football team opens its 1947 football campaign Thursday evening at 8 o'clock when St. Francis Prep of Spring Grove meets the Cannners on the Biglerville gridiron.

The Cannners, with 10 lettermen scheduled for starting roles, are confident of a successful season and will enter the contest in top physical condition.

Coaches Gene Haas and Rogers Herr will field another heavy team this season but one which is vastly improved and more experienced than last year. Mervin Kime and Lee Reinacker are listed to start at left and right ends, respectively. Jim Pitzer, 220, or Donald Hollabaugh, will be at left tackle with William Welker, 170, an end last year, at right tackle.

Charles House, 165, and Clifford Rice, 160, will be at guards. Richard Unger or Clyde Naylor will start at center. Both are newcomers.

Heading the backfield will be Fullback Bob Weikert, 225-pounder, who saw service last year at tackle. George Weaver, 165, quarterback, saw action a year ago in the line and backfield. The Heller brothers, Marty, 155, and Clark, 160, will occupy the halfback posts.

Expect Hard Game

Listed for plenty of action are Ronald Grimm, halfback; Carl Rose, quarterback; Harold Hollabaugh, tackle, and Robert Breighner, end.

Despite St. Francis' 45-0 loss to Hanover high last Friday, the upper counts are looking forward to a stiff engagement. They realize that Hanover is one of the pre-season favorites for the South Penn league title and that in losing to them St. Francis lost little prestige.

St. Francis' opening lineup is expected to be as follows: Ends, Schneider, Krahmet; tackles, Clemens, Nealing; guards, Brady, Clancy; center, Creamer; quarterback, Obring; halfbacks, T. Breen, Taddeo, and fullback, J. Breen.

Biglerville authorities have received word that new bleachers are en route from the manufacturers but it is not expected they will arrive in time for Thursday's contest. When the bleachers arrive accommodations for 2,000 fans will be available.

Officials for the tilt will be Bill Doremus, Ed Mitchell, and John Pitzer.

The admission prices will be 50c for adults and 35c for students.

Highway Softball Team Given Dinner

In recognition of winning the championship of the Community Softball league, the State Highway team was tendered a fried chicken dinner by the league Tuesday evening at the Battleground hotel.

Additional guests included league officers and representatives of other teams in the circuit.

Those present included "Reds" Stambaugh, James Spahr, George Gorman, Abe Hankey, Philip Everhart, Glenn Hankey, James Donaldson, Bobby March, George Fair and Manager Charley Lightner of the Highway team; Ralph Johnson, league president; Johnny Grinder, secretary-treasurer; Paul Anzenberger, Legion manager; Michael Tate, Elks manager; Rudy Arnold, Acme manager; Umpire Glenn Raffensperger and Don Bream, of The Times.

COBB SETS NEW SPEED RECORD OF 403 M.P.H.

Bonneville Salt Flats, Utah, Sept. 17 (AP)—A determined Englishman—John Cobb—gave the world proof today that man can travel more than 400 miles an hour in an automobile.

The pleasant London fur broker, bedeviled for a month by bad weather or mechanical bugs, streaked through a measured mile at 403.135 MPH in setting new world records for that distance and the kilometer.

On what he called "the roughest ride I have yet had on the salt flats," he erased the old marks he set here in 1939 and posted these new ones as dusk gathered last evening.

Measured mile—394.196 (old record, 368.9).

Kilometer—393.825 (previous mark, 369.7).

To claim records, Cobb was required to drive both south and north on the 14-mile straightaway on this old lake bed. It was on the return northward trip that he exceeded 400 MPH, the fastest man ever traveled on land.

Happy as he was over his feats, the Briton decided against making any attempts to shatter the records he holds for the five kilometers, five miles, 10 kilometers and 10 miles. During the tests and record runs begun in mid-August the Ralston Mobil special speedster underwent "terrible punishment," he explained, and "it has been decided not to risk possible serious damage to the automobile."

Sport Shorts

Allentown, Pa., Sept. 17 (AP)—Entries have been received from Bill Holland, Bridgeport, Conn. number two driver in the Indianapolis 500-mile race last Memorial Day, and Tommy Mattson, Wilmington, Del. for the AAA sanctioned auto races here Saturday.

Allentown, Pa., Sept. 17 (AP)—The two-year-old trot opening day feature at the Allentown fair was captured in a straight heat victory by Jenko Hanover, brown colt owned and trained by Tommy Dunn, Roxborough, Pa.

W. E. Miller, Washington, D. C., furniture dealer, was another winner yesterday, driving his Henry Valo to victory in the 2:12 pace event. Knightland, owned by E. W. Sutton, Lebanon, N. J., and with Len Turlington in the sulky, won all three heats in the 2:20 pace.

Bethlehem, Pa., Sept. 17 (AP)—The Philadelphia Eagles of the National football league meet the Bethlehem Bulldogs of the American league in Liberty high school stadium tonight in an effort to gain their first victory of the year after two exhibition losses.

The Eagles, rated the team to beat in the NFL's eastern division, were defeated by both the Chicago Bears and Chicago Cardinals. The Bulldogs, an Eagle farm club, have won both of their two starts this year.

Easton, Pa., Sept. 17 (AP)—A blaze visible for 10 miles destroyed a building and 20,000 feet of lumber at the William B. Eisenhardt cabinet works near here as firemen battled to save an additional 500,000 feet of lumber stored nearby. William B. Eisenhardt, president of the company, said the blaze Saturday night caused damage estimated at \$75,000. He could give no cause for the fire.

Giants to another test tonight when the two National football league rivals meet in a charity contest at the polo grounds. A crowd of 40,000 is expected.

This will be the last tune-up encounter for both before the Giants start to defend their eastern championship against Boston September 29 and the Californians launch their regular season the same date with Pittsburgh. It will be the Rams' only appearance here this season.

DODGERS' LEAD INCREASES AS CARDINALS BOW

By JOE REICHLER
(AP Sports Writer)

Now that everybody except Managers Eddie Dyer of St. Louis and Burt Shotton of Brooklyn (the latter with tongue in cheek) has conceded the National league flag to the Dodgers, it is easy to understand why the Brooks will meet the New York Yankees in the World Series.

Everything else considered, the Dodgers are World Series-bound because they have been able to hold the defending champion Cardinals to a standstill in their 22-game season's series.

The Brooks have achieved that feat only once in the last 14 years and thereby won a pennant. In 1941, the Dodgers divided 22 games with St. Louis and were rewarded by copping the flag, their first in 21 years.

One of the big reasons why the Cards captured the crown in 1943 and '44 was because they whipped the Brooks 33 times in 44 games during those two years. The last year the Dodgers took a season's series from the Redbirds was in 1932 when they won 14 games from St. Louis and lost eight.

Brooklyn holds the edge on every club in the league with the exception of the Cards.

Margin 8 1/2 Games

They wound up their season's work with the Reds yesterday by taking over the third game of the series 7-3 to sweep the three-game set. The win, coupled with the Giants' 7-2 win over the Cards, increased Brooklyn's first place margin over St. Louis to eight and a half games. The Dodgers can clinch the pennant with four victories in their remaining 10 games. Four St. Louis defeats also would do the trick.

Ralph Branca, ace of the Dodgers' pitching staff, registered his 21st victory of the year and tied Cincinnati's Ewell Blackwell for the most victories in the majors.

The Giants clipped the Redbirds' wings for the third straight time to make their season's record over the Cardinals 13 wins and nine losses. The Giants, by the way, won only seven and lost 13 to the Dodgers.

In the only other National league game, Blix Donnelly outpitched Mel Queen to give the Philadelphia Phils a 2-1 victory over the Pirates in Pittsburgh. The win moved the Phils out of the cellar while the Bucs dropped in.

Having already clinched the American league pennant, Manager Bucky Harris gave most of his Yankee regulars a well-deserved rest in their doubleheader with the last-place St. Louis Browns. With only Tommy Henrich and Phil Rizzuto of the first stringers in the starting lineup, the Yanks whipped the Browns in the opener 8-3. With most of the regulars including Joe DiMaggio back for the second game, the Yanks bowed 8-2.

Sox Split Games

The Chicago White Sox, who eliminated the Boston Red Sox from the pennant race Monday, won their second game of the season at Fenway Park as they split a doubleheader with Boston. After Dinty Galehouse shut out the White Sox 5-0 with a six-hitter in the opener, Chicago came back to win the second game 8-3.

Although the Senators defeated Detroit 4-1 in a night game at Washington, the Tigers clung to second place a half game ahead of the Red Sox.

A seven-run rally in the seventh enabled the Athletics to defeat the Cleveland Indians, 7-3 in the second game of a doubleheader in Philadelphia and gain a split. The Indians won the opener 5-3.

The Boston Braves and Chicago Cubs were not scheduled.

County League To Arrange Playoffs

A meeting of officials of the Adams County Baseball league will be held next Tuesday evening at 8 o'clock at the fire engine house here.

Arrangements will be made for the championship playoff series between Bendersville, first half winners, and New Oxford, second half titlists.

Harry Lerew, Bendersville, vice president of the circuit, urges a full attendance.

Fights James Carter

(By The Associated Press)
Buffalo, N. Y. — Ezzard Charles, 175, Cincinnati, outpointed Joe Matlis, 196, Endicott, N. Y., 10.

Chicago—Art Brown, 149 1/2, Chicago, outpointed Julius Menendez, 148, East St. Louis, Ill., 8.

White Plains, N. Y.—Rudy Pasco, 125, Toronto, stopped Ravey Allen, 124, Port Chester, N. Y., 7.

Toronto—Gus Mell, 147 1/2, Montreal, outpointed Pete Zaduk, 148, Toronto, 8.

New York—Tony La Bua, 140, Ozone Park, N. Y., outpointed Charles Varre, 138 1/2, Brooklyn, 10.

New York—James Carter, 135 1/2, New York, stopped Patsy Spataro, 144 1/2, New York, 7.

Pittsburgh—Tommy Yarosz, 168, Monaca, won when Tee Hubert, 168, Washington, D. C., was disqualified for not trying in the fifth round of a scheduled ten round bout.

Jersey City, N. J. — Mike De Cosmo, 143, Elizabeth, N. J., outpointed Richle Orange, 138 1/2, New York, 8.

Canners Play First Game Thursday

Above are pictured the members of the Biglerville high school football squad who meet St. Francis Prep of Spring Grove at Biglerville Thursday evening at 8 o'clock in the opening game of the season for the Cannners.

First row, left to right, Albert Clark, manager; Oscar Spicer, Harold Warner, Ronald Rice, Leo Eisenhart, John Boyer, Ronald Guise, Sterling Kint, Jack Howe, Jimmy Heller, Robert Peters.

Second row, Assistant Coach Rogers Herr, Charles House, George Slaybaugh, Charles Cook, Clair Showers, Robert Breighner, Robert Weikert, Charles Kookin, Jim Pitzer, George Weaver, Richard Warner, Head Coach Eugene Haas.

Third row, Donald Hollabaugh, Harold Hollabaugh, Fay Kepp, Ronald Grimm, Clifford Rice, Lee Reinacker, Marvin Kime, William Welker, Clark Heller, Richard Unger, Martin Heller, Clyde Naylor, Carl Rose, James Unger.

DELAWARE HAS TOUGH JOB OF HOLDING STREAK

Newark, Del., Sept. 17 (AP)—The University of Delaware will lug a 31-game unbeaten streak—longest in the nation—onto the 1947 gridiron with Coach Bill Murray fearing a back-breaking schedule may lower the Blue Hens' colors for the first time since 1940.

Murray, not looking for set-ups, dropped the three teams which Delaware beat by more than 550 points last season—Randolph Macon, Drexel and Washington college. In their places he added Maryland, seeking to return to football heights under Jim Tatum, and Washington and Lee to make up an eight-game schedule opening September 27 against Pennsylvania Military college.

"It doesn't figure to be an easy row to hoe," said 39-year old Murray as he stepped some 55 huskies through their paces today. Eighteen are lettermen from last year's team that won nine regular season games and then walloped the Rollins in the Cigar Bowl. Twenty-eight others have had varsity experience.

Has Vets On Hand

Murray pointed out he lost three good men in Buck Thompson, an end; Paul Hart, fullback, and Tony Stalloni, tackle. Thompson and Hart each had a year of eligibility but chose to play ball while Stalloni graduated and now is end coach at Delaware.

The double-wing back system used by the one-time Duke ace calls for plenty of power in the backfield. "We may do a little more passing this year," said Murray. "But we still will depend mostly on running plays to pick up yardage."

The Hens averaged 6.2 yards rushing last fall and two of the backs largely responsible for the achievement, Billy Cole and Gerald Doherty of Wilmington, Del., are again on hand. The line is headed by two veteran co-captains, Jack Messick of Media, Pa., a center, and Walt (Moose) Marusa, a 220-pound guard from Wilmington.

One Tie In '41

Prior to Murray's arrival at Delaware, the Hens had little to shout about. They had won one game in 1939 and two in 1938. They also dropped the first three games of the 1940 season and then proceeded to reel off five straight victories.

West Chester Teachers held them to a 7-7 tie in the opening 1941 encounter and then came seven more victories that season. They rang up eight triumphs in 1942 before abandoning the sport for the duration of the war. Football was resumed in 1946. During their string, the Hens have scored 358 points while holding their opponents to 45.

After the PMC game this year, Delaware clashes in succession with Maryland, Bucknell, Gettysburg, Franklin and Marshall, Western Maryland, Muhlenberg and Washington and Lee.

Wilmington Trims Allentown Cards

Wilmington, Del., Sept. 17 (AP)—Curt Simmons, Wilmington's schoolboy hurler, turned in a four-hit 4-2 triumph over the Allentown Cardinals last night to even up the Interstate league final playoff series at one game each.

Simmons allowed only two scattered hits in the first seven innings and was in control of the situation throughout the game. Allentown scored one run in the third inning on a walk, sacrifice, infield out and wild pitch. The second Allentown tally came in the eighth.

Wilmington gained its first run in the initial inning when Jack Cusick came across on a wild pitch by Allentown hurler Paul Wargo. The Blue Rocks scored two more in the fifth on a double and three singles.

The teams move to Allentown tonight for the third game of the best-of-seven series. The fourth also will be played at Allentown and the final two, if needed, at Wilmington.

WINDSTORMS HAVE TAKEN HEAVY TOLL

By MAX HALL

Washington, Sept. 17 (AP)—The hurricane which moved on Florida today is the second most violent type of windstorm known to mankind. The most violent is the tornado.

Tornadoes also strike more suddenly and more often. An average of 140 a year are reported in the United States.

Hurricanes average only about 3 1/2 a year in the Atlantic, Caribbean, and Gulf of Mexico—and only half of those hit the United States. Yet hurricanes kill more people and do more damage, because they attack a greater area and pound it longer.

Terms Distinguished

The terms hurricane, tornado, cyclone, and typhoon are often confused. Let's see what they mean. The Weather Bureau says cyclone is a general term for any circular movement of air—not necessarily violent—around a center in which the atmospheric pressure is low.

A tornado is one kind of cyclone—small but terrible, racing along overland for a short distance in a whirling cloud in which the air travels at speeds that surely exceed 250 miles an hour but so far have been impossible to measure.

Have Taken Many Lives

A hurricane is another kind of cyclone. It is a tropical cyclone in which the wind blows at a speed of 75 miles an hour or more.

Hurricanes occur in all tropical oceans except the south Atlantic, but they are called by different names in different parts of the world.

A hurricane in China is called a typhoon. In the Philippines it is a baguio. In Australia it is a willy-willy. India it is merely a cyclone.

"Typhoons" and "cyclones"—hurricanes to us—are said to have killed 300,000 people at Haifong, China, in 1881; 100,000 at the Bay of Bengal in 1876; and 100,000 at Bombay in 1882.

A hurricane, killed about 6,000 people at Galveston, Texas, in 1900—the greatest hurricane toll in U.S. history.

Damage Bill High

Occasionally a tornado happens to scream across a populated area and causes frightful slaughter. The "tri-state tornado" of 1925 in Missouri, Illinois, and Indiana killed 689 people. But on the average, tornadoes kill about 265 a year.

In property damage, tornadoes caused a \$262,000,000 loss over a 22-year period. But a single hurricane—the one that struck Long Island and New England in September, 1938—caused damage estimated by the Red Cross at between \$250,000,000 and \$300,000,000.

May is the height of the tornado season. September is the height

and his 12th home run and drove in two runs to lead the Giants to a 7-2 win over the Cards.

Pitching, Denny Galehouse, Red Sox—Blanked the White Sox 5-0 with six hits for his 10th victory.

Paul Matayak, 195 pound junior from Tamaqua, seems certain to land one of the tackle berths, while Bill Keeler, from Pottstown, a sturdy 187 pounder, is making a real fight for a guard post. Both are veterans of last year's squad.

Herb Eckenroth, flashy quarterback of last year's team, whose home is at Hummelstown, is back to call the signals, while two sophomores loom as likely starters behind the line. They are Bob Bowman, a 175 pound back and Henry Dijkanson, 190 pound fullback. Both played at Lebanon high under assistant Coach Feaser.

The Flying Dutchmen face an eight game schedule, with four home games at the Lebanon high school stadium, and four on foreign fields.

Out Of The Past

From the Files of the
Star and Sentinel and
The Gettysburg Times

TWENTY-FIVE YEARS AGO

Pinchot Spends Two Hours Here:
Gifford Pinchot, Republican nominee for governor and members of his campaigning party, arrived in Gettysburg Monday shortly before noon from Littlestown, and after spending almost two hours here, left for the lower end of Adams county to wind up a one-day tour.

Among those who accompanied the party throughout the day were R. C. Miller, chairman of the Republican County Committee; George W. Baker, R. E. Zinn, C. E. Tawney, Samuel Weiser, Brady Sefton, W. H. Tipton, William B. McIlhenny, George Sheely, R. H. Lupp and Robert Weaver.

Hotel Gettysburg was made the headquarters of the party. Following luncheon J. Donald Swope, Esq., introduced Mr. Pinchot, who spoke from the steps of the hotel to a gathering of about 250 persons for fifteen minutes.

Wed in Virginia: Surprising even their closest friends, Charles Huber Blocher, Gettysburg, and Miss Ruth Woodward, of Chicago, went to Charlottesville, Virginia, August 5, and were married in the Zion Episcopal church, by the Rev. W. E. Goodwin, according to an announcement made by the bride's parents, Mr. and Mrs. W. Irving Woodward, of Kenilworth, Chicago, Illinois.

Weds in Connecticut: A romance begun several years ago while he was en route from New Haven to Hartford, Connecticut, culminated Saturday afternoon when Edwin B. Ross, son of Mr. and Mrs. James Ross, North Washington street, was married to Miss Marilla Prouty, daughter of Mr. and Mrs. Willis J. Prouty, of Meriden, Connecticut.

The ceremony was performed at the home of the bride by the Rev. Henry B. Taylor, pastor of St. Paul's Universalist church at Meriden.

Famous Ace Weds (By Associated Press) Sept. 16—Captain Eddie Rickenbacker, American Ace, was married today at the First Congregational church, Sound Beach, Greenwich, Connecticut, to Mrs. Adelaide F. Durant, divorced wife of a former rival of the American flyer in automobile racing. They sailed on the Majestic for a honeymoon in Europe.

Announcement: The Home Furnishing company opens at No. 30 Carlisle street, Gettysburg, September 16th, with a full line of household furniture. We have on display bedroom, dining room and living room suites, etc., of the best quality.

Furniture Plant Enlarged: Two large brick buildings, recently completed at the plant of the Gettysburg Furniture Company, were occupied on Monday by the rubbing, polishing and finishing departments of that concern.

The buildings formerly occupied by these departments will be used in the future for the storage of finished furniture.

Sign Mine Contract (By Associated Press) Scranton, Pa., Sept. 11 The contract that sent 155,000 mine workers back to work today at their old wages after being idle more than five months was formally signed this morning by representatives of the miners and the operators.

Apple Canning Starts: With the apple harvest season at hand, the canning factories, which have developed into one of the important industries, growing out of the fruit raising in Adams county, have opened for another season's run. The three plants of the C. H. Musselman Company, located at Biglerville and Gardners and Innwood, West Virginia, were opened in the past week and are now running at full capacity.

Canning factories in this county are paying 30 cents and up a hundred pounds for apples, according to their quality.

Buys More Land: Twenty-nine acres of land along Marsh Creek have been added to the holdings of

Today's Talk

UNCHARTED EXPERIENCES

If we knew in advance just what was to be expected at certain times, a large part of the interest that we have in events would be annulled. What we are owe largely to experience—but we are toughened and strengthened in character most by those experiences that are uncharted—that we didn't think we would have to face, but did!

It's the unexpected times "that try men's souls," as well as those in which so much of human freedom is at stake, which once inspired Tom Paine to use the quoted expression. We are put on our mettle. We are tried in the fire. We are tempered to life's cruellest thrusts. That's what facing bravely the uncharted experiences does.

During the recent world wars, deeds of heroism by young boys, that no one ever suspected as possible with them, were performed almost automatically. There was something of deep worth hidden there—uncharted to them, or to those who bore them. It's just as well to have it this way for us all. Then we will do no worrying in advance over what we will do in a special emergency. We will simply take each emergency in its stride—and like a champion—meet all events, whether good or unpleasant—in the same manner as the champion meets all comers.

It's the unexpected, the uncharted, that drives and inspires the inventor, the discover, and in fact all pioneers, onward and ever onward. I recently read in my newspaper about how a 32 year old chap, by name of George Bogardus, flew solo from Troutdale, Oregon, to Roosevelt Field, Long Island, in a small plane that he built himself—the first time such a thing had been done. It took him a year to build his plane and it cost him \$500. The trip in oil and gas cost him but \$28. That was an uncharted experience, as was Col. Lindbergh's from New York to Paris.

The best thing, however, about these uncharted experiences of ours, is the thrill that results from learning that we can do something, and accomplish something, that we never even dreamed before that we could. Thus is our imagination stirred to keep surpassing—ourselves!

Tomorrow Mr. Adams will talk on the subject: "Soul Attention"

Just Folks

The Poet of the People
By EDGAR A. GUEST
HUMAN TRAIT

'Tis a very human trait
Truthful counseling to hate.
Tell another more to earn.
More he ought to try to learn.
Has promotion passed him by?
There must be a reason why.
It may be he lacks ambition.
Doesn't merit high position.
Counsel true, but he'll receive it
Angry and won't believe it.

But, to tell the truth, afraid;
Say that he is underpaid.
Doing more than seems his share,
Everyone to him unfair.
All against him, none to see
Just how good a man is he,
Pity him, his eyes will glisten;
Happily to you he'll listen.
Counsel bad, but he'll receive it
Gratefully and he'll believe it.

The Adams County Realty company, which is developing Marsh Creek Heights as a summer resort. Twenty of these acres were purchased from Mrs. Elizabeth Hoffman and nine from Charles Rager. Officers of the company are A. B. Plank, president; Dr. E. H. Markley, treasurer, and Frank Reiser, secretary.

Will Veto Bonus Bill (By Associated Press) Washington, Sept. 16.—President Harding has definitely decided to veto the soldiers' bonus bill and will send his message to the House Tuesday, according to some of his close advisers, who have talked with him recently.

Personal Mention: Mrs. F. B. Twisden has sold the farm of the late Arthur B. and Mary A. Boyd, situated in Liberty township, to John V. Goulden, of Emmitsburg. Born to Mr. and Mrs. Lloyd Hartman, of Gettysburg, a son, Saturday morning.

A son was born to Mr. and Mrs. Erle Deardorff, West Middle street, Sunday morning.

Mr. and Mrs. Joseph Dickson and son, of Ashville, North Carolina, are spending some time with friends in Gettysburg.

Miss Alice Musselman, West Middle street, has returned to Charles Town, West Virginia.

Charles Sterner, Jr., has returned to his home on Chambersburg street after spending two months in the New England states and Canada.

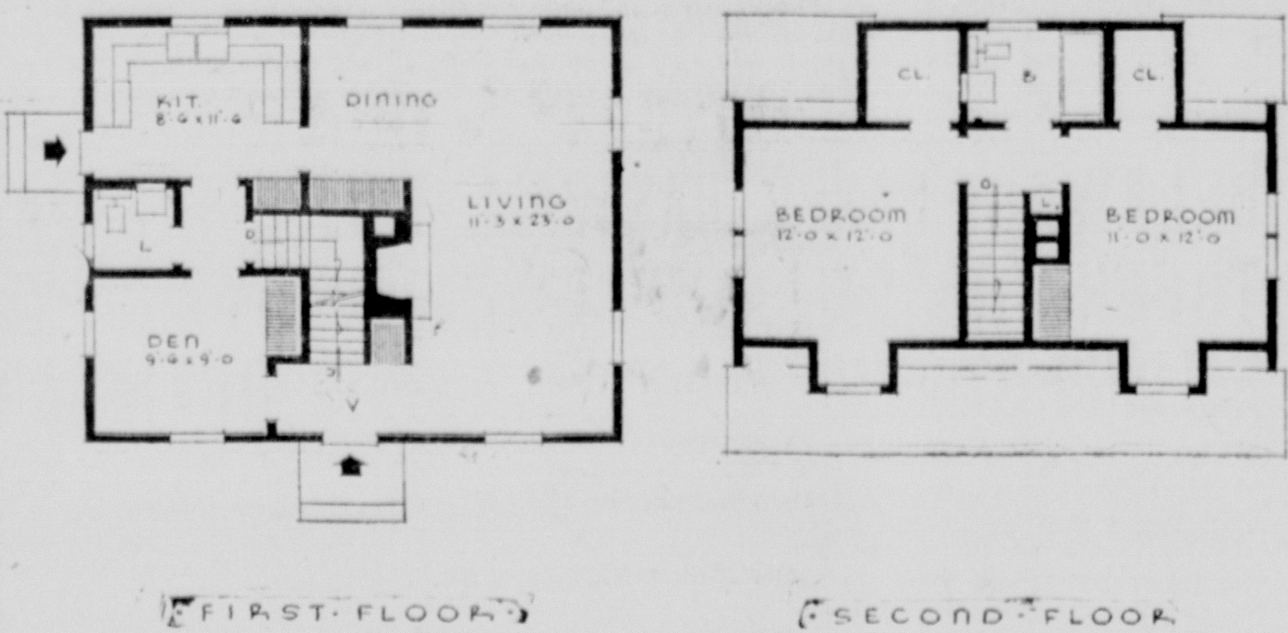

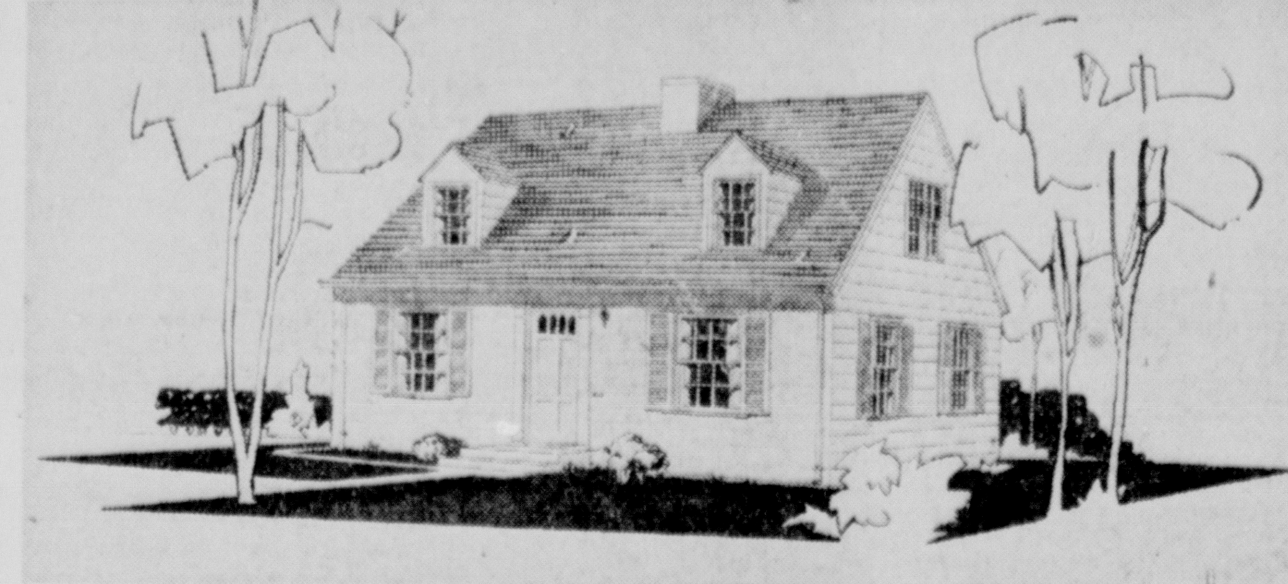

Mrs. Byrene Collier, of Baltimore, is spending a week with Mr. and Mrs. W. M. Keet, City Hotel.

H. B. Sefton, Baltimore street, spent Tuesday at Graeffenburg Inn with his family.

PROTECT GARAGE
Insulation of the garage with a naturally fireproof material such as mineral wool, is imperative particularly if it is attached to the house.

Building Ideas For Home Owners Of This Community

A HOME TO LIVE IN

Design D-26 is a Cape Cod cottage with unusually large rooms in a small area. The exterior is finished with wide siding although shingles may be substituted.

Use of small dormers on the second floor make it possible to keep the roof lines low and provide cross ventilation in the bedrooms. To the left of the front entrance is a small room with a wardrobe that can be used as a den, bedroom, sewing room or child's playroom. It is convenient to the lavatory and kitchen.

Two large bedrooms on the second floor have ample closet space. The overall dimensions of the house are 30' by 24' with a full basement.

For further information address the Home Building Editor of The Gettysburg Times, Standard Homes Service, St. Cloud, Minnesota.

Home Patterns Now Available

For those who want to build a house with their own hands, there are now available patterns showing every step from foundation to roof, so simple that anyone can follow them and erect a well-built home that will comply with most building codes.

No complicated blueprints are involved. All materials are obtained locally. Directions tell the length and size of every piece of lumber, size and quantity of nails and hardware and where used, the exact location of all framing members, and patterns simplify the making of all angle cuts.

Total cost of materials for a three-room cottage with bath, including foundation of concrete block and mineral wool insulation, was slightly less than \$950 in a recent test. This did not, however, include labor nor wiring, kitchen, bathroom and plumbing and heating equipment. A two-bedroom house, built in another test, cost \$4,000 ready to move into.

WEIGH PRICES AGAINST AID

Washington, Sept. 17 (AP)—New demands arose on Capitol Hill today for the administration to weigh its foreign aid program against soaring prices at home.

But even as many lawmakers were voicing doubt that a special session of Congress should be convened to consider emergency help abroad, the State Department heard its third urgent plea from Italy that the fate of that country hangs on additional American assistance before this year ends.

Senator Lodge (R-Mass.), recently returned from a six-week tour of Europe, summed up what appeared to be a growing sentiment among Congress members that prices at home and demands for help abroad are "two halves of the same apple." At the same time the general tenor of Congressional comment has been to proceed slowly.

Senator Byrd (D-Va.), although he did not touch directly on the issue of domestic prices, cautioned against any appeal for action based on "the hysteria of an emotional atmosphere."

RED TIEUP IS GOOD CAUSE TO DEPORT ALIENS

By MAX HALL

Washington, Sept. 17 (AP)—The government has resumed its efforts to prove that Communist membership is a good enough reason for kicking an alien out of the country.

This may lead the Supreme Court at last to make a clear-cut ruling on the disputed question of whether the Communist party aims to overthrow the government by violence.

Two years have passed since the government lost its long fight to

deport Harry Bridges, the west coast labor leader.

Last week in New York, a new "Bridges case" made its appearance.

The Immigration and Naturalization Service—a part of the Justice Department—started deportation hearings against John Santo.

Santo is organization director of the CIO Transport Workers Union. He is a Romanian-born alien. So far the hearings have been intensely bitter. There is considerable excitement in New York labor circles.

Will Prove Charges
Santo was accused of being a Communist party member. And the party was accused of advocating the overthrow of the government "by force and violence." The government says it will prove both charges.

The Immigration Service also arrested Michael J. Obermeier, president of the New York local No. 6

of the AFL Hotel and Club Employees Union. He is a German-born alien.

Obermeier was accused of being a member of, or affiliated with, an "organization"—not yet officially named—which advocates the violent overthrow of the government.

Officials of the Immigration Service do not acknowledge the existence of a "drive."

But it is common knowledge here that further arrests of aliens on charges of Communist affiliation may come soon.

This writer has been told by an official who ought to know that most of these aliens will be outside the organized labor movement.

See Battles Ahead
Judging by the past, the government will have long, hard battles in the courts before getting final decisions in the new cases.

In the last eight years the Su-

HOME OWNERS WARNED ABOUT FUEL SHORTAGE

The nation is likely to face a fuel shortage this winter as severe as any which occurred during the war, according to the United States government and the coal, petroleum and gas industries which supply the country with heating fuel.

Estimates add up to about 20 per cent less fuel than was available last winter in some areas.

Demand for all fuels is considerably ahead of a year ago because of increased industrial and building activity, spokesmen for the fuel industries declare.

Insulation Urged
Because of this apparent crisis which faces the country, the United States Bureau of Mines has intensified its campaign urging the public to winterproof all human-occupied homes and buildings by weatherstripping, installing storm sash and complete thermal insulation.

Fuel savings ranging up to 45 per cent can be attained in the properly insulated building, the Bureau asserts. Tests conducted by the University of Illinois showed that one-half of the fuel units needed to heat the average home can be saved if it is weather-stripped, equipped with storm windows and doors and has full-thickness mineral wool insulation in walls and ceiling. The insulation accounted for slightly more than 60 per cent of this saving.

Saving Pays Cost
Mineral wool, which is naturally fireproof, is the most widely used insulation substance, the Bureau of Mines points out in recommending that mineral products be used because of their resistance to fire, short-circuits, moisture, termites, vermin and decay. The material in granular form can be blown into inaccessible spaces in existing buildings and batts or blankets can be

preme Court has spanked the Immigration Service in three famous decisions involving charges of Communism.

In all three cases the Immigration Service charged that the individual was a Communist and that the Communist party sought the violent overthrow of the government.

An all three cases, the Supreme court ruled in favor of the individual—without finding it necessary to make a flat decision, one way or the other, on whether the Communist party had violence on its mind.

MODERNIZATION IS NEEDED IN MOST KITCHENS

There probably is more opportunity for modernization of the kitchen than any other room in the house which was built ten or more years ago as a result of the many improvements which have taken place in kitchen equipment and step-saving layout since the majority of American homes were erected.

Usually a complete transformation that will add enormously to the efficiency and comfort of the housewife can be accomplished by spending less than \$500, and it is easy to finance such modernization through FHA-insured loans.

In the older houses kitchen cabinets are too shallow, work surfaces are inadequate and subject to staining, sinks are too low for comfort and artificial light is usually supplied by a lone fixture in the center of the ceiling which puts the stove, sink and other work surfaces in shadow.

Much Research
Probably more research has gone into the improvement of kitchen equipment than into any other part of the house. As a result, cabinets are now available in both wood and metal that are deep enough—16 to 18 inches instead of 12—so that even the largest utensils can be stored within easy reach. Hard-to-clean handles do not protrude, and for the

nalled between joists and studs if there is sufficient space to accommodate a workman.

Cost of insulating the average home with mineral wool will be paid for within three years, numerous case-histories have revealed, according to the Construction Research Bureau of New York, clearing house for building information.

Weatherstripping and storm sash also is inexpensive and can often be installed by the home owner himself.

corners, cabinets have revolving shelves.

Plastics which will not absorb stains and are easy to clean have been developed for covering work surfaces. Sharp corners, often the cause of painful accidents, are eliminated from the newer equipment. Sinks are being made higher and can be equipped with an automatic garbage disposal machine that takes much of the distasteful work out of the kitchen.

Don't Overlook Color
Fluorescent lighting fixtures around the room at ceiling height are recommended to put light on every work surface.

Color should not be overlooked in a kitchen remodeling job. There is no particular reason that kitchens should be all laboratory white. Walls can be painted in pastel shades and the floors and plastic work surfaces can carry a bright harmonizing color to make the room far more interesting and attractive.

One of the huge waterwheel generators for the Grand Coulee Dam weighs two million pounds.

If you cannot get indoors in a lightning storm, you will be safest in a steel-bodied automobile.

Home Financing Is Made Flexible

Modern home financing is liberal and flexible—not the heartbreaking procedure that existed a few years ago. No longer is it necessary for a family to scrimp and save until it accumulates one-half or more of the cost of the home.

Down payments as low as 10 per cent can now be arranged, and long-term mortgages up to 20 years for civilians and 25 years for veterans of World War II reduce monthly payments to a low level so that the budget for shelter is within the means of a great many more families than formerly.

Low interest rates—4 or 5 per cent today in contrast to the oldtime 8 or 9 per cent—also play a part in making home financing relatively easy. Lending institutions today are competing among themselves for the home mortgage business.

INSULATION REQUIRED

Insulation is needed in all homes that use heating systems in winter or are exposed to high temperatures in summer, the University of Illinois declared after extensive scientific tests.

VETO CONTROL IS DANGEROUS U.N. PROBLEM

By DEWITT MACKENZIE (AP Foreign Affairs Analyst)

The most dangerous issue—and the most difficult—which the assembly of the United Nations faces as it begins its new sessions is that of the veto by means of which any one of the big five (Russia, Britain, France, China and the U. S.) can kill a majority decision in the security council.

Thus far the peace organization has been rendered virtually impotent by Russia's persistent employment of this paralyzing power which was adopted originally as a necessary safeguard but was intended for use only in extreme emergencies. Continuation of this situation must ultimately mean the death of the U. N. as at present constituted.

Tactics of Obstruction

These Soviet tactics of obstruction have coincided with Moscow's launching of the world revolution for the spread of Communism, and have been duplicated by similar tactics in allied councils in Europe. The result is that peace and economic recovery have been stymied—and it's significant that turmoil and hard times provide the soil in which Communism thrives.

A recent report turned out by American Congressional and State department cooperation, for use of congressional committees in Europe, says the Russians are the "principal obstructionists" in the allied control council in Berlin. The report states that eastern Germany (under Russian occupation) is "well on the way to being sovietized," and says the "suspicion is now possible that the U.S.S.R. covets Austria, in order to isolate Czechoslovakia, and penetrate Italy and Germany, as well as other parts of western Europe, with Communist politics and economics." Given a little more hunger, declared the statement, the Communists could dominate France, Italy and Greece.

Sounding Board

So we see that the consistent use of the veto power by Russia in the U. N. fits in with a broad strategy of obstruction which is favorable to the world revolution that is now in full swing. Meantime the Soviet delegation has been able to use the U. N. as a sounding board for dissemination of Communist ideas.

However, the Russians lately have been swinging into the defensive in contrast to the offensive which they were maintaining a year ago. The other members of the U. N.—apart from the Soviet satellites—are determined to have a workable peace organization even if they have to scrap the present structure and reform it along lines which will eliminate the present difficulties.

The hope, of course, is to get reform without remodeling the U. N. But it will take a big inspiration to evolve an idea that will work.

"UNBLOCK"

your DIGESTIVE TRACT And Stop Dozing Your Stomach With Soda and Alkalizers

Don't expect to get real relief from breads, soups, stomach, gas and bad breath by taking soda and other alkalizers if the true cause of your trouble is constipation.

In this case, your real trouble is not in the stomach at all. But in the intestinal tract where 80% of your food is digested. And when the lower part gets blocked food may fail to digest properly.

What you want for real relief is something to "unblock" your lower intestinal tract. Something to clean it out effectively—help Nature get back on her feet.

Get mild, gentle Carter's Pills right now. Take as directed. They gently and effectively "unblock" your digestive tract. This permits all of Nature's own digestive juices to mix better with your food. You get genuine relief from indigestion so you can feel really good again.

Buy mild, gentle Carter's Pills today. "Unblock" your intestinal tract for real relief from indigestion.

Five Doomed Men Ask Life Terms

Harrisburg, Sept. 17 (AP) — The State Board of Pardons will hear pleas next week from five Pennsylvanians who are sentenced to die in the electric chair, all five asking that their sentences be commuted to life imprisonment.

A spokesman said this will be the highest number of such appeals to come before the board during a single session.

Those seeking commutation are: Mike Buona, sentenced in Erie county for the slaying of Robert Fisher, whose body was found in a shallow grave near the Erie golf club links; Joshua Edward Beatty, of Harrisburg, who was sentenced to death for shooting his wife in a Harrisburg restaurant; William Paul Byron, and Charles Frederick Moyer, both of Delaware county, sentenced for the death of bystander during a gasoline station holdup; Lawrence Brown, of Philadelphia, sentenced for clubbing a shoe shine stand owner to death during an argument about cheating during a dice game.

These Soviet tactics of obstruction have coincided with Moscow's launching of the world revolution for the spread of Communism, and have been duplicated by similar tactics in allied councils in Europe. The result is that peace and economic recovery have been stymied—and it's significant that turmoil and hard times provide the soil in which Communism thrives.

Reveal Dealing In 'Gray' Steel Mart

New York, Sept. 17 (AP) — The Iron Age reported today that 4.3 per cent of the steel purchased in the last six months came from the gray market, but that more than 43 per cent of steel consumers replying to a questionnaire by the National Metalworking Weekly had dabbled in the gray market during that time.

The paper estimated that 2,600,000 tons of gray market steel will be involved in 1947 finished steel shipments.

The Iron Age queried 1,500 companies, representing a cross-section

ITALY FIGHTS COMMUNISM TO KEEP FREEDOM

By DEWITT MACKENZIE (AP Foreign Affairs Analyst)

As the signs read the battle is about to be joined between the eastern bloc (headed by Russia) and the western bloc (led by America) to determine whether Italy shall become another satellite of the Soviet union or whether she shall be an independent democracy.

It's an ironic circumstance that this fresh tribulation should descend on the beaten and distraught Romans just as the signing of the peace treaty by the allies formally signaled the end of World War II for Italy. Stripped of much money and territory and, what hurts worst, of her position as a great power, her government now is facing a fight for its life with a powerful communist party.

Well, those who sin must pay. It's a pity Mussolini couldn't have lived to see the misery he brought upon his country. Or is it? Maybe he is where he has a hot front seat from which he can see the show.

Sign 4 Treaties

The allies signed treaties with

of steel consumption, and 29 per cent repudied. Of those answering, 40 per cent blamed steel producers for the gray market; 21 per cent blamed exporters; and 39 per cent blamed themselves.

four other nations besides Italy—Finland, Hungary, Romania and Bulgaria. All except Italy already are within the Russian zone of influence. That circumstance isn't a happy omen for Italy. It means that the forthcoming fight between communism and the anti-red forces is going to be a tough one.

It long has been obvious that Italy was one of the nations specially marked out for communism, and the big Red party in that country has been doing yeoman's work in preparing the ground for a coup. Recently this preparation has been spurred because of the advent of the Marshall plan for European rehabilitation, which has as one of its objects to help countries like Italy defend themselves against aggressive communism.

With the hope of forcing the is-

sue in Italy before the Marshall plan can become effective, the communists are adopting drastic measures. Sunday, on the eve of the formal ratification of the Italian peace treaty, Palmiro Togliatti, Russian trained Italian communist leader, made a bitter speech in which he charged America with "working eagerly to prepare a new war." He also criticized President Truman and Pope Pius.

Yell Against Truman

A cry of "death to Truman" was voiced by perhaps a dozen of the throng listening to Togliatti.

While this speech was being delivered the country was being torn by labor troubles which Premier

LEGAL NOTICES

IN THE ORPHANS' COURT OF ADAMS COUNTY, PENNSYLVANIA

In re: Robert W. Grigley, as guardian of the estate of Karl D. Zentmeyer, a minor over the age of 14 years, and one-half of Vivian M. Zentmeyer, a minor over the age of 14 years.

Notice: To all intending purchasers or other persons interested in the real estate of Karl D. Zentmeyer and Vivian M. Zentmeyer, husband and wife, situate in the Borough of York Springs, Adams County, Pennsylvania, bounded and described as follows:

BEGINNING at a post on the Hanover and Carlisle Turnpike; thence running along the same South twenty-six (26) degrees East sixty (60) feet to a post; thence by a twelve (12) foot alley South sixty-five (65) degrees West one hundred and seventy-one (171) feet to a post; thence by a twelve (12) foot alley North twenty-eight and one-half (28 1/2) degrees West sixty (60) feet to a post; thence along Lot No. 10 North sixty-five (65) degrees East one hundred and seventy-four (174) feet to the place of BEGINNING, CONTAINING ten thousand three hundred and ninety-nine (10,399) square feet of ground, and known on the general plot of said Borough as Lot No. 9.

On the 10th day of August, 1947, the Orphans' Court of Adams County, Pennsylvania, ordered the sale of the herein above described real estate to Harry M. Paick and Mary L. Paick, for the price of sum of Eight Thousand and (\$8,000.00) Dollars. The Court has set Saturday the 27th day of September at 10:00 o'clock A. M. as the time for the final confirmation of said sale. Any intending purchasers or other persons interested in the said real estate may appear in Court at said time and object to such private sale on account of the insufficiency of the price.

THE WAR IN CHINA

Nanking, Sept. 17 (AP)—Govt. forces trying to pin down elusive Red Gen. Liu Po-Cheng were reported today to have stormed into Shucheng, 120 miles southwest of Nanking, forcing the Communists to flee westward. Nationalist reinforcements were being flown to the battle area from Hankow, to the southwest.

Rosario, a city 227 miles upstream from Buenos Aires on the Parana river, is a port for ocean-going vessels.

THE GETTYSBURG TIMES, WEDNESDAY, SEPTEMBER 17, 1947

Dr. Henry W. A. Hanson Begins Silver Anniversary Year On October 19

\$700,000 Building Program Completed; New Departments Created; Observe Centennial

On October 19, Dr. Henry W. A. Hanson, Gettysburg college president, will begin his silver anniversary year as the institution's chief executive.

Dr. Hanson's administration, which began October 19, 1923, and has exceeded by several years the span of service of any of his predecessors in that office, has been marked by extensive building programs, academic advancements, extension of the physical limits of the college property, and a record numerical increase in the size of the student body and the faculty.

One of the highlights of the Hanson administration was the observance of the centennial of the founding of the college in 1932.

Opens Women's Division
Other outstanding events of the 24-year span were the creation of a women's division of the college in 1935 after women students had been barred for several years and the launching of the current Expansion Fund campaign which is to lead to the college's most extensive building program.

When Dr. Hanson took over the duties of his office in the fall of 1923 after the 10-year administration of Dr. W. A. Granville whose resignation had become effective in March of that year, he found the college had many needs.

Building had been suspended during the war years, and increasing enrollment and costs made necessary many measures, among them provision for a larger faculty.

Well Known Preacher
The Board of Trustees had these needs in mind when they selected Dr. Hanson on recommendation of the nominating committee who had been impressed by his record as a preacher, pastor and administrator during pastorates at St. Luke's Lutheran church in Pittsburgh and at Messiah Lutheran church in Harrisburg which he left to come to the college.

Doctor Hanson had attracted notice too with his efficiency in promoting Red Cross drives and inspiring troops at embarkation ports during the war.

A native of Wilmington, N. C., Dr. Hanson was a graduate of Roanoke college in 1901 and was graduated from Gettysburg Lutheran Theological seminary in 1904.

Honorary Degrees
In 1918, he received the honorary degree of Doctor of Divinity from Gettysburg college which he was to head five years later. Lafayette college and Bucknell university added the honorary degree of LL.D. in 1925.

Doctor Hanson in his inaugural address, delivered in a large tent

on the campus, stressed as major aims of education the development of personality and the preparation of men for patriotic citizenship and those served as guide posts for his expansion program for Gettysburg college in the years that followed.

Laboratory, classroom and library facilities were inadequate when Dr. Hanson took the helm at the college and athletic facilities were far from their present state. The new president soon laid before the Board of Trustees plans for a \$700,000 building program that was completed in less than five years and most of the cost provided for.

Building Program
He recommended the reconditioning of Brua chapel and Old Dorm, the remodeling of Glatfelter hall, the erection of a science hall, a gymnasium and a library and made provision for an adequate athletic field.

In the summer of 1925, that program got underway with the reconditioning of the chapel and Old Dorm.

In the late fall of that year, contracts were let for the Science hall and the gymnasium that were to cost more than \$300,000 after they were equipped. Both new structures were occupied in the fall of 1927.

The football field was built in the summer of 1925 and dedicated on Alumni Day in October of that year.

Opens New Library
In 1929, the new library was ready for use and the college's library was moved from the upper floor of Glatfelter hall to its present home and the post of chief librarian was created.

In the summer of 1929, 40-year-old Glatfelter hall was extensively remodeled at a cost of about \$125,000. In the preceding year the old McCreary gym northeast of Old Dorm (later a chemical laboratory) had been razed as was the frame dormitory, Cottage Hall, the latter on the present site of the library, an old janitor's home was torn down and a new one erected west of Glatfelter hall.

While the physical assets of the college were being greatly expanded, academic changes were being made. After two years of operation of the Committee on Academic Standing, the office of Dean of Men was created in 1926. In 1941, the office of Dean of Women was created.

Dr. Hanson provided for the establishment of an orientation course in 1924 to help freshmen and in 1925, he established Freshman Week, now an annual occasion.

Starts Pension System
While faculty salaries were increased to hold and attract the type

NOWHERE else in the world can there be found such a happy return of "school days." In every hamlet and town — from every type of home — children are happily turning their way to the classrooms of the nation.

We often think of the builders of America. We think of those who build huge structures, great bridges and large cities. I wonder if we ever recognize, as we should, that the real builders of America are not those who spend their energy and time on the things we see — as necessary as these things are. The most important building operation in our land is that connected with the building of men and women who will make up the citizens of tomorrow.

In this age of so much confused thinking, it is most essential that we use our best judgment in committing to youth the ideals, traditions and convictions

President Hanson's Message

which are the bulwark of the country we love. The country is safe only so long as its citizens are honest, industrious, and ambitious to become someone through whose life America will become a finer place in which to live.

To Fathers and Mothers, this day marks a precious season of beginning again.

May the days that lie ahead be ones in which we will equip a new generation for noble service in the land that we love.

Gettysburg College, on this happy occasion, extends its good wishes and its pledge to cooperate to the utmost with our community in making the year one that we shall all remember with pleasure.

Most cordially yours,

Henry W. A. Hanson
President of Gettysburg College

The Gavel Club

The purpose of the Gavel Club is to increase the effectiveness of the fraternities through efficient leadership. It really is an informal course in leadership. Presidents and vice-presidents usually attend but sometimes whole committees (of each chapter) are invited, as when the social program, pledge training, scholastic standing, etc., are discussed. Meetings are held bi-weekly. Adviser: Dr. Frank H. Kramer.

Eta Sigma Phi

Eta Sigma Phi became active in Gettysburg in 1931 with the establishment of Alpha Pi chapter. It is a national honorary under-graduate fraternity of classical students. Its aim is to promote interest in classical studies and to develop fellowship among students of high standing who show a keen interest in such studies. Advisers: Drs. John G. Glenn and W. Frederick Shaffer.

Greater SCA Building Is Rising From Ruins Of November 23 Fire

The destruction by fire of the Student Christian Association building (Robert Weidensall Hall) on the Gettysburg college campus on November 23, 1946, a few short weeks after the opening of the fall semester, was considered a calamity at that time, but today, out of the ashes and the charred and twisted ruins of this building a new and finer edifice is arising.

Crowds stood aghast as the flames, spreading with great rapidity despite the best efforts of firemen, ate through the interior of the beautiful building erected 24 years previously by the Woman's League of Gettysburg college, burst through the roof, and subsided only after the interior had been almost completely gutted and smoke-blackened walls and foundations alone remained, topped by the twisted steel-work which had supported the roof.

Mrs. Mabel Phelps, hostess and dietician of the Women's Division at Huber hall, saw wisps of smoke seeping through a third floor window and called the Gettysburg Fire department. When the latter arrived, the third floor was a mass of flames and smoke poured from windows and down stairways. The firemen were driven back.

Fire Companies Called

Less than half an hour after receiving the call, assistance was asked of other fire departments, and five other companies, Biglerville, Cash-town, New Oxford, Littlestown and Arendtsville made record trips to Gettysburg in a vain attempt to save the SCA building.

More than 100 students and others defied smoke and flames to carry valuable furnishings from the doomed structure. Steel filing cases, heavy furniture, desks, supplies and valuable paintings were rescued in this way.

The fire started in a room on the third floor occupied by Donald Beal, Trenton, N. J., junior, and president of the SCA, and Charles Veneble, Chicago. College students first tried to extinguish the flames with hand

extinguishers, but were driven out of the upper halls.

Dr. Henry W. A. Hanson, president of Gettysburg college, was called home from the New York conference of the International Reconstruction commission, and immediately expressed himself as grateful that there was no loss of life or injury to any person. It was found, he said, that insurance would completely cover all replacement costs, and plans were begun almost immediately to re-build.

Records Saved

The larger part of the valuable records stored in the building were saved, as well as typewriters, mimeographs, furniture, paintings and college financial campaign records. The fire loss was estimated at between \$50,000 and \$60,000.

Work is progressing rapidly on the re-building of the SCA building and it should be ready for occupancy by mid-November, if present schedules are maintained, Dr. Hanson says.

Two wings are being constructed to the main building to provide facilities for an enlarged student body. Originally constructed to meet the needs of 400 students, the building last year before the fire did not fulfill the requirements of the enrollment of 1,125. This year the enrollment will be more than 1,200. The first floor will contain a lobby, alumni office, "Gettysburgian" office, art and mimeographing room, six conference rooms, a "browsing room" and a social room for non-fraternity men.

An assembly room to seat 300 will occupy the second floor in addition to a small kitchenette, small meeting room and storage room. A recreation room 30 by 45 feet will be the main addition to the ground floor. The swimming pool which was not damaged in last November's fire will not be changed, but bleachers for 100 spectators will be added. Men's and women's locker rooms will complete the ground floor.

About ten inches of snow is equivalent to one inch of rain.

Gettysburg ROTC To Open College Year With Vastly Expanded Program

Air Force Courses Are Added; Campus Has Background Of An Envious Military History

Students at Gettysburg college who are accepted for the new Reserve Officers Training Corps this fall, will be joining a select company with a historical background which dates back to 1861. It was in that year that the first military organization was formed at the college, according to a history written by Lt. David C. Houck, Arentsville.

Reports came from Baltimore in April, 1861, that the city was held by those who had resisted the Union troops passing through, and the people of Gettysburg and the students of Pennsylvania college, as it was then called, organized for the expected attack.

According to the account in The History of Gettysburg College of 1932: "In the spring of 1861, a military company was formed by the students. . . . It drilled regularly in the field behind the college, occasionally in the square in town, where it was greatly complimented for its skill in military evolutions."

In 1862 nearly half the freshman class joined the army, and before another class was to graduate in August, 1863, war came to Gettysburg, and a company of 83 men was formed here. Sixty-one were college students. They became Company A, 26th Regiment Pennsylvania Volunteers, and were the first to engage the Confederates near town.

Years later the cadet officers of the ROTC here were permitted to wear gold and black citation cords, symbolic of the loyalty and devotion to the Union of the students during the invasion of the north.

First ROTC In 1916
According to Lt. Houck's history of the ROTC, there were three attempts made to secure military instructors and instruction at Pennsylvania college, as it was known until 1921, prior to the final institution of the ROTC. These attempts were made in 1880, 1889 and 1908.

The World War in Europe in 1916 aroused the students of the college to action, and they petitioned the faculty for military instruction. The question was submitted to the board of trustees with the approval of the faculty. This attempt was successful in establishing the Reserve Officers Training Corps at Pennsylvania college.

Prior to 1916, however, there was a volunteer company in Pennsylvania college, and its leader and organizer, Adolph C. Weidenbach, may be credited with the title "Father of the ROTC" here.

After an interval caused by World War II, the ROTC was re-activated at Gettysburg college. The new post-war ROTC is more comprehensive and inclusive than was the pre-war program. New subjects, such as "The World Military Situation" and "Occupied Territories" were added.

Gettysburg college was recently authorized by the United States army to incorporate a course in Air Force training in its Reserve Officers' Training Corps program.

"The officer of World War II will find many new subjects already on the ROTC program of instruction at Gettysburg college," Colonel Alfred E. McKenney, professor of military science and tactics, says. "Such subjects include recoil-less weapons, air transport of troops and equipment and geographical foundations of national power."

Courses Outlined

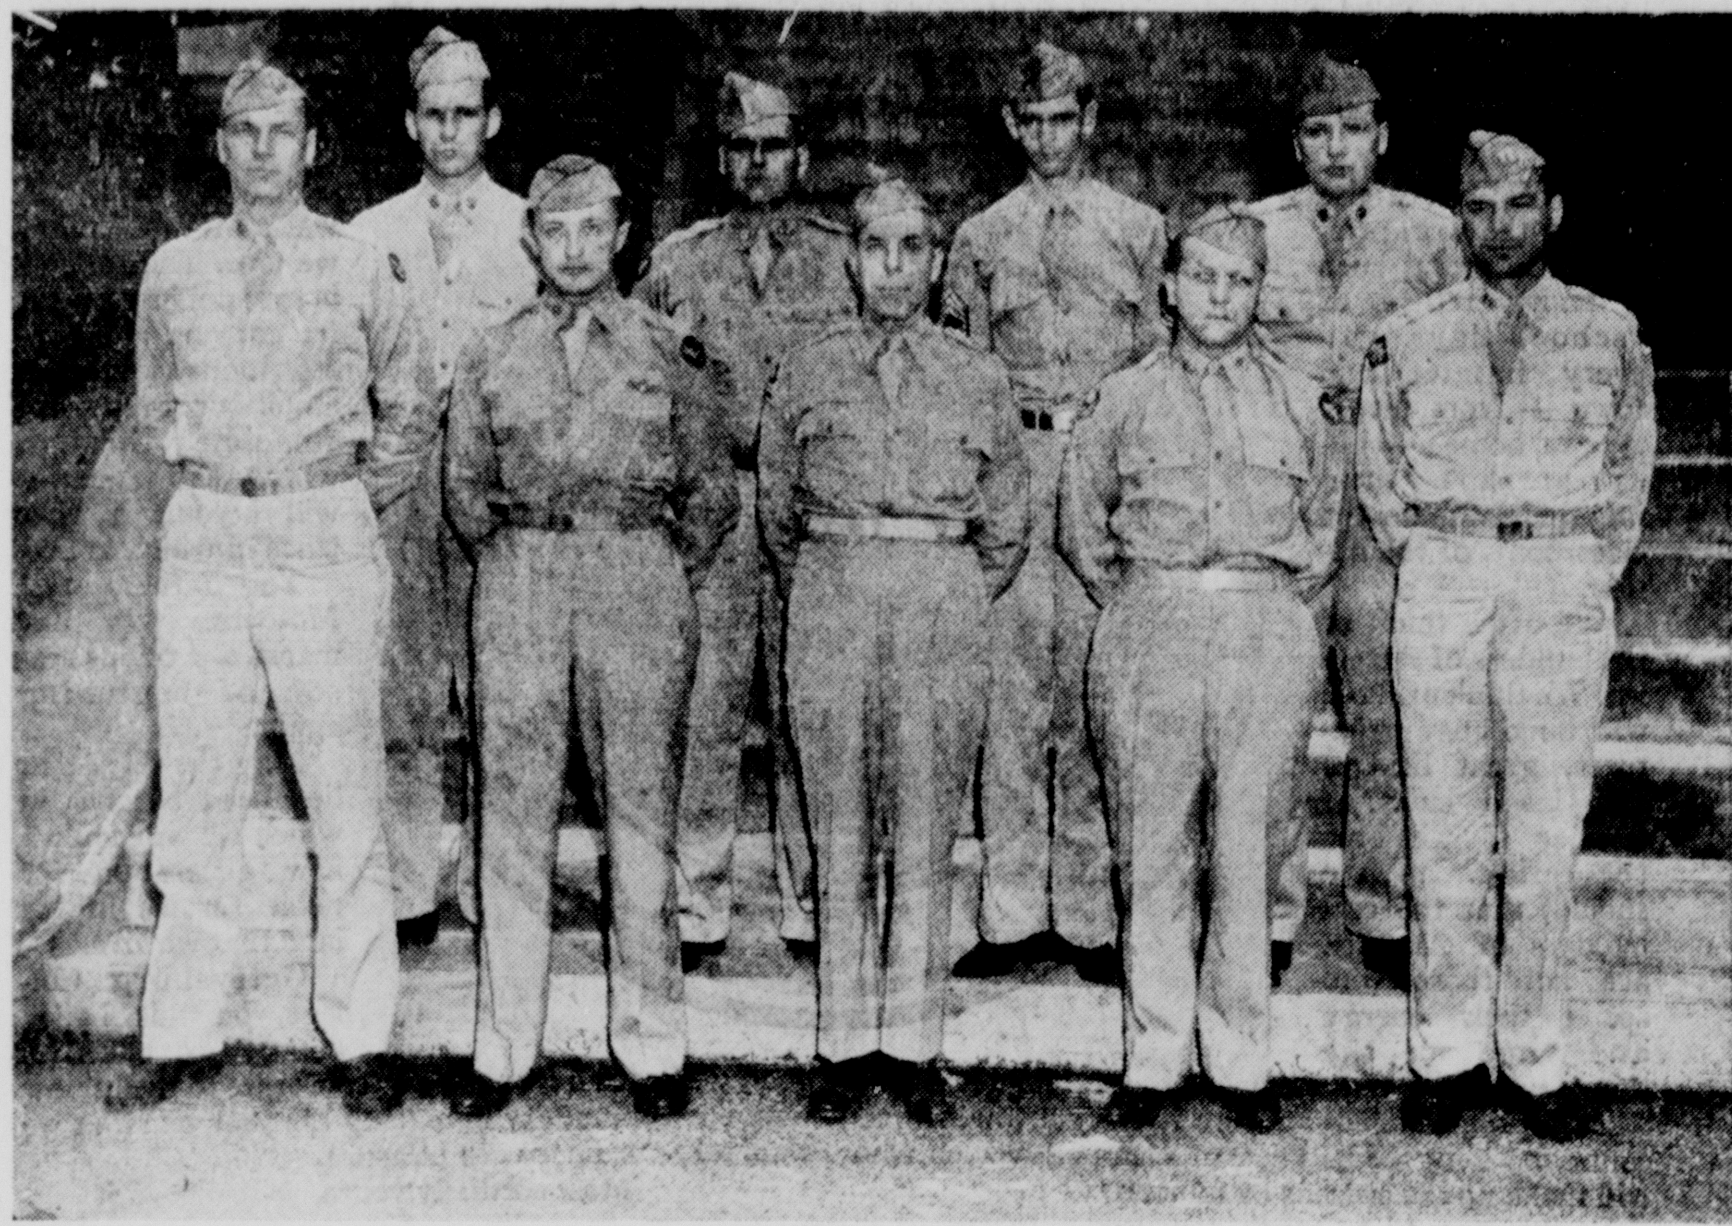

After the first two years of basic ROTC instruction those who choose to continue into the advance course are selected to so continue, and with the thought of becoming officers in the Ground Forces of the Army will, during their Junior and Senior years, take the courses as outlined below:

Infantry tactics of all units from the squad up to and including the battalion will be studied. Instruction will be given in the many infantry weapons from the M-1 rifle to machine guns, mortars and the new recoilless rifles.

Leadership is developed through a study of historical and World War II military leadership, psychology and the management of personnel and also through practical work in drill and exercise of command with the cadet battalion. A background for current national problems is given in such subjects as Geographical Foundations of National

ROTC Personnel At Gettysburg College

In the picture below are the regular army personnel in charge of the Gettysburg college ROTC unit. First row, left to right, Captain John F. Rodzankas, Lt. Col. Edwin P. Schmid, Col. Alfred E. McKenney, professor of military science and tactics; Major Robert F. Moyer, and Captain William O. Denham. Back row: M/Sgt. John A. Watts, M/Sgt. Oscar M. Downing, T/Sgt. Henry C. Carter and M/Sgt. Lloyd R. Fox. Another member of the ROTC faculty, S/Sgt. Paul E. White, is not shown in the picture. He was on leave when the photograph was taken.

Power, Military Problems of the United States, and Occupied Territories.

Military Law unfolds the legal procedure used in military jurisdiction. New problems in making up a wartime army from a nation of peace loving people will be brought out and discussed in Military Mobilization and Demobilization.

Recent improvements in the

technique of "Psychology Warfare" and "Combat Intelligence" will be taught in these courses. The importance of these subjects came to a new high during World War II. The student will be given an insight into all the work that is necessary to coordinate the Army, Navy and Air Force in "Combined and Joint Operations."

How the Army is organized, supplied and moved, and how communications are maintained at all times will be taught the future reserve officers along with some practical work in the use of wire lines, switchboards and field telephones and the newest type Army radios.

The advanced Ground Force students will also be given a course in command and staff duties and information on the latest developments in Army equipment and methods.

In order to train these future officers some of the technique of training their troops, a course in "Military Teaching Methods" will be given. This course is both theoretical and practical and includes of course the latest and most widely used

methods of instruction.

During the junior year at Gettysburg college, students who elect to take the first year advanced Air ROTC course will have a very interesting specialized Air program arranged for them. Subjects such as: navigation, a study of dead reckoning, radio and celestial navigation; meteorology, a study of air masses and fronts, the weather sequence and the weather map; guided missiles, a study of the development of rockets, rocket motor principles and guidance methods of missiles; air operations, a study of the Combat Air Forces of World War II, group planning of an air operation and students' participation in planning and coordination of an air operation.

The aforementioned subjects and many other interesting subjects have been selected by the Army Air Forces to give the student a basic knowledge as to what the Air Force is doing, how it is organized and how it functions.

Get Reserve Commissions

The second year Advanced Air ROTC students will have a specialized course in statistical control. This specialized course will include 88 hours of instruction on the methods, equipment, operations, duties and responsibilities of personnel utilized within the Statistical Control System of the Army Air Forces.

Students who successfully complete the advanced courses will be tendered a reserve commission as second lieutenant, Army Air Forces.

"College trains leaders for tomorrow," Col. McKenney says. "The academic curriculum will provide the background of knowledge essential to effective leadership, but actual practice in leading others is of inestimable value. While the student may gain experience in this direction on athletic teams and in various class and campus activities, the ROTC is a readymade course, designed and perfected to develop the qualities of leadership required in both military and civil enterprise."

"Regardless of the business or profession for which a college or university student is preparing himself, he will find in later life that few of his studies have been more helpful to him in reaching the top in his chosen field than the leadership he learned in ROTC. In addition, the nation needs the support of all future leaders to maintain peace

and our national security.

"During World War II, ROTC graduates served in all ranks from second lieutenants to brigadier general. By 1941 ROTC had produced approximately 120,000 reserve officers."

"The Reserve Officers Training Corps is not a component of the Army of the United States. Students enrolled in ROTC are not members of the military establishment. Membership in the ROTC does not in itself entail any obligation for active military service."

Has Two Missions

"The Reserve Officers Training Corps has two missions. The first is to produce junior officers who have the qualities and attributes essential to their progressive and continued development as officers of the Army of the United States. The second is to lay the foundations of intelligent citizenship within the student and to give him such basic military training as will be of benefit to himself and to the military service if he becomes a member thereof."

"Our national history proves that the average man is very likely to become a member of the military service, temporarily at least, at some time during his adult life. The ROTC offers the college student the opportunity to prepare himself so that he may serve his country under the most advantageous conditions, to the country and to himself. Thus, even though he plans to become a lawyer, engineer, surgeon, businessman, or poet, it is to his advantage to take the ROTC instruction offered at the college. The ROTC demands comparatively little of the college student's time, and does make him eligible for appointment as a second lieutenant (reserve) of the Army of the United States, if the entire course is completed."

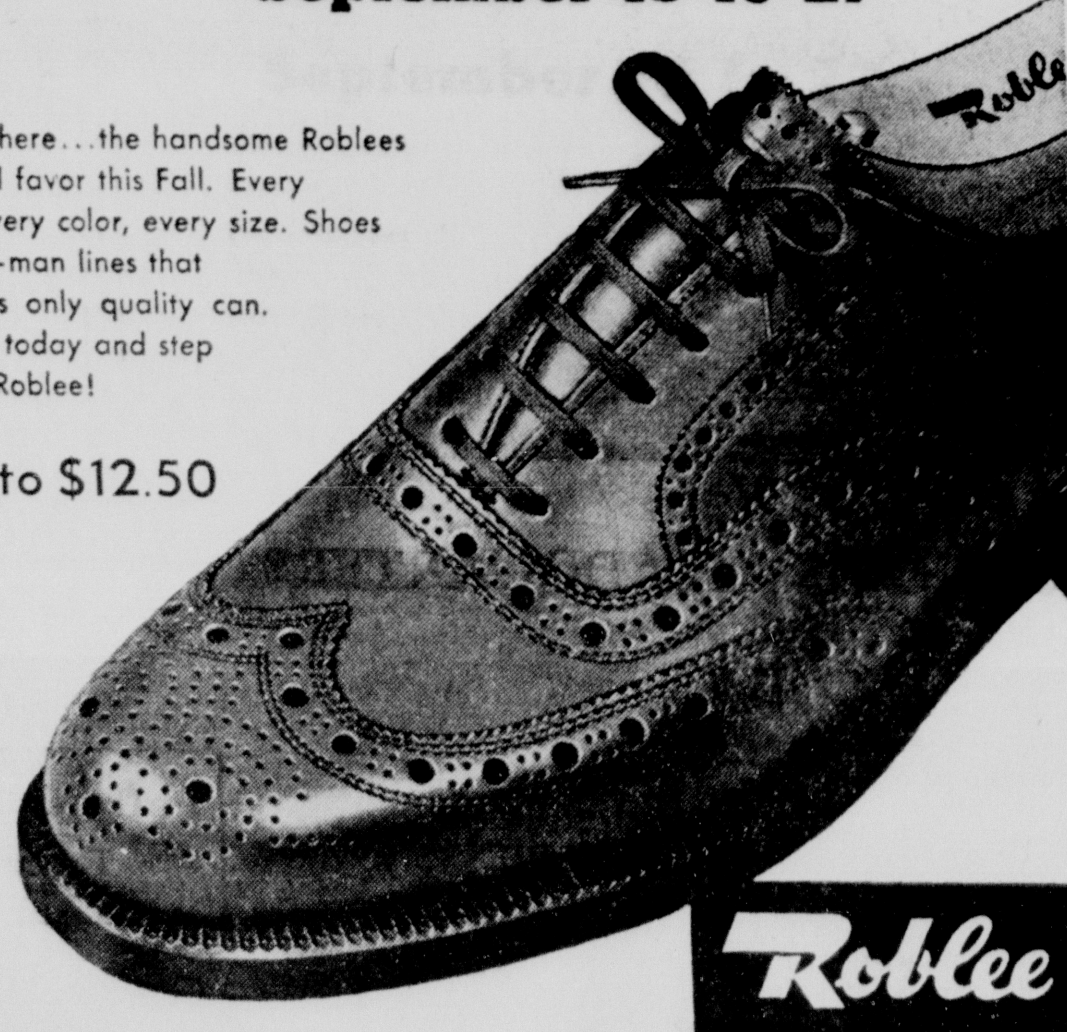

"The Military Academy cannot produce sufficient graduates to officer the regular Army. Graduates of the ROTC are eligible to be on active duty with the Army and if they desire to make the Army their career. They will be offered commissions in the regular Army. All of last year's ROTC graduates of Gettysburg college are, as this is being written, on temporary active duty with the Army. Several Gettysburg graduates have chosen the regular Army as their career."

"During the first two years of the (Continued on Page 6)

FABER'S
"ON THE SQUARE"

Greetings, Students:

We welcome you back, old and new students, to Gettysburg again and are always glad to know that college students are with us for another school year.

Faber's, one of Gettysburg's popular Soda Fountain and Luncheonette stores, is always glad to have you come in and make yourself at home — we will try and make you welcome.

We hope the new Freshmen will make their early acquaintances, our sincere Best Wishes and Success to each and everyone, we remain

Cordially yours,

Fred S. Faber

Instructor Personnel For ROTC Unit Men Of Wide Army Experience

A staff of five officers and five non-commissioned regular army men will be in charge of the Reserve Officers Training Corps at Gettysburg college when classes and drill open at the college this fall.

Colonel Alfred E. McKenney, professor of military science and tactics will head the ROTC staff. Col. McKenney has taught in three colleges and for five years was a member of the faculty of the infantry school at Fort Benning, Ga. He is a graduate of the University of New Hampshire, with a BS degree.

Col. McKenney is also a graduate of the Infantry School and the Command and General Staff school. He entered the regular army in 1920 after having served during the first World War. The colonel saw service in Puerto Rico and in the Philippines prior to World War II.

At the beginning of the latter conflict, he wrote training literature and prepared aids to training, including motion pictures and other visual aids. Overseas he was G-3 of the Africa-Middle East theater until its close last year.

Entertained Haile Selassie

Col. McKenney had a most interesting detail when he had Emperor Haile Selassie as his guest for two weeks and took the latter to meet President Roosevelt at the Bitter Lakes conference.

The colonel is married and has three children, one of whom is an ensign in the Coast Guard. Col. McKenney's home state is New Hampshire. His awards and decorations include the Victory medal, American Defense medal, American theater ribbon, European-Middle East theater ribbon, World War II victory medal, Legion of Merit and an officer of the Great Star of Ethiopia.

Col. Edwin P. Schmid

Lieutenant Colonel Edwin P. Schmid, in charge of the Air Corps instruction at the college here, was graduated from the United States Military academy at West Point with a BS degree in 1939. He is also a graduate of the Command and General Staff school and of the Advanced Flying School in 1940. He was rated senior pilot and served with the 15th Air Force during World War II.

Col. Schmid is married and claims South Dakota as his home state. He has the Silver Star, DFC, Air Medal with four oak leaf clusters, Greek Cross, for participation in the invasion of Greece, and was deputy group commander of the 376th Bomb Group.

Major Robert F. Moyer

Major Robert F. Moyer, Air Corps, graduated from Pennsyl-

vania Military college in June, 1939 and was granted a BS degree. He took ROTC in college and was commissioned in the infantry reserve in July, 1939. He entered active duty with the First Bomb Squadron, 9th Bomb Group, Mitchell Field, N. Y., in September, 1940.

He was transferred with his unit two months later to Rio Hato, Panama, as squadron quarter-master and tactical supply officer. He served later as assistant, Group S-4, and was then transferred with the 9th Bomb Group to Trinidad, British West Indies in April, 1941, and remained there until May, 1944. He served as depot supply officer at the Trinidad air depot.

Major Moyer returned to the United States in May, 1944, and served as chief traffic section, Pacific Overseas Air Material Command, in California. He remained there until assigned to Gettysburg college on June 26. He is married and has one child and claims Egypt, Pa., as his home address. He holds the American Service medal with star, American Theater ribbon with star and the World War II Victory medal.

Captain William O. Denham

Captain William O. Denham of the infantry was graduate from John B. Stetson university with an AB degree. He was a teacher until he was inducted into the army in January, 1941. After completing the course at the Officers Candidate School at Fort Benning, Ga., he was assigned to the 45th Infantry division as a platoon leader in a rifle company.

After undergoing training for infantry combat, amphibious warfare, snow and cold weather warfare and mountain fighting, he was sent overseas with his unit and participated in the Sicilian, Salerno, Anzio, Southern France, Rhineland and Central European campaigns as platoon leader, company commander and battalion staff officer respectively.

Returning from Europe in 1945, Captain Denham served with a replacement training battalion at Fort Bragg, N. C., until his assignment to Gettysburg college as an ROTC instructor. He has the following decorations and awards: Silver Star, Bronze Star for Valor, Purple Heart, European Theater ribbon with one silver star and one bronze star representing six campaigns, American theater ribbon, American defense service medal, World War II Victory medal, French Croix de Guerre with silver star and palm.

Captain Denham was appointed to the regular army in 1946. He is mar-

SCA Building In Flames

ried and has two children and his home is in DeLand, Fla.

Captain John F. Rodzankas

Captain John F. Rodzankas, air corps, graduated at Pennsylvania State college with a BS degree in January, 1940. Employed by Baker Engineers as junior civil engineer prior to enlisting in the army in March, 1941 as an aviation cadet, Captain Rodzankas was commissioned in April, 1942 as a bombardier.

He left the United States for overseas service in August, 1942, and spent 17 months in the New Guinea, Papuan, North Solomons and Mandated Islands campaigns and the battle of the Bismark Sea as a squadron bombardier. He is a graduate of the Bombardier school, the Adjutant General's school, the Command and General Staff school, and the Statistical Control school.

Captain Rodzankas' home is in Vanport, Pa. He is married and has one child. Among his awards and decorations are Distinguished Flying cross, Air medal, Presidential Unit citation, Asiatic Pacific theater ribbon, American Defense service Medal, American Theater ribbon and World War II Victory medal.

M/Sgt. Lloyd R. Fox

Among the non-commissioned officers, Master Sergeant Lloyd R. Fox, regular army, infantry, graduated from Stan High school, Stan, Texas, in 1939 and attended John Tanleton college, Stephenville, Texas, for one year. He enlisted in the Texas National guard in September, 1940. He was commissioned as a second lieutenant in September, 1942, and served in the Mediterranean theater of Operations with the Third Infantry Division from February, 1943, until June, 1944.

Sergeant Fox served with the Army Ground Force until May, 1946, at which time he was released from

active duty as first lieutenant. He is married and has one child, and Goldthwaite, Texas, is his home town.

He has the EAME service medal with three bronze stars, Bronze Arrowhead, American Theater service medal, Purple Heart, World War II Victory medal, Good Conduct medal and American Defense service ribbon.

Sgt. John A. Watts

First Sergeant John A. Watts, regular Army, adjutant general's department, attended Atlee high school, Atlee, Virginia. He enlisted in the Army February 17, 1936, and served with the 12th infantry at Fort Washington, Maryland. He also served with the following units in the United States: Reception Center, New Cumberland, Pa., Medical Training Center, Fort Lewis, Wash., Medical Training Center, Camp Barkley, Texas.

Sergeant Watts served in Hawaii with the 13th Replacement Depot, from March, 1945, until June, 1945, at which time he was ordered to Okinawa with the 25th Replacement Depot. He returned to the United States in October, 1945.

Upon re-enlisting, Sergeant Watts was assigned to Disciplinary Barracks, New Cumberland, Pa., and remained there until his assignment to Gettysburg college in January, 1947. He is married and has three children, and his home is at Camp Hill, Pa.

Sergeant Oscar M. Downing

First Sergeant Oscar M. Downing, regular Army, infantry, attended Valatie high school, Valatie, N. Y. He enlisted in the Army in June, 1931, and served overseas in the Panama Canal zone with the 14th Infantry regiment.

He served with the following units in the states upon his return from Panama in 1936: Quartermaster

Corps, Fort Monmouth, N. J.; with the Infantry at Camp McClain, Miss., Fort Jackson, S. C., and Fort Benning, Ga. He returned overseas in September, 1944, and served with the 346th Infantry regiment in the following campaigns: Saar Valley, Battle of the Bulge, Rhineland and Central European. He returned to the United States in June, 1945.

Upon re-enlisting, Sergeant Downing went to the Infantry School, Fort Benning, and graduated from the Special Non-Commissioned Officers' school there in August, 1946. He was assigned to Gettysburg college in August, 1946.

Sergeant Downing is married and has four children and claims Belmar, N. J., as his home town. He has the combat Infantryman's badge, Bronze Star medal, European-African-Middle Eastern medal with four battle stars, American Defense service medal, American theater ribbon, Good Conduct Medal with clasp and World War II victory medal.

T/Sgt. Henry C. Carter

Technical Sergeant Henry C. Carter, regular army, air corps, graduated from Princeton high school, Princeton, W. Va., in June, 1936. He enlisted in the regular army in October of that year and served in Hawaii from November, 1936 to November, 1938 with the Hawaiian Separate Coast Artillery brigade. Later he served with the following units in the states: Overseas Depot, Fort Slocum, N. Y., and as an ROTC instructor at Penn State.

He returned overseas in September, 1944 and served until November, 1945 with the 5th Air Force in New Guinea, Leyte, Luzon, Ilo Shima and Korea. After returning to this country, he served with the Air Corps, Memphis, Tenn. and with the Air ROTC unit, West Virginia university.

Sergeant Carter is married and his home address is Bellefonte, Pa. He has the Good Conduct medal, American Theater medal, American Defense medal, Asia Pacific Theater ribbon with four bronze stars, Philippine Liberation medal with one bronze star, World War II Victory medal and Army of Occupation medal (Korea).

S/Sgt. Paul E. White

Staff Sergeant Paul E. White, regular army, medical corps, was graduated from high school at Waynesburg, Pa., in 1940. He enlisted in the army in June of that year and was assigned to the Medical Corps. Sergeant White served in the EAME theater with the First General Hospital from February, 1945 until December, 1945.

He returned to the United States in December, 1945, and was discharged. Upon re-enlisting in January, 1946, he was sent to Camp Crowder, Mo., at which station he served until being ordered to Gettysburg college in May, 1946.

Sergeant White is married and has one child. Waynesburg is his home.

He has the Good Conduct medal, World War II Victory medal, American Defense service medal, Ameri-

can Theater medal, EAME Theater service medal and Meritorious Unit award.

Honorary citizenship in the republic of San Marino was conferred on Abraham Lincoln in 1861.

SIXTEEN ADDED TO FACULTY OF G'BURG COLLEGE

Fourteen men and several women have been added to the Gettysburg college faculty to help teach the record enrollment of 1,250 students who will begin classes Friday.

Rev. Edward K. Stipe, graduate of Gettysburg in 1942, is an addition to the Bible department. Rev. Stipe graduated from the Lutheran Theological seminary here in 1945 and served as pastor of a McSherrystown Lutheran church for two years. In 1946 he was part time instructor in the Bible department.

The biology department has added Harold M. Messer, who has had teaching experience at Emory university, New York university and Long Island university. Messer, who earned his B.A. at Brown university and his M.A. at Columbia university, is the author of the following publications: "Laboratory

Directions in Vertebrate Anatomy"; "The Anatomy of the Cat," and "An Introduction to Vertebrate Anatomy."

Glenn Mower, formerly of Chambersburg, and Richard Riley have been named to the economics department. Mower held a government position in the economics field in Washington. Riley received his M.A. degree from Columbia university this summer. He is a graduate of Shippensburg State Teachers' college.

Harry F. Bolich, Hershey has been added to the English department. He received his B.A. and M.A. from Bucknell university, taught at Haverford college, Sunbury high school and more recently at Hershey Junior college.

Rev. Wallace Fisher, a graduate of Gettysburg in 1941 and Mt. Airy seminary in 1944, comes to the history department from Zelonople, Pa., where he had been pastor of a Lutheran church. He also received his M.A. degree from the University of Pittsburgh.

An addition to the mathematics department is Robert Fryling who graduated from Gettysburg in 1941 and after four years in the service

attended the University of Michigan in 1946-47.

Clarence Bartholomew, University of Pennsylvania graduate, has been added to the physical education department where he will be assistant professor of health and physical education. He received his M.S. degree from Pennsylvania while serving as a part-time instructor.

Large ROTC Staff

John Hayward, who received his B.A. from Bowdoin college and M.A. from Boston university, has been added to the Psychology department. Recently he has been the director of counseling at the extension center of William and Mary and Virginia Polytechnic Institute at Norfolk, Va.

New additions to the Reserve Officers Training corps include: Lieutenant Colonel Edwin P. Schmid, South Dakota; Major Robert F. Moyer, Egypt, Pa.; Captain John F. Rodzankas, Vanport, Pa.; Master Sergeant Lloyd R. Fox, Goldthwaite, Texas, and Technical Sergeant Henry C. Carter, Bellefonte, Pa.

New part-time instructors include Mrs. M. P. Hartzell, Jr., Gettysburg, who has been added to the English department.

Mrs. Henry W. A. Hanson

Le Cercle Francais

This organization is open to all students interested in furthering their knowledge of French people, their language and customs. Under the leadership of council members, it sponsors programs featuring plays, speeches on various aspects of French life and customs, playing of French music, and opportunities for small group discussion in French. It has been a campus organization for the past three years. Adviser: Dr. Albert Bachman.

Spanish Club

Open to all students interested in the Spanish-speaking nations or in Latin-American customs, the Spanish Club enters its fourth year at Gettysburg. A program committee arranges the bi-monthly meet-

ings which include speeches on the various aspects of Latin-American life. The club affords opportunities for small group discussions in Spanish. Adviser: Prof. Herbert G. Hamme.

International Club

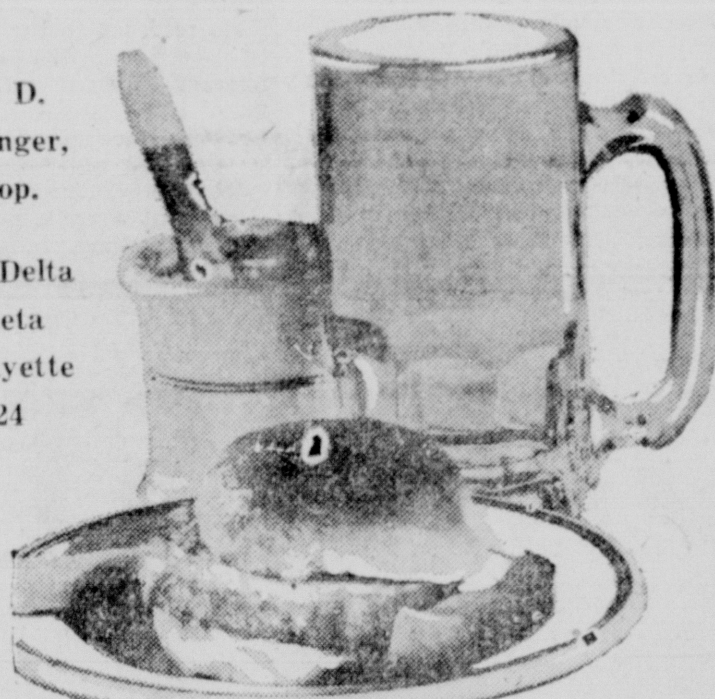

Organized in 1946, the International Club of Gettysburg college affiliated itself with the aims and objects of the United Nations Educational, Scientific, and Cultural Organization in order for Gettysburg College to do its share in the promotion of better international understanding and to work for world peace. Regular monthly meetings are held which feature renowned speakers on international affairs along with discussions on student topics of international interest. Advisers Drs. William K. Sundermeyer and W. Frederick Shaffer.

GETTYSBURG PENNSYLVANIA

NEW POLICIES ADOPTED FOR GI STUDENTS

The Veterans administration today announced new leave policies to permit unbroken subsistence payments to veterans going to college under the G-I bill after September 1 and continuing their studies under an accelerated program.

Under the new regulations, veterans will receive subsistence payments for the full enrollment period certified to VA by the educational institution, providing there are no more than 15 days between terms. Such leaves will be charged against their entitlement.

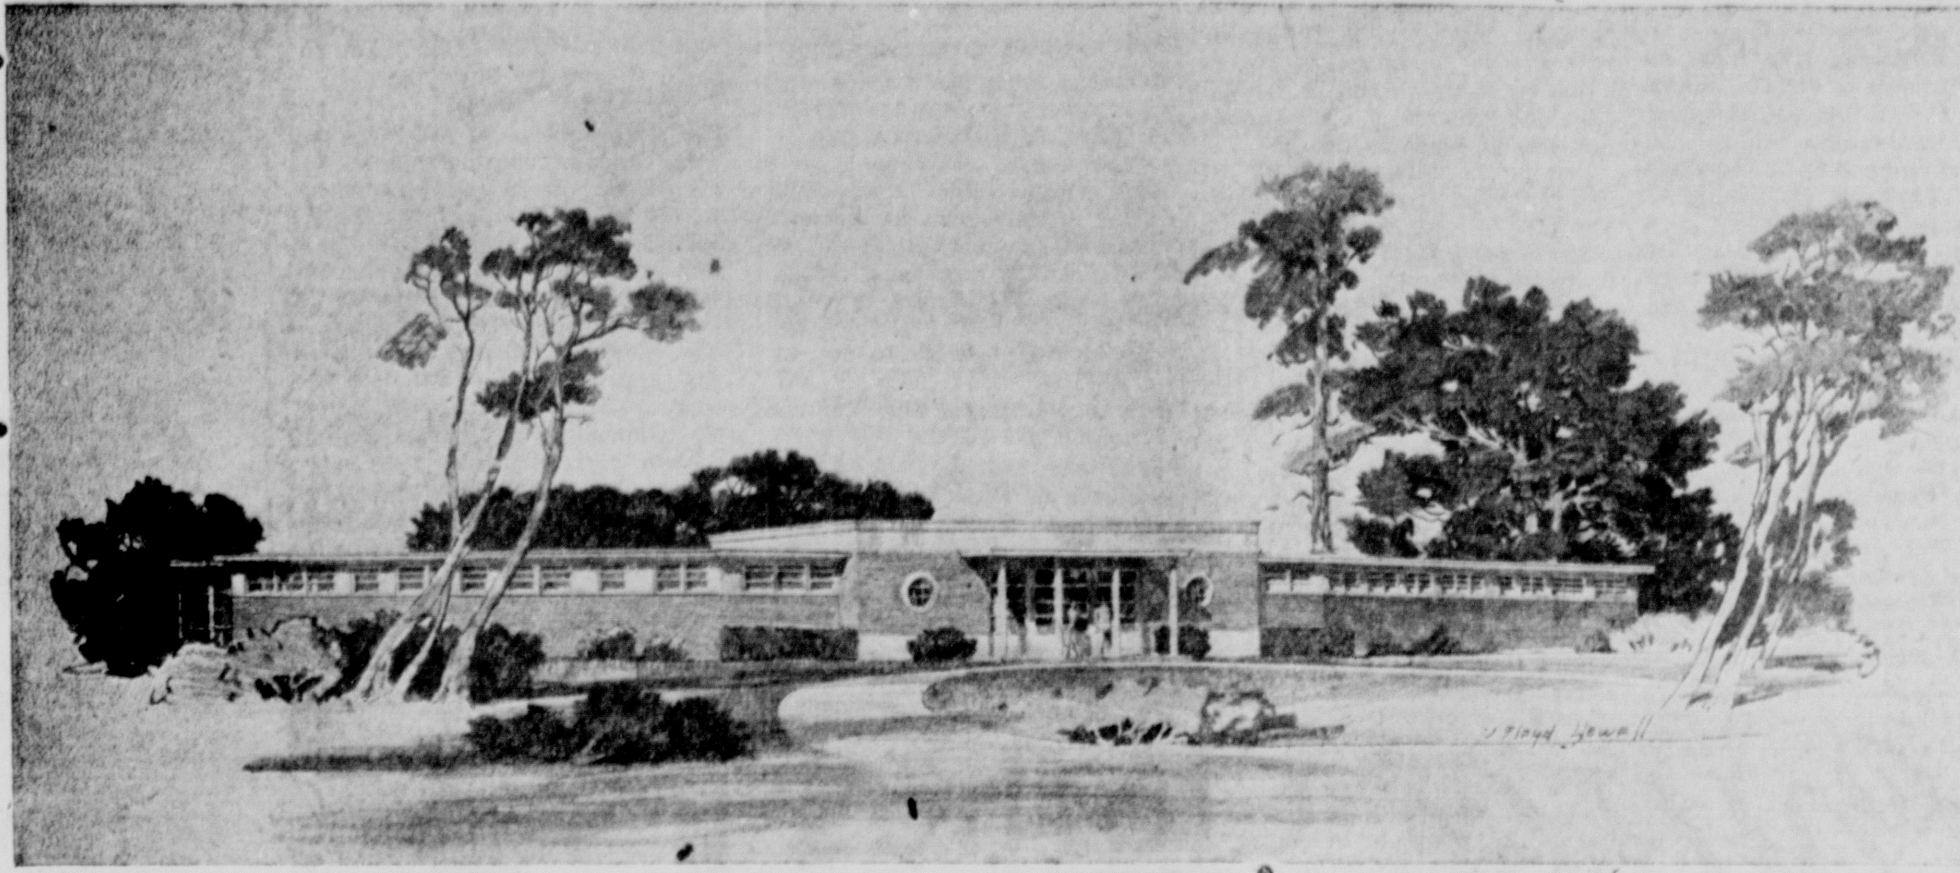

Veterans will be put on the subsistence rolls from the date of enrollment until 15 days after the close of the period. This will enable VA to make final payment of subsistence allowance without delay to those men who do not return for the following semester.

No Other Leaves

No leaves other than the 15-day extension in training status will be authorized by VA with the exception of the scholastic leaves offered by

the educational institutions to other students.

College Plans To Build This New Infirmary

The new leave provisions will not training before the end of a term. In such cases, authorization for subsistence payments will end of the date the training was interrupted. If the period of a veteran's eligibility ends after the middle of a

semester, his eligibility for study will be continued until the end of that semester and authorization for subsistence allowances extended accordingly.

The leave will be granted to all veterans on enrollment. Those who do not want the leave must notify VA in writing at least 30 days before the end of the school year or other period of enrollment.

VA is encouraging all institutions of higher learning to certify enrollments for the full academic year and accept the obligation of notifying VA promptly of veterans interrupting their training at any time before the end of the school year.

If the institutions certify enrollments only on a semester basis, VA will have to authorize subsistence payments by single terms with the possibility that subsistence checks due veterans who enrolled for the following term will be delayed.

Less Paper Work

In the past, student-veterans were taken off the subsistence rolls at the end of the normal school year. Those choosing to continue their studies during the summer semester had to be recertified for subsistence payments after they had enrolled for the summer term.

Leave in the past was earned at the rate of two and a half days a month during the course of study. Veterans, on application to VA could use this leave to extend their training status at the close of the school

Owl And Nightingale

This dramatic workshop of the college aims "to bring out the dramatic talent of the students in acting, stage managing, and play writing, and also to provide the college and the community with fine entertainment." In order for students to be eligible for membership in the club, and thus to share in its social events, they must either have been manager for two productions or have had two speaking parts. The club intends to have several social events throughout the year, including a reception to which all those having any talent, experience, or desire to act are invited. Adviser: Dr. Richard A. Arms.

year. By doing this, they received subsistence allowances for the extended period of training.

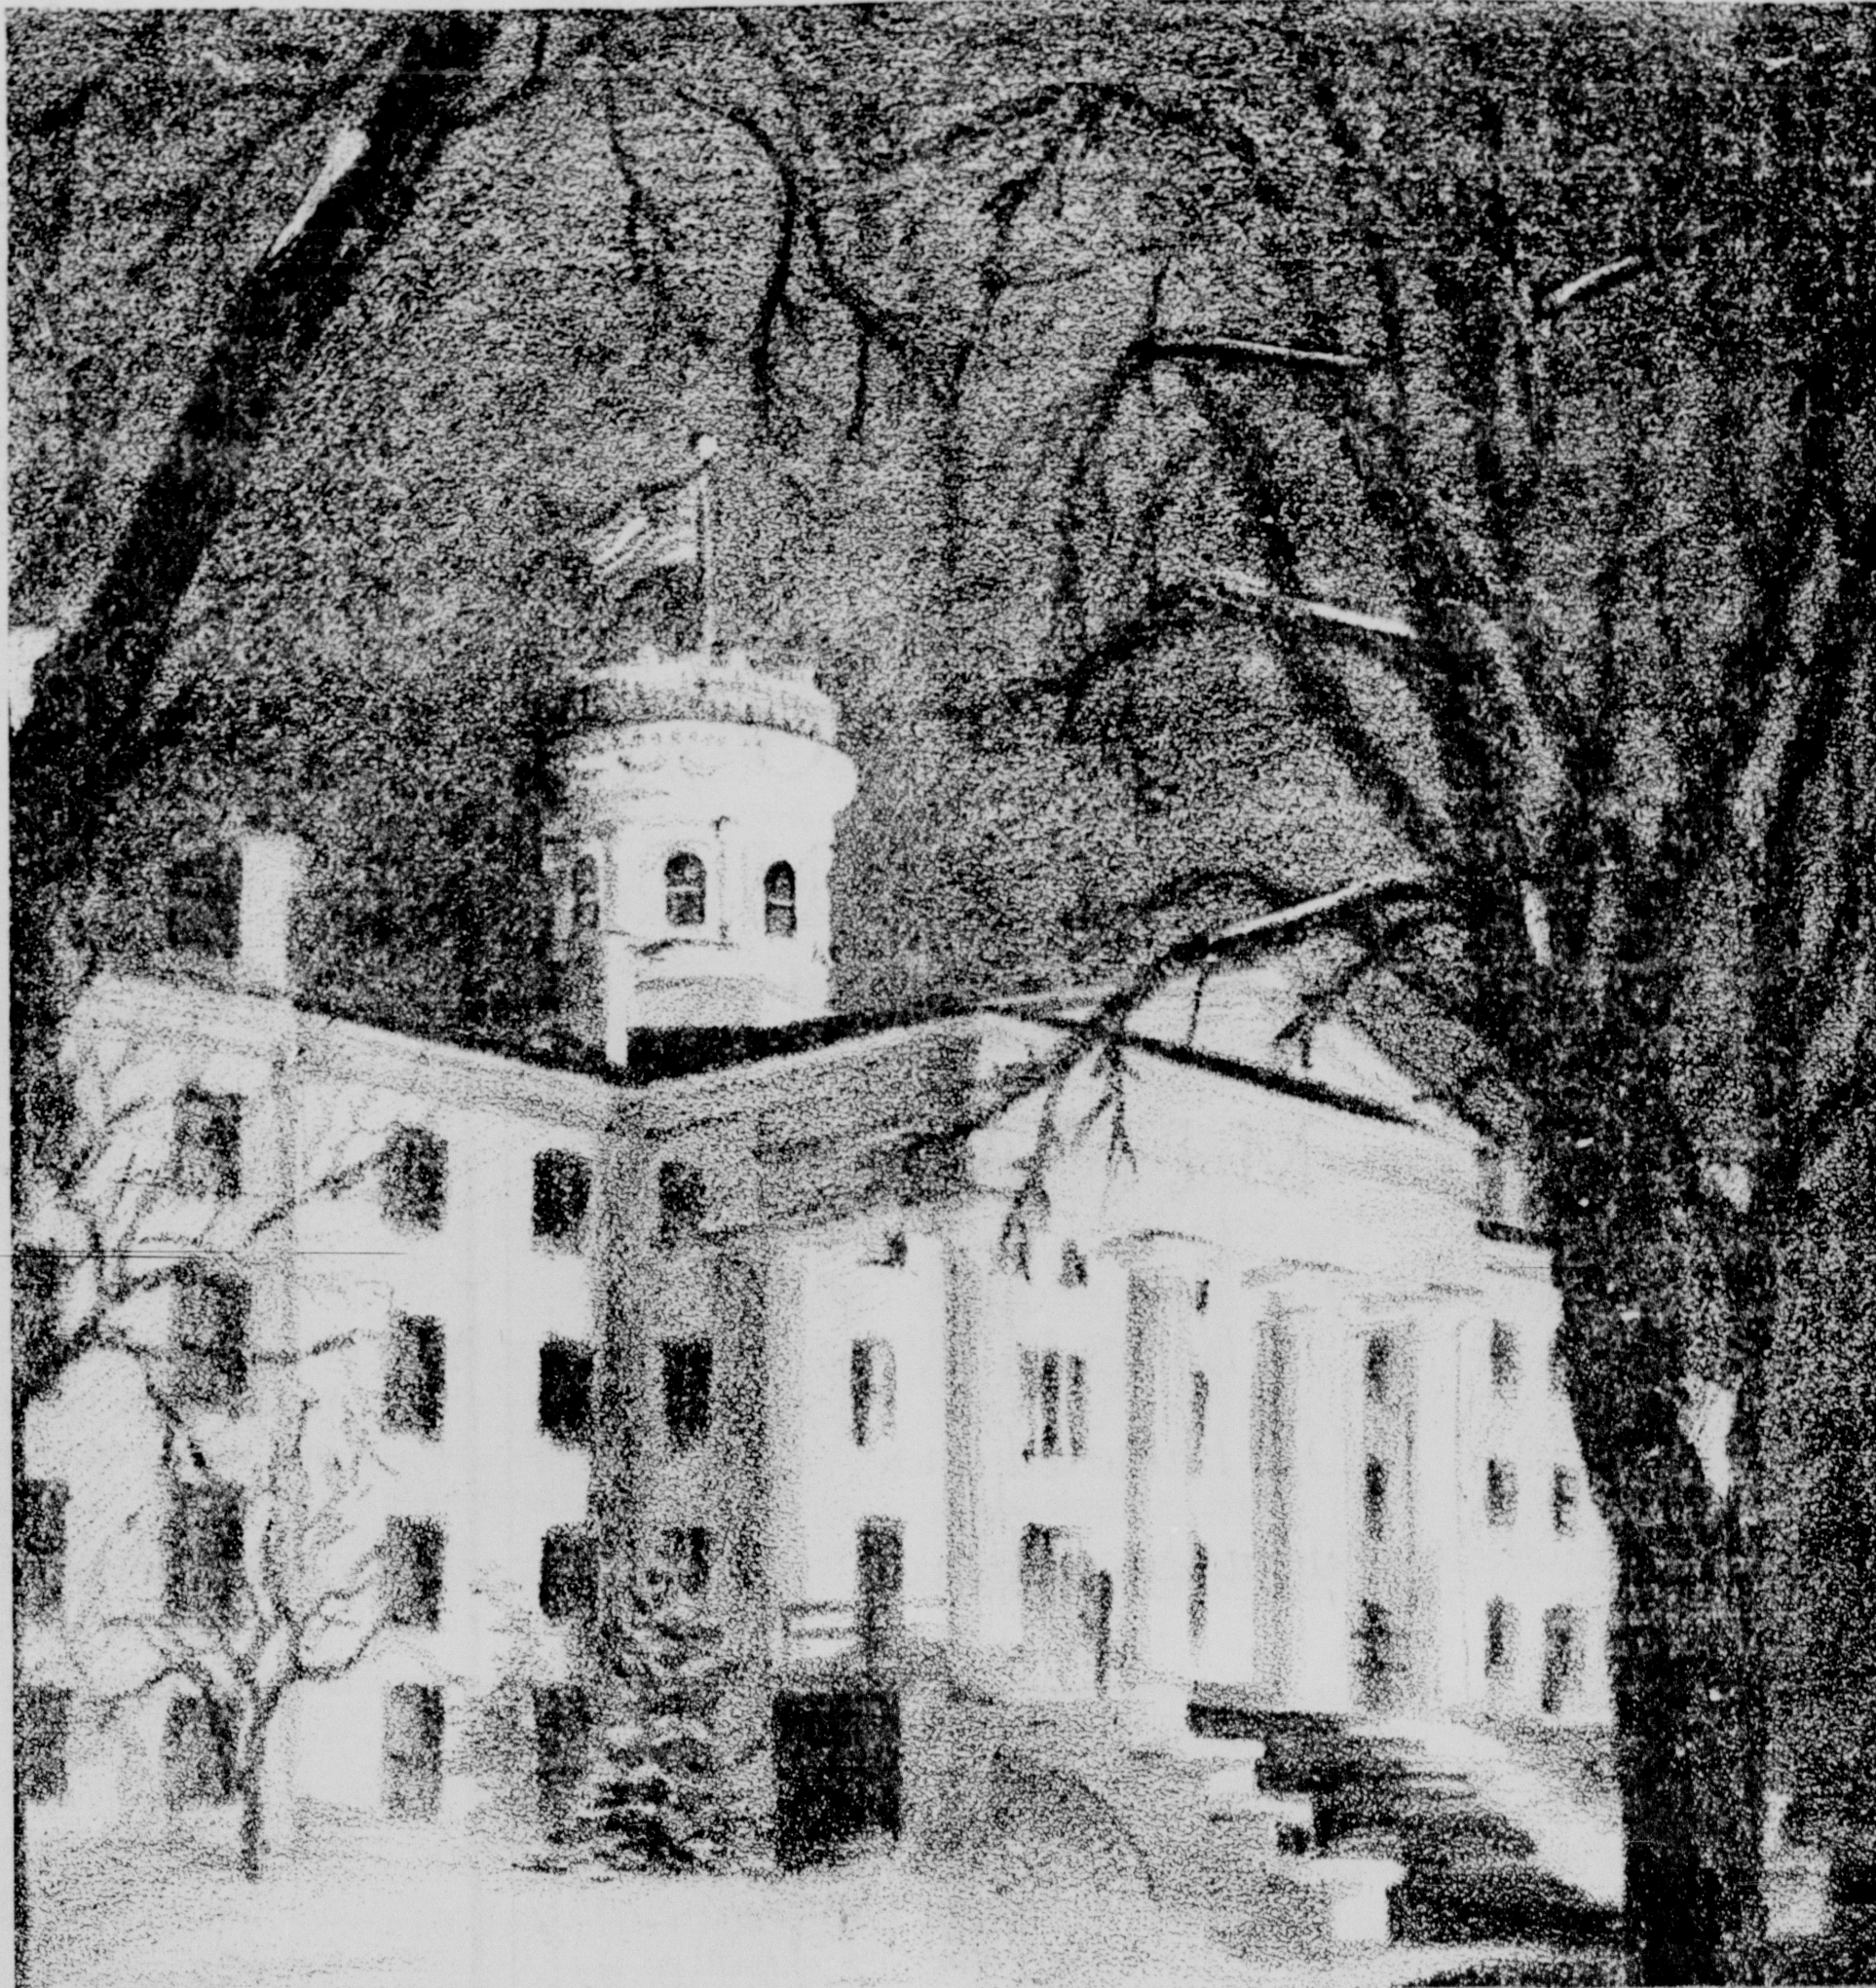

The new regulations will eliminate much paper work for the colleges and VA. Affirmative reports on conduct, progress, grades and attendance no longer are required. The institutions now need report only unsatisfactory progress and interruptions of training before the end of a semester which would have a bearing on the subsistence allowance authorized for the student-veteran.

The new policy applies only to veterans studying in institutions of higher learning under the provisions of the G-I Bill, VA said.

College ROTC

(Continued from Page Two)

ROTC training the student studies such basic subjects as Map Reading, First Aid, Rifle Marksmanship. "The ROTC enrollment at the local campus more than doubled during the past year. At the annual inspection conducted by the War Department it received a rating of "Excellent," the highest rating that can be awarded. This rating was set.

Political Science, 316 York St., Telephone 140-W.
J. Blaine Saltzer, B.S., Assistant Professor of Economics.
George D. Steckel, B.S., M.A., Assistant Professor of Physics, York, Pa.
Joseph K. Wolfinger, A.B., Assistant Professor of English, 209 N. (Continued on Page 7)

cured because of the excellent work and performance of the students, despite the handicap of lack of space and facilities."

Expect 160 Enrollment

The ROTC faculty at Gettysburg are all members of the regular army and of considerable service and experience. A total enrollment in the ROTC of approximately 160 college men is expected this fall, Col. McKenney said. While it cannot be determined definitely at this time how many from the freshman class will be enrolled, it is estimated that approximately 60 will take the course. There will be approximately 42 sophomores, 35 juniors and 24 seniors the colonel said.

Two, and possibly three companies will be formed, with cadet officers. They will drill regularly once each week, on Tuesday afternoons, and will attend classroom instruction as a part of their course.

New uniforms, including trousers,

blouses and jackets, shirts, coats, ties and shoes will be issued to each cadet. Several rooms in the basement of the Eddie Plank Memorial gymnasium have been set apart for use by the ROTC. These include a rifle range.

CLUB PLANNING FURTHER STUDY WORLD AFFAIRS

The International club of Gettysburg college, which during the past year has been attempting to interest residents of Gettysburg as well as college students in its drive to promote peace within the aims and objectives of UNESCO, is planning to extend its program of bringing information to local residents this coming year, its president, Robert J. Avancena, said today.

Now entering its third year on the campus, the club plans to continue its practice of bringing outstanding national and international personalities to speak on topics of world concern, Avancena said. Last year State Department officials and high ranking army officials were brought here to speak at public programs by the club.

Most important addition to the organization's program this coming year will be educational films, the president said. Included in these will be both English and foreign language pictures "which will be chosen to promote understanding foreign peoples and their languages. The Pennsylvania State College film library and private organizations in Philadelphia and New York have agreed to cooperate with the club in the showing of these films here. The programs will be presented monthly or more often if the demand is sufficient," Avancena added.

To Study UN Problems
An intensive study of the United Nations organization is planned for this coming year. Student discussion groups will be held concerning the problems of the United Nations and in addition a number of speakers will be brought here to give their opinion on the UN, its structure and its problems. The organization also plans tours of the UN at its headquarters at Lake Success.

Officials of the club for the fall term include Avancena as president; Frank H. Berta, vice president; Jocelyn A. Slonaker, recording secretary; Virginia A. Schuler, corresponding secretary; Roger L. Pierre, treasurer and N. Richard Hagen, sergeant-at-arms.

FORNEY BEGINS 13TH YEAR AS MAROON COACH

George Forney is now in the midst of his 13th season as coach of Gettysburg high school athletic teams.

Coach Forney graduated from Shippensburg State Teachers' college in 1930 where he starred in all major sports. He became head coach at Biglerville high school in that year and after enjoying great success there for two years resigned to become head coach at Gettysburg in 1932.

His coaching career was interrupted by World War II and in June 1943 Forney entered the navy in which he served until December, 1945. He attained the rank of chief specialist and served as an instructor at naval academy preparatory school at Bainbridge, Md. For a brief period he was stationed at Camp Perry, Va. Following his discharge from the navy he resumed his coaching career in January, 1946.

Forney was certified as a physical education instructor at Penn State college and later received his master's degree from that school. Parts of many of his summers have been spent in attending athletic clinics under such capable mentors as Jock Sutherland, Frank Thomas, Andy Kerr, Hank Anderson, etc.

Basketball Record
During his regime here he has captured no less than five South Penn basketball titles and three District 3 PIAA titles. His record in the league shows the following: 1933, first place; 1934, second; 1935, first; 1936, second; 1937 and 1938, third; 1939, second; 1940 second, tie; 1941, 1942, 1943, first, with District 3 championships. Last season his team won 10 and lost 11, the first time any of his cage teams finished with lower than a 500 mark.

The league record was eight wins and six losses.

In the 12 years he coached football his eleven won 42, lost 49 and tied 12.

Since Forney took over the Maroon track teams his squads have been recognized as the best in the southern Pennsylvania area. In the 13 annual meets of the South Penn conference, the Maroons have won the championship 12 times.

Homing pigeons have carried messages as far as 800 miles.

The productivity of U. S. soil is now about half as great as it was before white men came to America.

College Calendar 1947

Sept. 15 to 18 — Monday to Thursday, Freshman Week and Registration of New Students.
Sept. 18 — Thursday, Formal Opening Exercises.
Sept. 19 — Friday, 7:45 a. m., Classes begin.
Nov. 27 — Thursday, Thanksgiving Day Holiday.
Dec. 19 — Friday, Noon, Christmas Recess begins.

1948
Jan. 5 — Monday, 7:45 a. m., Christmas Recess ends.
Jan. 21 to 29 — Wednesday to Thursday, inclusive, Examinations.

Feb. 2 — Monday, 7:45 a. m., Second Semester begins.
March 24 — Wednesday, Noon, Easter Recess begins.
March 31 — Wednesday, 7:45 a. m., Easter Recess ends.
May 18 to 27 — Tuesday to Thursday, inclusive, Examinations.
May 31 — Monday, Commencement Exercises.

COLLEGE DRIVE WILL CONTINUE

The Expansion Fund campaign, which is receiving enthusiastic support from the alumni of Gettysburg College as well as from the citizens of Gettysburg and Adams county, will be continued intensively this fall among Lutheran churches of the Central Pennsylvania and Maryland Synods.

Dr. E. Martin Grove, pastor of Bethlehem Lutheran church, Harrisburg, is chairman of the executive committee of clergymen who, along with a large group of leading churchmen, and laymen will guide this phase of the campaign. This committee meets Thursday following the convocation exercises to make final plans for the promotion of the campaign.

\$300,000 is the goal of the church friends unit of the campaign, the dates of which will be October 26, Reformation Sunday, to November 2.

Campaign headquarters are being maintained at the Hotel Gettysburg. Richard C. Wetzel, prominent Reading industrialist, is general chairman of the expansion fund campaign, and is being assisted by William H. Patrick, Jr., of Philadelphia.

Eighty-five per cent of Puerto Rico's 400,000 families have an annual income of less than \$400 a year.

In ancient Babylon letters were written on the tablets and enclosed in baked clay envelopes.

NEW ATHLETIC FIELDS BUILT DURING SUMMER

Returning students and newcomers will find a vast change in the outdoor athletic setup at Gettysburg college this year.

Corps of workmen have been busily engaged throughout the summer in completely altering the athletic fields.

Nixon Field now presents one of the finest baseball fields in this section of the country as the result of the removal of the tennis courts along West Lincoln avenue. The removal of the courts permitted the tearing down of the high screen fence which previously had formed a right field barrier for the baseball field.

Today the outfield allows players to roam as far as they like in center and right field with unobstructed freedom, due also to the transfer of the track from Nixon Field to Memorial Field.

New Tennis Courts
Eight clay tennis courts have been built on college property at the rear of West Broadway. A 10-foot wire fence encloses the courts, which are in blocks of four each, with a grass plot separating the two groups. Greatest of the changes under the

new program has taken place on Memorial Field.

In order to make way for the track and permit the 250-yard straight-of-way in front of the bleachers on the south side of the field, the football field has been moved approximately 25 feet north of its old position.

The west end portion of the fence was removed and moved back to the roadway along the railroad tracks. Cement curbing protects each side of the track. Cinders are being placed on the track, which will be completed in the near future.

To Have New Bleachers
A gate, permitting entrance of trucks and motor vehicles, will be included in the erection of the fence at the west end of the field.

New steel bleachers, with a seating capacity of 1,600 are expected to be ready for the first game on October 4 with Western Maryland. The stands will be erected on the north side of the field while the bleachers formerly occupying that position will be used at the west end of the field.

It is planned to construct a storage plant under the permanent bleachers on the south side of the field.

Membership In College Fraternities Keeps Pace With School Enrollment

Chapters Organized Nearly Century Ago; Outstanding Grads Have Frat Affiliation

A new chapter is being written in the history of fraternities at Gettysburg college.

Following the leap in the enrollment figures at the college last year, fraternities have greatly increased the size of their undergraduate membership.

There are no longer any small fraternities at the college and many of the chapters have doubled or tripled their previous membership figures. Not many years ago, the largest chapters on the campus did not exceed 30 members while the largest now report 70 to 80 members.

Early History

The history of fraternities at the college goes back to the early days of the institution and to the beginnings of college fraternities in the nation. From the beginning of the first chapters here nearly a century ago, fraternity members have played important roles in campus life.

The first chapter was formed less than a quarter century after the founding of the college and from that day, dedicated to the high ideals of friendship, fraternities have advanced their "purpose of service to the group, the individual, the college and the community."

Besides including a large percentage of campus leaders on their rolls, Gettysburg college fraternity chapters have provided officers for their national organizations on a number of occasions.

Bring Honor to School

Many of Gettysburg's most outstanding alumni were fraternity men and have brought honor and distinction to their Alma Mater and to their chapters.

One of Gettysburg's claims to fame in the fraternity world is the fact that on the campus here stands the first chapter house erected in the Phi Kappa Psi fraternity and the first college fraternity in Pennsylvania.

Miller Hall, south of the president's residence on the campus and the former home of the Phi Kappa Psi fraternity here, also has been called the oldest fraternity house in the United States which has been exclusively and continuously occupied for fraternity purposes.

Four Co-ed Groups

Eleven fraternities for men—nearly all of them with national or international affiliations—now flourish on the campus at Gettysburg while four Greek letter groups for women, one of them a chapter in an international women's sorority, select increasingly large numbers of pledges from the student body each year.

The oldest chapter on the campus is Pennsylvania Epsilon chapter of Phi Kappa Psi, which was formed here in 1855. The national Phi Kappa Psi fraternity was founded at Jefferson college only three years earlier. The Gettysburg chapter was the seventh in the national organization.

Five members of the class of 1856 petitioned the general fraternity and the college authorities and received permission to establish a

chapter here. They started their first campus home, Miller Hall, in 1862. It was completed two years later at a cost of \$2,500 and was dedicated at commencement time. The building served until 1924 when the present home was built at a cost of \$16,000. The chapter here was designed as the Grand Chapter of the fraternity from 1884 to 1886.

In Oldest Group

Xi chapter of Phi Gamma Delta at Gettysburg claims the distinction of belonging to the oldest of the existing fraternities founded in Pennsylvania and the oldest fraternity, nationally, of the group represented on the local campus. The chapter here, fourteenth on the roll of national fraternity, was founded in 1858. Its first campus home was the second acquired by any Phi Gamma Delta chapter in the nation. Members here were responsible for formation of chapters at numerous other colleges. Gettysburg men have frequently filled national offices.

The local chapter of Sigma Chi became the fourth branch of its national body in this state in 1863. The chapter built Glatfelter lodge, north of Glatfelter hall and dedicated it in 1891 and was used until 1922 when the McPherson house on Carlisle street was given by John B. McPherson in 1922 as a memorial to his wife.

Local Magazine

The magazine Sigma Chi made its debut here in 1881 and one of the local chapter's founders, Philip M. Bickle, once was presiding officer for the national chapter.

Pennsylvania Beta chapter of Phi Delta Theta was inaugurated here in May, 1875. The chapter erected a lodge in the south section of the campus and sold it to Theta Kappa Nu when the Phi Theta acquired the Duncan home on West Lincoln avenue. That home has since been enlarged.

Alpha Tau Omega, founded in Richmond, Va., to help found good will among sections of the country after the Civil war, established its chapter in Gettysburg in 1882 as the college celebrated its semi-centennial. A chapter house begun on North Washington street in 1904 was destroyed by fire in 1914 but the next year the present house was erected on the same foundation.

SAE Is Organized

The application of a group of Gettysburg college students for a charter in the Sigma Alpha Epsilon fraternity, founded at the University of Alabama, precipitated a year-long debate in the national chapter but Pennsylvania Delta here was organized in 1883. Two years later it lapsed into inactivity but was re-instituted in 1899. After owning a house on Springs avenue, the present property on West Lincoln avenue was bought in 1923.

Rho Deuteron chapter of Phi Sigma Kappa inherited the tradition and prestige of the Druids when it was organized here in 1925. The Druids had been formed in 1897 and became the largest chapter of Phi Sigma Kappa with their affiliation 22 years ago. The Druids had been on North Washington street but

New SCA Building Rises From Ruins Of Fire

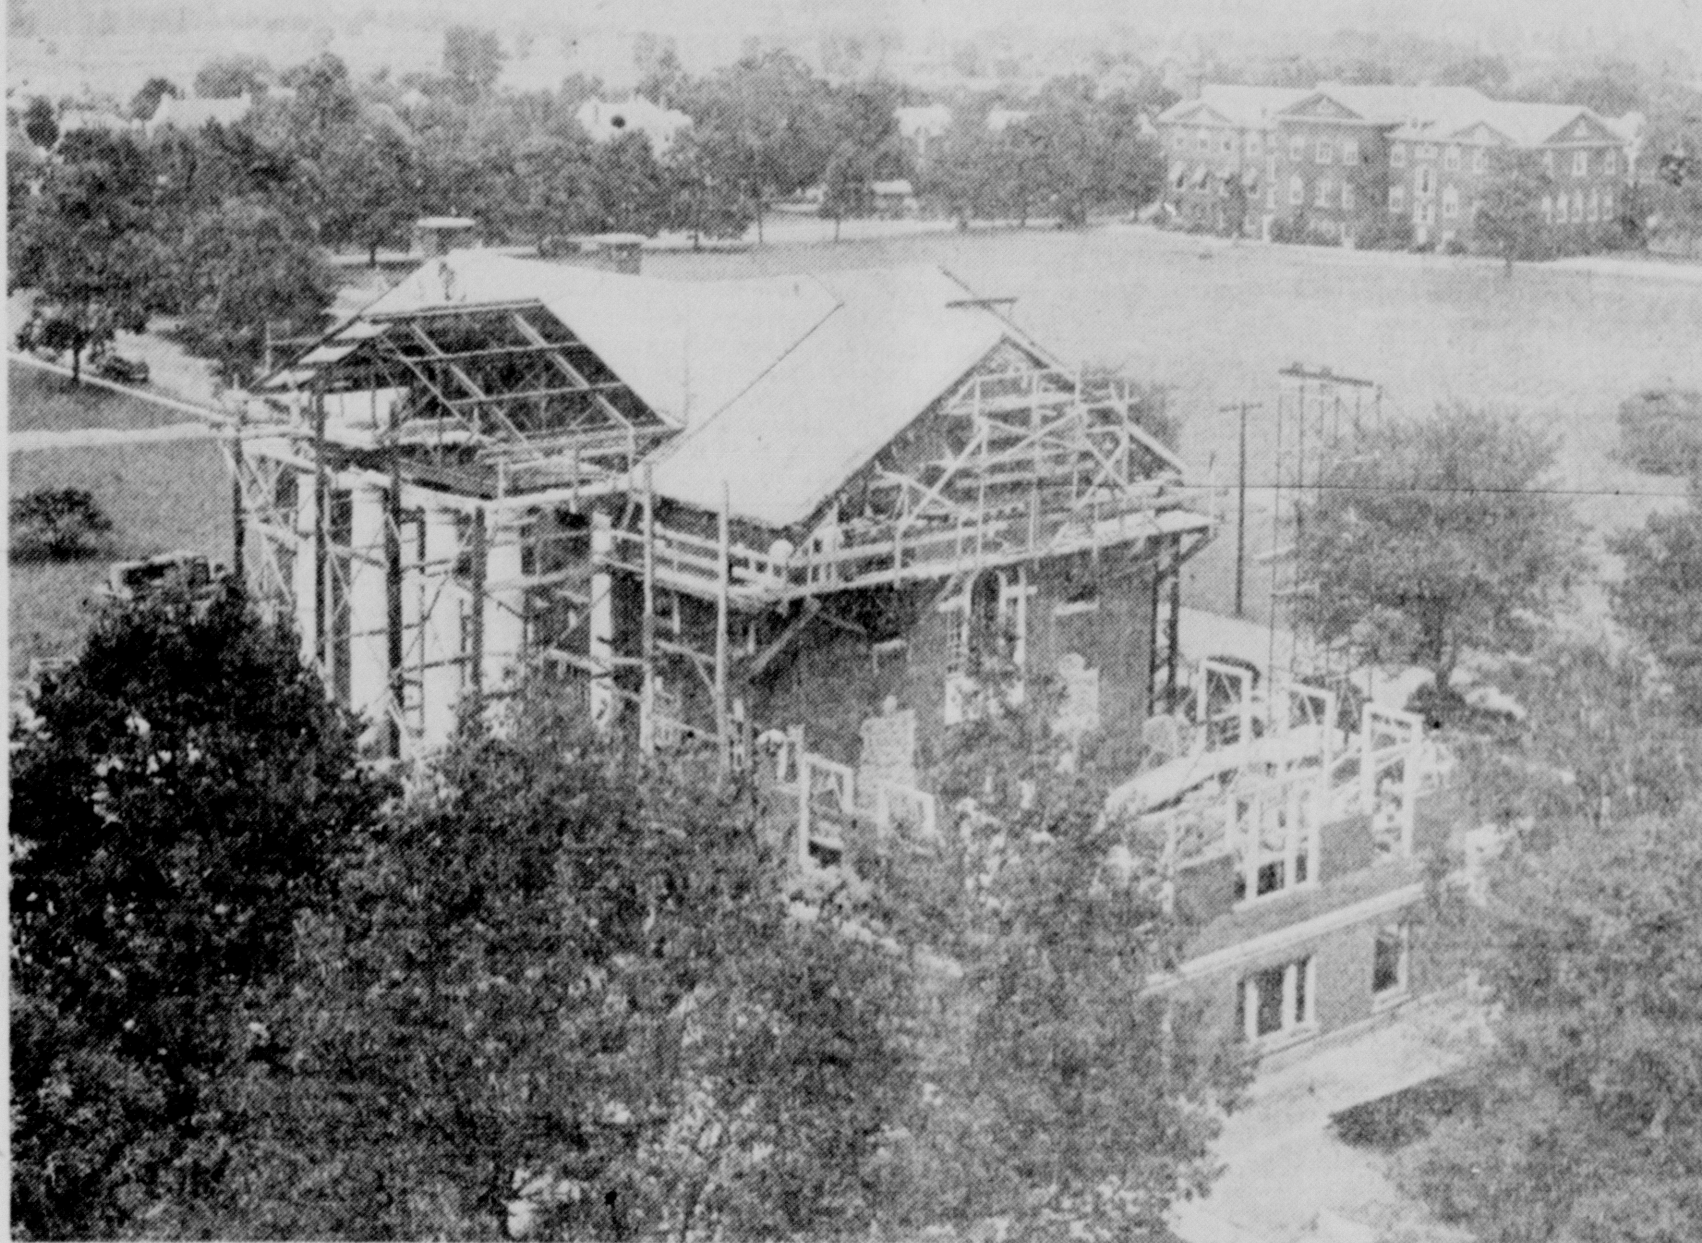

Photo by Lane Studio

Late last November the worst fire in the history of Gettysburg college gutted the Student Christian Association's building on the campus with an approximate loss of between \$50,000 and \$60,000.

From the ruins of this blaze is emerging a larger and more modern structure which will house SCA and other departments at the local institution.

The photograph on the right shows the fire at its height. It was taken from the cupola of Old Dorm by Philip Jones. Streams of water are being poured into the upper floor and on the roof of the burning building.

The top photograph, taken a few days ago from the same position by Walter Lane, of the Lane studio, Gettysburg, shows the progress made thus far by workmen rebuilding the damaged structure. The annex on the south side* of the building is shown on the right. A similar addition is being constructed on the north side.

bought the former Eddie Plank home on Carlisle street in 1925 shortly before affiliating with the fraternity.

The history of the Kappa Delta Rhos goes back to 1909 on this campus when a group of students organized under the name of Theta Phi. The group bought a home on West Lincoln avenue in 1927 and petitioned the national chapter of Kappa Delta Rho for a charter. The initiation took place in 1928.

TKE Gets Charter

A local fraternity formed in 1916

under the name of Delta Kappa Sigma furnished the background for the present Tau Kappa Epsilon chapter of the national fraternity.

chapter which did not resume until 1921. In 1923, the present chapter house, the boyhood home of Coach Henry T. Bream on West Lincoln avenue, was acquired. The charter from the national TKE was granted

in 1926. The youngest national fraternity on the campus is the Lambda Chi Alpha, successor to the former Theta Kappa Nu who first formed in 1916 under the name of Phi Sig-

ma. The group held together during World War I and was one of the original chapters which formed the national Theta Kappa Nu fraternity in 1924. In 1939, the fraternity affiliated with Lambda Chi Alpha and occupied a home on West Broadway.

Phi Kappa Rho, initiated locally by members of a boarding club in 1923, later expanded its membership in 1940 by the absorption of the Star club. The Phi Kappa Rhos here had started out as the Criterion club and continued as such until 1928 when the Greek letters were adopted and internal changes were made for the group to qualify as a local fraternity.

Sorority Life

Sorority life at Gettysburg college comes of age this year, for it was in November, 1916, that the Beta Lambda sorority was organized here. An alumnae association was formed in 1927. In 1939, after the reappearance of the coed on

the campus, the revived Beta Lambda affiliated with the international women's fraternity, Delta Gamma.

Second sorority on the campus was inaugurated 23 years ago under the name of Gamma Phi and with the return of co-education at Gettysburg, Gamma Phi affiliated with the national fraternity of Chi Omega under the name of Tau Delta chapter in 1937.

Newest women's groups on the campus are the Phi Mu and the Chi Alpha Sigma organizations. On January 27, 1945, the Phi Phi Phi—or Tri-Phi—announced that the local group had become affiliated with Phi Mu, the second oldest fraternity for women. The local group was three years old when it affiliated.

Chi Alpha Sigma was formed on the campus in March, 1942, and was accorded recognition as a social club in 1944. The next milestone was reached in January, 1946, when it was accepted as a local sorority.

Bream Begins 21st Season As Head Coach Of Bullet Eleven

Henry T. Bream, entering his 21st year as head coach of football at Gettysburg college, is the oldest grid mentor, in point of continuous years of service at one institution, in the east, and perhaps in the country.

During his long term of service at his alma mater, where he excelled in three major sports, Bream, known to his intimates and players alike as "Hen," is an amiable fellow off the gridiron, but on the field he is a strict disciplinarian. He has achieved an enviable record for the Orange and Blue during his 20-year tenure in the top position.

It was a rather slender, young Hen Bream, weighing less than 150 pounds who excelled at football, basketball, and baseball at Gettysburg high school. From high school he entered Gettysburg College, and since the freshman one-year rule was not yet in existence, he played three major sports, again on the gridiron, court, and diamond. A brilliant athlete in all three, he ran into a bit of hard luck. He broke an arm playing basketball, a leg at football, and some fingers at baseball. In spite of all this he captained his eleven one year, and led the basketball squad for two successive seasons.

Successful Mentor

After his graduation in 1924 he coached two years at Phoenixville, Pa. high school. There his teams won the conference championship the first year and tied for second place the following season. Then, in 1926, Bream returned to his alma mater as freshman football coach under his former mentor W. W. "Bill" Wood. When Wood resigned the next year Bream took up the reins as varsity coach.

Since that day Bream-coached teams have proven that he was wisely chosen. During the time he has served, Orange and Blue gridiron teams have captured four Eastern Pennsylvania Collegiate Conference championships, and have been co-champions four times. The Conference

was in existence nine years.

Won 80 Games

His eleven have a record of 80 victories, 9 ties and 52 losses for a winning percentage of .606. He also coaches basketball for the Orange and Blue and his teams have been one of Pennsylvania's leaders.

Bream has seen a lot of football in the twenty years he's been around. He has seen stars come and go and great fighting teams rise and then slip away into the athletic past. In his opinion the two most brilliant Bullet eleveners that he coached, however, were the teams of 1928 and 1939.

When asked what game had given him his greatest thrill, Hen merely smiled and replied, "That's pretty hard to say. Perhaps it was back in 1930 when we were tangling with Villanova in Philadelphia. We had one player on our club, a stout-hearted back named Larry Morris, who had a withered hand. He loved the game, and was one of the most courageous griders I've ever seen. Late in the second quarter we got the ball near the Wildcat goal-line and Morris booted a neat field goal through the uprights. A few plays later he had to be carried off the field with a broken collarbone. We won that game 3-0. I don't believe I'll ever forget it."

Better Prospects

It's not strange that such an incident should stick in the mind of the friendly Bullet coach, for it's that human, heart-warming side of Bream that has made him and his teams what they are today.

Following a three-year layoff on the gridiron because of the war, Bream was forced to build a team from green material in 1946 and wound up with four wins against five losses. With fifteen lettermen returning from that club and numerous players coming up from an undefeated junior varsity squad the Bullet mentor is once again looking forward to brighter days on the Bullet gridiron.

Gettysburg College's 1947 Football Squad

Head coach of football Henry T. Bream brought his squad of 42 aspirants for berths on the Orange and Blue grid eleven home today from a vigorous ten-day training period at Laurel Lake. The photograph was taken at camp. In the group are:

First Row: Junior varsity coach LeRoy Bloomingdale, Andrew Natale, guard; Theodore Pegg, back; Clifton Brough, guard; Walter Kierker, center; Tom Gallagher, guard; Joe Cervino, back; Allison Reece, guard; Fred Haehnlen, back; Lester Gilmann, guard, and Paul Florian, back.

Second Row: Line Coach Clyde Cole, Martin Pavelic, tackle; Tony Cervino, back; Nelson Gible, back; Charles Reider, tackle; Robert Court,

end; Warner Moore, tackle; Ross Sachs, back; Howard Cauffman, end; Arthur Smith, guard; Richard Constable, back and trainer Romeo Capozzi.

Third Row: Head Coach Henry T. Bream; Gene Hummel, guard; Ray Kreider, back; Robert Edwards, end; Robert Johnson, back; Al McCoy, back; Charles Rambo, back; William Atherholt, back; Robert McCausland, end; Harry Newbert, tackle; Frank Hoffman, guard, and equipment manager, Bud Ecker.

Fourth Row: Albert Musselman, back; James Way, back; Ralph Rock, center; Jack Gilligan, center; David Rasmussen, end; Robert Schlegel, tackle; Tom Diviney, end; Milton McClain, center; Ned Linta, back; William Thomson, tackle, and Dudley Tremble, end.

C. E. BILHEIMER HEADS COLLEGE SPORTS DIVISION

The Gettysburg college Athletic department and coaching staff remains virtually the same for the school year with but one addition. Clarence Bartholomew, a graduate of the University of Pennsylvania, who gained his M.A. while instructing part-time, will be the assistant professor of health and physical education.

During the school year 1946-47, Gettysburg was approved by the state for the department of Health and Physical Education with any male student permitted to select a major in that department.

Athletic Director Clayton E. Bilheimer, a graduate of Lehigh U. and later coach at York College Institute, is the man who supervises the sports program. Since arriving here in 1927 he has done much to further athletics at Gettysburg. Bilheimer plans the schedules, provides for the seating arrangements (which is a headache in these times of enlarged student bodies), buys equipment, directs the overall intra-mural program and does many other duties. His secretary is Mrs. Donald R. Gallon, Baltimore, wife of a student.

Bream Is Head Coach

Henry T. Bream, well-known to Gettysburgians, is the football and basketball coach.

This year for the first time since 1941 a freshman rule will be instituted, in conjunction with other colleges of the United States, which will prohibit freshmen and transfers from playing their first year at school.

Other Coaches

Clyde Cole, a graduate of Penn State, came to Gettysburg a year ago in the capacity of line coach and wrestling coach. LeRoy Bloomington also arrived on the local scene in the fall of 1946 to coach the junior varsity football squad. His charges were undefeated in a stiff four game schedule.

William D. Hartshorne, Jr., is the tutor of the soccer team. Hartshorne, an assistant professor of Romance languages, will be assisted by Eric K. Diehl, Jr., Hanover, who graduated in June and who was a standout for the Bullet booters in 1946.

Joseph Wolfinger, a member of the English department, is the coach of the golf team. His linksmen won six, lost three and placed sixth in a multi-entry meet at Western Maryland.

Phil Jones, who did his undergraduate work at Franklin and Marshall, is the swimming coach. A swimming schedule was not undertaken last year after fire destroyed Weidensall Hall. This year it is hoped the new building will be completed in time for the local mermen to compete in the six dual meets and one triangular meet that are scheduled.

Plank Coaches Baseball

Ira Plank, baseball coach, has been directing the activities of Gettysburg nines for 32 years. Plank, a brother of the famed Eddie Plank who was admitted to the Hall of Fame at Cooperstown, N. Y., came back to the town of Gettysburg after much diamond activity that took him as high as the International League. His teams have won 247 games, lost 147 for an average of .627.

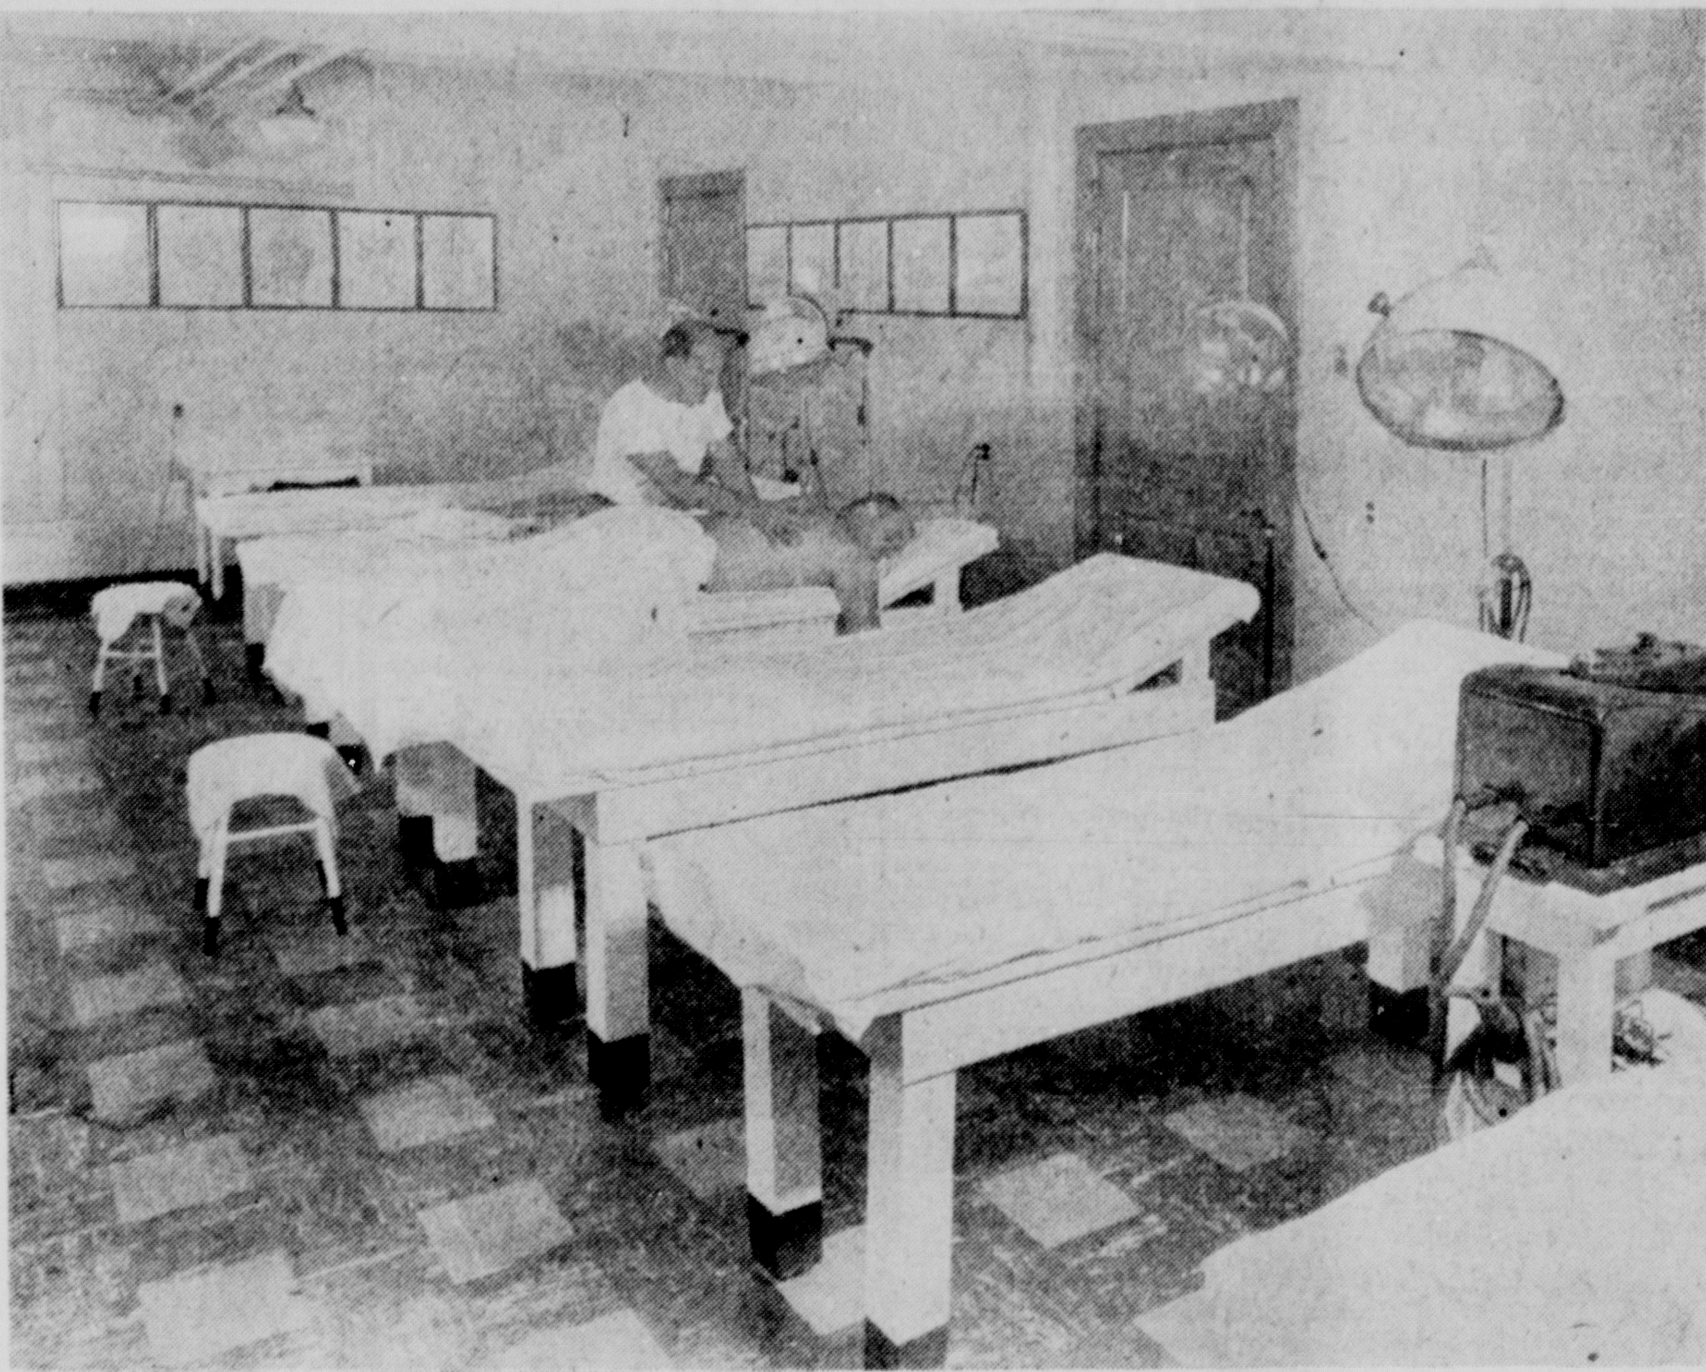

Trainer Romeo Capozzi is another 20-year man who came to Gettysburg in 1927. Rome is well-known to alumni, students, faculty and townsmen alike. His knowledge (and willingness to apply it) has saved the college many health bills and won for Capozzi lasting affection in the hearts of many athletes.

There were no mammals or marsupials in New Zealand until men imported them.

Remodeled Trainer's Room In Eddie Plank Gymnasium

Romeo Capozzi, for many years trainer of athletes at Gettysburg college, is shown in the newly renovated training room in the basement of the Eddie Plank gymnasium. Capozzi is shown "working" on an athlete who suffered a shoulder injury. Five dressing tables, new heat lamps and therapeutic machines have been installed. A new linoleum floor was laid and other equipment added making it one of the most complete dressing rooms in the east.

Girls Attending Gettysburg College Always Maintained High Scholastic Marks

Studious Interest Shown By Former GI's Is Spur To Greater Competition

"Despite the larger classes, there is much more scholarship in Gettysburg college today than before the war," Miss Dorothy Gregg Lee, dean of women at the school said today.

In giving details of the arrangements made for the 173 girls who will attend the institution this year, Miss Lee added that "while some colleges have reported that for the first time in their histories the men have attained much higher averages than the female students, that has not been true here."

"But the girls have had to study harder and do more work in order to continue their traditionally high marks," she said. "One girl last year explained: 'every time one of the professors so much as mentions a book or magazine that might contain something in connection with the class, all of the GI's read it, and we have to read it, too.'"

Work Hard to Keep Up

Miss Lee added that "the GI's are intensely serious students and the co-eds seem to have enough pride to work harder than ever to keep up with, or surpass the GI's."

The female student body at the college this year will be about 12 less than last year's membership, with the college planning not to use Myrtle Terrace as a girl's dormitory this season.

Among the girl students are a number of wives of GI's and two students from other countries.

One of the out-of-country students will be Miss Ruby Caines, from Mexico, who through friendship with Mrs. Louis Quintanilla learned of Gettysburg college. She is coming here to perfect her English as well as to complete her education.

The other is Miss Jacqueline Bouchong, of Paris, France, who plans to arrive as soon as she can obtain passage from France. Miss Bouchong wrote to Gettysburg college that she had a friend in an Iowa university.

The French girl wrote to the friend in Iowa stating she wanted to go to a U. S. college and wanted to go to a smaller institution rather than a university. The friend wrote back about Gettysburg, Miss Bouchong wrote to Gettysburg college and as a result is expected to arrive here this fall. Dr. Albert Bachman, of the college faculty, met the girl this summer in Paris and completed arrangements for her to attend here.

A Red Cross worker in France during the war, Miss Bouchong is said to speak and write perfect English.

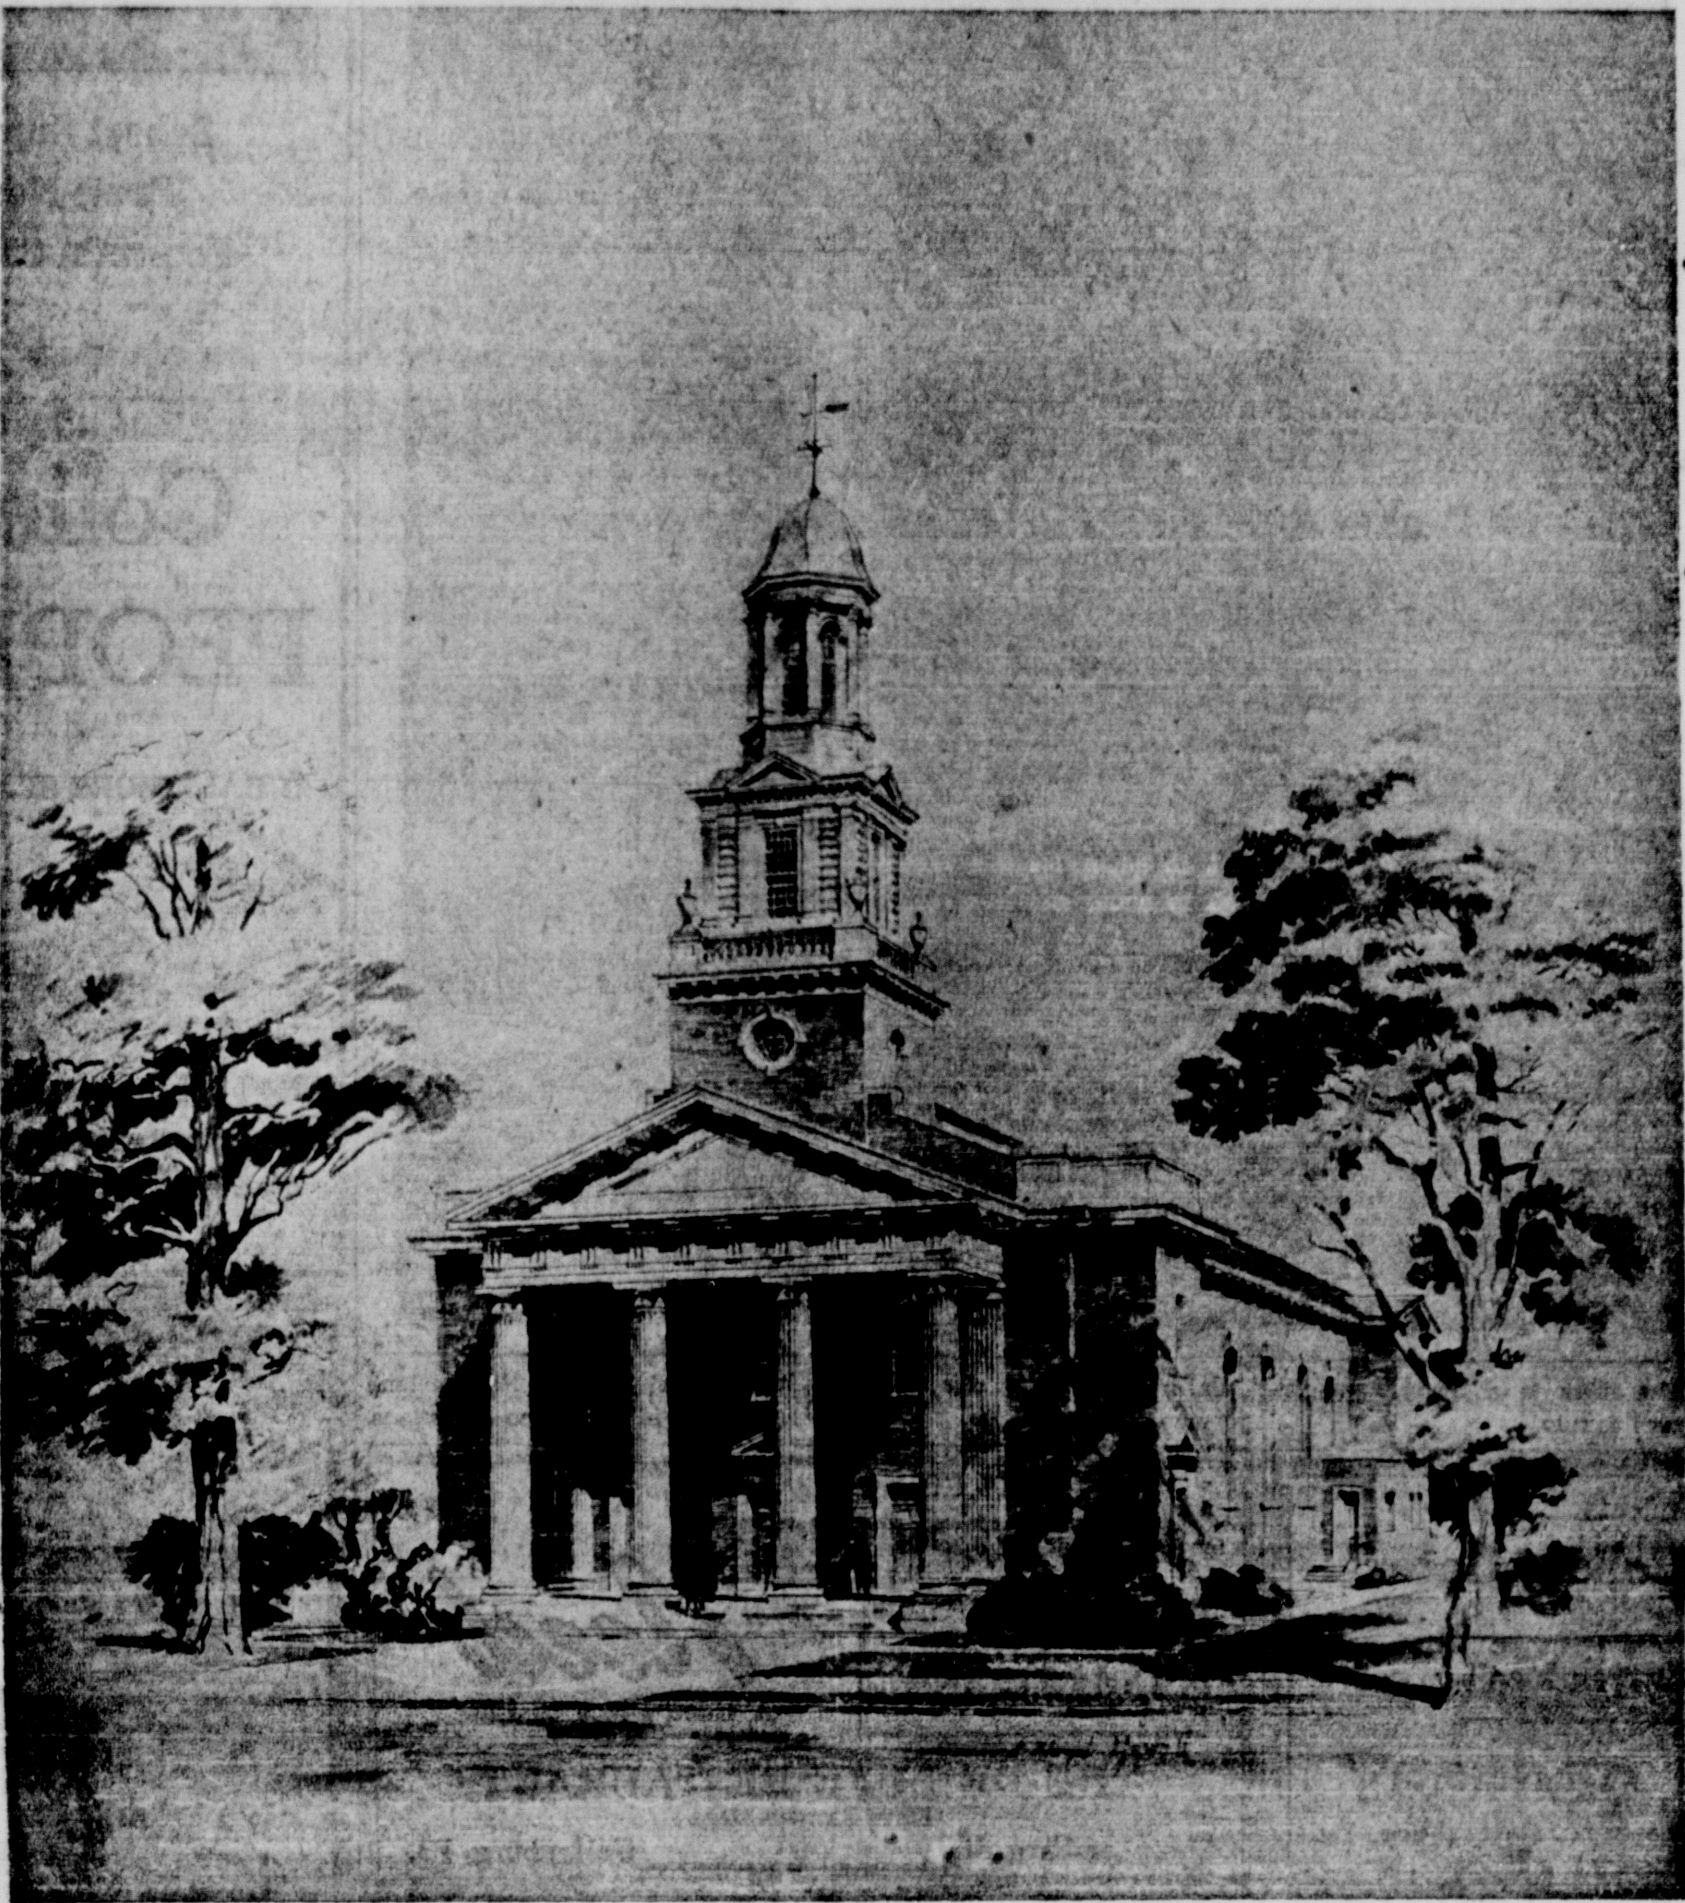

The 140 boarding students of the women's division arrived Sunday night and Monday while the 33 day students reported to register and will begin their studies with the formal opening of college Thursday.

Workmen this past week put the finishing touches to replastering Huber Hall and installing new showers on the third floor there. Students' rooms in various buildings were redecorated and other changes made during the summer.

Marcia Maguire, a student at the college last year, joined the women's division staff this year as an instructor directing the women's activities program in physical education, Miss Lee said. Miss Maguire, according to the dean of women, was outstanding in physical education during her student days here and has been a counselor in various summer camps for girls.

The same house mothers as last year: Mrs. Pearl Sadler at Huber Hall; Mrs. Loretta Deatrick at Stevens Hall and Miss Winifred Campbell at Aughinbaugh Hall have been retained for the coming year. Mrs. Mabel Phelps continues in charge of the dining room which served its first meal at noon Monday.

Proposed New College Chapel

Miles of track operated by U. S. railroads reached a peak of 429,823 in 1931, declining to about 390,000 in 1945.

The amount of land in the United States too wet for cultivation but drainable is estimated at 91 million acres.

BEST WAYS TO
SPEND MONEY

By ARTHUR EDSON

Washington, Sept. 16 (AP)—Are you having trouble making both ends meet?

Does your pocketbook get that listless, rundown feeling long before payday?

Is balancing your budget about as simple as balancing on a tightwire during a windstorm?

Then take your troubles to junior. He may know more about spending your money wisely than you do.

This advice comes from the National Education Association (NEA), an outfit that has strayed a long way from readin', ritin' and 'rith-metic.

Make School

Backed by the National Better Business Bureau, the educators have completed a study called, "Consumer Education in Your School."

The idea, says the NEA, is to give high school kids skill in buyman-ship. Make them sharp, so they'll get the most for their, or dad's, money.

For the benefit of those of us who have our little financial difficulties, I hunted up Dr. Belmont Farley of NEA to ask, "What's up?"

"Just this," said Dr. Farley. "What's the point of teaching a youngster vocational skills so that he can make more money—and then having him spend that money foolishly?"

"Economically speaking, he's no better off than before."

But don't get the idea this is entirely newfangled. Twenty-six per cent of all the larger high schools have courses in consumer education.

"And most schools have been doing a little of this," said Dr. Farley.

Get Shopping Tips

"I guess we got it into the arithmetic books first, with problems on how to balance your budget."

"Girls have picked up shopping tips in home economics. Boy have obtained a better conception of values from business administration."

"But this study shows that all schools can, and should, give specific instruction in how to buy sensibly and how to be a wise spender."

Dr. Farley thinks it would be a good idea for adults to take the course too.

"Including teachers," added teacher Farley. And then he asked: "Who has to stretch a dollar farther than I do?"

Quit shoving, in your rush to answer teacher's question. I had my hand up first.

Pi Delta Epsilon

Those students who have done outstanding work on any of the college publications are eligible to membership in Pi Delta Epsilon which is a national journalistic society for men and women. Its aim is to create interest in journalism and to increase proficiency in literary work. Adviser: To be appointed.

Sceptical Chymists

Sceptical Chymists, a local honorary society for majors in the field of chemistry and those interested in this field, was founded on our campus in 1929. Its purpose is to stimulate collateral reading, group discussion, and research and to introduce its members to new developments in chemistry. Adviser: Dr. John B. Zinn.

1931 the Sages became affiliated with the national society, Alpha Kappa Alpha, and was designated Gamma Chapter. Regular monthly meetings are held to feature outstanding guest speakers, papers by students, open discussions and social activities. Adviser: Dr. Norman E. Richardson, Jr.

"ONE OF OUR
MOST COMPLETE
FOODS"

SAYS FOOTBALL COACH

Lynn Waldorf

● Lynn Waldorf, shrewd soft-spoken coach of Northwestern's famed Fighting Wildcats, knows that a well-balanced diet is important. Not only for champion athletes, but for everyone.

Says Lynn Waldorf: "Homogenized Vitamin D Milk is one of our most complete foods. Most athletes make it an important and enjoyable part of each meal. Young boys who will be our future sports champions find Homogenized Vitamin D Milk an ideal food to help build strong and vigorous bodies."

Our Homogenized Vitamin D Milk is Nature's most nearly perfect food—now better! Better because it has added Vitamin D—helps the body to make better use of milk's bone-building minerals, calcium and phosphorus. This in addition to milk's other abundant vitamins and minerals!

This milk is smoother, creamier-tasting, too, because it is homogenized—cream and Vitamin D in every drop. Serve it often—a better food for all the family.

Gettysburg Ice & Storage Company

HOMOGENIZED

Vitamin D Milk

SCA Building In Ruins

Delta Phi Alpha

The foundations for Der Deutsche Verein, the forerunner of the Kappa Zeta Alpha Chapter of Delta Phi Alpha, are almost contemporaneous with the establishment of our college itself. Now a part of the national fraternity, this organization admits only those students whose grade in German is not less than "B" and who "show a special aptitude and willingness to take an active part in the fraternity and a readiness to further and promote the interest in the German language and literature in our institution." Lectures concerning the "Pennsylvania Deutsch" and the German-American organizations in the United States are emphasized. Adviser: Dr. William K. Sundermeyer.

Kappa Phi Kappa

Last year, after several semesters of inactivity, Epsilon Chapter of Kappa Phi Kappa was reactivated. Formed for the men on campus who are education minors, this organization promotes social as well as professional activities. Open meetings are held bi-weekly and subjects relating to the field of education are discussed by various speakers. Adviser: Prof. Lester O. Johnson.

Independent Men's Organization

For students who are not members of fraternities, the Independent Men's Organization on campus affords opportunities of organizing for social and athletic activities and campus representation. Every non-fraternity student has the privilege of considering himself a member of this group. Adviser: Dr. Myron L. Simpson.

Pre-Ministerial Association

All students of every denomination studying for the ministry are eligible for membership in the Pre-Ministerial Association. In its monthly meetings this organization promotes fellowship and good will among the members and by means of religious lectures and discussions it helps them to equip themselves for Christian work. Adviser: Dr. William C. Waltemyer.

Scabbard And Blade

Scabbard and Blade, a national honorary military society, is composed of students enrolled in the advanced courses, Reserve Officers' Training Corps. The local chapter, E Company, Third Regiment, was established in 1922. Its members concern themselves with matters of a military nature, including their preparation for becoming members of the Officers Reserve Corps, United States Army. Its purpose is to further the desire for distinction in military service. The organization sponsors several social functions throughout the year, including the annual Military Ball. Adviser: Col. Alfred E. McKenney.

Pen And Sword

In 1897 the Pen and Sword honorary fraternity was established on Gettysburg campus. It is composed of five juniors and 10 seniors who are elected by the student body for outstanding performance in forensic, literary, or musical activities or in athletics. It honors those who have "expressed through participation their willingness to further the welfare of their Alma Mater." Pen and Sword hopes to be reactivated this year.

Phi Alpha Theta

Established on campus in 1939, the Omega Chapter of Phi Alpha Theta encourages high scholarship in history. Junior and Senior majors in this field who have high academic standing are eligible for membership. Qualified speakers lecture at bi-semester meetings. Adviser: Dr. Robert Fortenbaugh.

Phi Beta Kappa

The Iota of Pennsylvania chapter of the nationally famous Phi Beta Kappa was established at Gettysburg in 1923. Not more than 10 per cent of the graduating class are elected to membership each year. These students are chosen from the first 15 per cent of the class on the basis of scholarship, campus leadership, high moral character, and promise of future creative work. President: Dr. George R. Miller.

Inter-Fraternity Council

The coordinating factor in inter-fraternity activities on the campus is the Inter-Fraternity Council. Representatives from each of the national fraternities serve as members. This group conducts and supervises the two inter-fraternity dances, the intramural sports programs, the rushing activities, as well as the general program designed to promote harmony among the fraternities. Adviser: Dr. Frank H. Kramer.

Women's Athletic Association

All the women of the college are members of this organization, one of the most active on campus. It was organized in the Spring of 1944. Students who act as managers of the various sports compose its

governing body. This association sponsors individual, group, and intramural sports, in addition to inter-collegiate contests in field hockey, basketball, and swimming. It plans to increase the number and variety of such contests in the future. Adviser: To be appointed.

Kappa Delta Epsilon

The only honorary fraternity on campus solely for women, Kappa Delta Epsilon is comprised of women students interested in the field of education. This organization, founded in March, 1939, sponsors cultural programs and trips to various types of educational institutions. Adviser: Rebecca Sachs.

Pi Lambda Sigma

Gamma Chapter of Pi Lambda Sigma was organized at Gettysburg in 1929. Students of high standing majoring in political science and

Gettysburg Honor Society

The Gettysburg Honor society was organized in 1934 by faculty action. This society gives recognition to outstanding students and faculty members. Students with at least a "B" average and 20 activity points and members of the faculty who have served the college for 10 years automatically become members. President: Dr. Henry W. A. Hanson.

Tau Kappa Alpha

Established at Gettysburg in 1917, this national honorary forensic fraternity aims "to recognize excellence in public speaking and to de-

evelop and promote interests in oratory and debate." At an annual banquet new members, who are elected from the men and women who have been outstanding representatives of the college in the field of forensics, are initiated. Adviser: To be appointed.

Chess Club

All those students who are eager to demonstrate their intellectual powers are welcome to any of the weekly meetings. Knowing that practice makes perfect, all members look forward to those moments of mental relaxation every Monday evening. Adviser: Dr. William K. Sundermeyer.

Pan-Hellenic Council

At present Pan-Hell is composed of three representatives from each of the three national sororities, one

The Sketch Club

The Sketch Club, organized four years ago by students interested in art, is now recognized officially as a campus organization. Meetings are held one afternoon each week under the direction of a program committee and the club adviser. The campus and surrounding countryside afford an interesting variety of subject material. Adviser: Mrs. Dunning Idle.

Senior, one Junior, and one alumna. Its purpose is to promote friendly relationships between sorority and in sorority women and among the sororities themselves. It is the governing body which establishes the rules for rushing and the general regulations for the sororities.

The number of railway passenger cars on U. S. class I railroads reached a peak of 54,773 in 1926, declining to 38,273 in 1945.
